Doing English Grammar Roger Berry, 2021-03-11 Grammar is integral to teaching English as a second language, and yet there is often a disconnect between theory and practice. This book bridges that gap by introducing key theories of English grammar and showing how they can be applied in

teaching. By drawing on an eclectic range of sources, and using a multidisciplinary approach, Berry links advances in our knowledge of grammar, from theoretical and descriptive viewpoints, with developments in pedagogical practices, to provide a comprehensive overview of the whole process of grammar. The second part of the book contains four case studies of key areas of English grammar in which the insights of the earlier chapters are applied, illustrating how grammar theory is used in practice. Offering new insights into the way English grammar works, this book is invaluable for all professionals who 'do' English grammar: teachers, grammarians, textbook writers and syllabus designers, testers and researchers.

Step-up English Grammar and Composition 2 (A.Y. 2023-24)Onward Fr Francis M Peter, 2023-05-20 Language is one of the highest forms of expression. It acts as the medium to make our ideas, thoughts and feelings understood and appreciated. Like art, language can touch the heart and inspire the soul. And, at the heart and soul of a language, lies its grammar. Grammar helps the learners build a firm foundation for using the language. It is, therefore, very important for learners

to develop the grammar skills that they need in order to express themselves meaningfully and creatively. Step-up English Grammar and Composition 1-8 is an NEP-aligned, carefully-graded grammar series developed to address the need of a systematic and step-wise strategy for understanding grammar. The series is based on the eclectic approach to language acquisition and presents a smooth blend of the inductive as well as the deductive method of teaching and learning the language. Each concept has been covered in detail, and great care has been taken to offer the relevant core concepts for the learners at each level. Last but not least, the utmost care has been taken to encapsulate in the series the key parameters laid down in National Education Policy (NEP) 2020. The NEP places the learner at the heart of the teaching-learning process. In recent years, there has been a paradigm shift towards designing a learner-centric curriculum that is based on an activity-based approach. There is also an equal emphasis on equipping young learners with essential twenty-first-century skills. The text as well as the activities in the book promote the holistic development of the learners. Besides, there is a lot of emphasis on enhancing the creativity, critical thinking, and communication and collaboration skills of learners.

- All the explanations and exercises have been coupled with learner-friendly layout and illustrations for additional support.
