Entrepreneurial Women in the Caribbean Talia R. Esnard, 2022-10-27 Adopting an intersectional lens, this book comparatively examines the multiple processes and systems of power that frame the experiences of female entrepreneurs in the Caribbean and the fluid ways in which they respond to these. Specifically, it challenges entrepreneurial scholars who are concerned with the experiences of women within that sector to critically interrogate interlocking structures of power (e.g. gender, race, class, age, industry-based hierarchies) that operate within that space, the marginalizing effects of related processes, and the extent to which these affect their thinking and practices of female entrepreneurs within the region. Through comparative lenses, the book highlights the structural and relational realities and complexities that undergird the entrepreneurial landscape within the region, the effects of these on the entrepreneurial identities, positionalities, and practices of female entrepreneurs. It underscores the many ways in which they navigate that terrain. In so doing, the book offers critical insights into the historical, socio-cultural and economic parameters within which female entrepreneurs in the region engage, the lived realities associated with these, the prospects or possibilities for re-presenting or re-framing such contextual and discursive spaces. It also provides necessary understandings of the motivations, positions, prospects, possibilities and constraints of entrepreneurial women in the region and the policy implications of these realities. This book offers insights for scholars and policymakers that are important for (i) understanding the current gaps in entrepreneurial research and policy, (ii) the tools, methods, and strategies that are needed to address these contextual and discursive realities, and ultimately, (iii) the ways in which policy makers and local governments can promote the authentic empowerment of female entrepreneurs in the region, while giving considerations to precarious realities of women.

Breaking Glass - Broken Barriers Joyce Verplank Hatton, 2018-05-29 Joyce Verplank Hatton's life has embraced community and political leadership, entrepreneurial success, love and family, and worldwide sailing adventures. Writing with courage and candor, she shares her life's journey following a trail from a small harbor town on Lake Michigan to Aspen Colorado, New York City, Washington, D.C., and beyond, while skiing the Rockies and sailing the Caribbean. Hatton's entrepreneurial drive became evident in 1957 when she developed the first nursery school in Western Michigan, the first child care company to go public in 1970, and the first multi-state computerized USDA child care food program in 1976. Encouraged by a supportive family and a dynamic mentor, Hatton also established herself in media ventures that included FM radio, UHF television, and cable networks. Hatton brought her leadership experience to state and national politics as well: she was a candidate for Michigan's new State Board of Education in 1964, Republican County Chairman in President Gerald Ford's Fifth District, and a delegate to the 1968 GOP national convention in Miami. And she logged over a decade of ocean sailing, charting the

course with a talented lifelong sailor. In this personal narrative, Hatton hopes to encourage other women to value independent economic status, be entrepreneurial, take risks, and march to their own drum.

Entrepreneurship for Caribbean Students Lystra B. Stephen-James, 2018

Understanding the Caribbean Enterprise Lawrence A. Nicholson, Jonathan G. Lashley, 2016-06-24

This engaging book fills a substantial gap in the understanding of Caribbean enterprises, focusing upon FOBs (family-owned businesses) about which, despite accounting for 70% of private sector employment in the region, very little is known. Concentrating on MSMEs which represent the majority of FOBs in the English-speaking Caribbean, the authors compare and contrast their experiences to those in developed countries, focusing in particular on areas such as family business succession, business financing and marketing. *Understanding the Caribbean Enterprise* provides context-specific lessons from a historical perspective of business and entrepreneurship, which in turn provide an understanding of the current issues facing MSMEs and FOBs in the English-speaking Caribbean.

Entrepreneurial Selves Carla Freeman, 2014-11-12 *Entrepreneurial Selves* is an ethnography of neoliberalism. Bridging political economy and affect studies, Carla Freeman turns a spotlight on the entrepreneur, a figure saluted across the globe as the very embodiment of neoliberalism. Steeped in more than a decade of ethnography on the emergent entrepreneurial middle class of Barbados, she finds dramatic reworkings of selfhood, intimacy, labor, and life amid the rumbling effects of political-economic restructuring. She shows us that the déjà vu of neoliberalism, the global hailing of entrepreneurial flexibility and its concomitant project of self-making, can only be grasped through the thickness of cultural specificity where its costs and pleasures are unevenly felt. Freeman theorizes postcolonial neoliberalism by reimagining the Caribbean cultural model of 'reputation-respectability.' This remarkable book will allow readers to see how the material social practices formerly associated with resistance to capitalism (reputation) are being mobilized in ways that sustain neoliberal precepts and, in so doing, re-map class, race, and gender through a new emotional economy.

Evolving Entrepreneurial Strategies for Self-Sustainability in Vulnerable American Communities

Sanchez-Barrios, Luis Javier, Gomez-Nunez, Liyis, 2017-08-11 Entrepreneurship has significant impacts on a nation's economic infrastructure. Discovering new ways to promote entrepreneurial growth within undervalued communities can help ensure financial growth, as well as provide a boost to the current economy. *Evolving Entrepreneurial Strategies for Self-Sustainability in Vulnerable American Communities* is an essential scholarly resource that identifies initiatives for entrepreneurs in underdeveloped areas to utilize. Featuring pertinent topics that include poverty reduction, informal investment, and social entrepreneurship, this reference publication is ideal for academicians, students, entrepreneurs, business owners, and researchers that are seeking innovative strategies to boost the economy and provide more jobs across the nation.

Critical Perspectives on Entrepreneurship Caroline Essers, Pascal Dey, Deirdre Tedmanson, Karen

Verduyn, 2017-02-17 Entrepreneurship is largely considered to be a positive force, driving venture creation and economic growth. *Critical Perspectives on Entrepreneurship* questions the accepted norms and dominant assumptions of scholarship on the matter, and reveals how they can actually obscure important questions of identity, ideology and inequality. The book's distinguished authors and editors explore how entrepreneurship study can privilege certain forms of economic action, whilst labelling other, more collective forms of organization and exchange as problematic. Demystifying the archetypal vision of the white, male entrepreneur, this book gives voice to other entrepreneurial subjectivities and engages with the tensions, paradoxes and ambiguities at the heart of the topic. This challenging collection seeks to further the momentum for alternate analyses of the field, and to promote the growing voice of critical entrepreneurship studies. It is a useful tool for researchers, advanced students and policy-makers.

A Cup of Cappuccino for the Entrepreneur's Spirit Jeretta Horn Nord, Cindy Patterson Thompson, 2009 Volume 2 has additional editor, Cindy Patterson Thompson.

Reputation and Image Recovery for the Tourism Industry Gabby Walters, Judith Mair, 2019-04-30 Crises and disasters that impact tourism can have extensive reputational implications for the organisations and destinations involved. This text uses real life cases studies to contextualise the relevant theories and unpacks examples of best practice to show how carefully managed response strategies can ensure the organisation's future survival.

Still the Promised City? Roger David Waldinger, 1999 Waldinger examines why African-Americans have fared so poorly in securing unskilled jobs in the postwar era and why new immigrants have done so well. Using New York to look at the relationships among race, immigration, and social mobility, Waldinger offers a new understanding of a serious social problem and fresh approaches to attacking it.

Latin American Entrepreneurs Daniel Lederman, Julian Messina, Samuel Pienknagura, Jamele Rigolini, 2013-12-13 Entrepreneurship is a fundamental driver of growth, development, and job creation. While Latin America and the Caribbean has a wealth of entrepreneurs, firms in the region, compared to those in other regions, are small in size and less likely to grow or innovate. Productivity growth has remained lackluster for decades, including during the recent commodity boom. Enhancing the creation of good jobs and accelerating productivity growth in the region will require dynamic entrepreneurs. *Latin American Entrepreneurs: Many Firms but Little Innovation* studies the landscape of entrepreneurship in Latin America and the Caribbean. Utilizing new datasets that cover issues such as firm creation, firm dynamics, export decisions, and the behavior of multinational corporations, the book synthesizes the results of a comprehensive analysis of the status, prospects, and challenges of entrepreneurship in the region. Useful tools and information are provided to help policy makers and practitioners identify policy areas governments can explore to enhance innovation and encourage high-growth, transformational entrepreneurship.

Winning Strategies for Micro, Small and Medium Enterprises Edward Alphonso Harris, 2017-04-18 ABOUT THE BOOK! This book is dedicated to all those persons who seek to break loose from the pains of poverty and seek their financial independence, through owning their own businesses. Whether you are handicapped by insufficient finance or have adequate start-up capital for your business, the same level of discipline and knowledge will be necessary. I am very much aware of the volumes of books that have been written on the subject of Small Business Start Up, Development and Management. However, I made the conscious decision to take a different approach and share my personal experiences, highlighting the many obstacles I encountered along the way in my more than 55 years of active involvement in the private sector in Guyana and the Caribbean. The path to achieving success in business begins with a mindset, which is based upon information and education about the implications of business and a passion to succeed. In this age of information technology, the path to establishing a successful business is well documented. There is no lack of information on how to develop a business and take it through its stages to being successful. My objective in this book is to present to my readers a holistic approach to developing and maintaining a successful business. The information provided herein is not limited only to my personal experiences and successes but also shares my several failures along the way, especially failing to do the necessary things for achieving success. I wish to address specifically the operations of the MICRO, SMALL and MEDIUM ENTERPRISES (MSMEs) within the private sector which account for as much as eighty five (85) percent of the workforce in some countries. The private sector is referred to as the engine of growth but MSMEs are the engine of employment. Many governments fail to give the level of support necessary to this vitally important segment of the economy. I invite you to journey with me as we navigate a path towards understanding the peculiarities, intricacies, technicalities and strategies employed in the operations of MSMEs globally but the Caribbean in particular. Cultures may differ, but business speaks an international language whether you are in an underdeveloped, less developed or developed country. It is my sincere wish that all persons reading this publication, especially employees who in our modern society seem to be at war with their

employers, will get an understanding of the challenges involved in managing a business. I am convinced that a lack of understanding of what it takes to be in business among employees is largely responsible for the state we find ourselves as business leaders and owners. I am fully convinced that every worker has the potential to be a business owner, surely many will. I exhort them to be the best example in their actions as they strive to equip themselves with the discipline and skills that will turn their entrepreneurial dream into reality - when they in turn will expect nothing less than commitment from their employees. Nothing but the best will do! I am delighted to share my experiences with you. It is my fervent wish that you will take action on whatever business idea that resonates with you. I present to you what I consider to be winning strategies for MSMEs - Enjoy! You are invited to visit my archive of approximately 400 articles: www.stluciasimplybeautiful.com

Competitive Spirits R. Andrew Chesnut, 2003-08-07 For over four centuries the Catholic Church enjoyed a religious monopoly in Latin America in which potential rivals were repressed or outlawed. Latin Americans were born Catholic and the only real choice they had was whether to actively practice the faith. Taking advantage of the legal disestablishment of the Catholic Church between the late 1800s and the early 1900s, Pentecostals almost single-handedly built a new pluralist religious economy. By the 1950s, many Latin Americans were free to choose from among the hundreds of available religious products, a dizzying array of religious options that range from the African-Brazilian religion of Umbanda to the New Age group known as the Vegetable Union. R. Andrew Chesnut shows how the development of religious pluralism over the past half-century has radically transformed the spiritual economy of Latin America. In order to thrive in this new religious economy, says Chesnut, Latin American spiritual firms must develop an attractive product and know how to market it to popular consumers. Three religious groups, he demonstrates, have proven to be the most skilled competitors in the new unregulated religious economy. Protestant Pentecostalism, the Catholic Charismatic Renewal, and African diaspora religions such as Brazilian Candomble and Haitian Vodou have emerged as the most profitable religious producers. Chesnut explores the general effects of a free market, such as introduction of consumer taste and product specialization, and shows how they have played out in the Latin American context. He notes, for example, that women make up the majority of the religious consumer market, and explores how the three groups have developed to satisfy women's tastes and preferences. Moving beyond the Pentecostal boom and the rise and fall of liberation theology, Chesnut provides a fascinating portrait of the Latin American religious landscape.
