Ask a Manager Alison Green,2018-05-01 From the creator of the popular website Ask a Manager and New York's work-advice columnist comes a witty, practical guide to 200 difficult professional conversations—featuring all-new advice! There's a reason Alison Green has been called "the Dear Abby of the work world." Ten years as a workplace-advice columnist have taught her that people avoid awkward conversations in the office because they simply don't know what to say. Thankfully, Green does—and in this incredibly helpful book, she tackles the tough discussions you may need to have during your career. You'll learn what to say when • coworkers push their work on you—then take credit for it • you accidentally trash-talk someone in an email then hit "reply all" • you're being

micromanaged—or not being managed at all • you catch a colleague in a lie • your boss seems unhappy with your work • your cubemate's loud speakerphone is making you homicidal • you got drunk at the holiday party Praise for Ask a Manager "A must-read for anyone who works . . . [Alison Green's] advice boils down to the idea that you should be professional (even when others are not) and that communicating in a straightforward manner with candor and kindness will get you far, no matter where you work."—Booklist (starred review) "The author's friendly, warm, no-nonsense writing is a pleasure to read, and her advice can be widely applied to relationships in all areas of readers' lives. Ideal for anyone new to the job market or new to management, or anyone hoping to improve their work experience."—Library Journal (starred review) "I am a huge fan of Alison Green's Ask a Manager column. This book is even better. It teaches us how to deal with many of the most vexing big and little problems in our workplaces—and to do so with grace, confidence, and a sense of humor."—Robert Sutton, Stanford professor and author of The No Asshole Rule and The Asshole Survival Guide "Ask a Manager is the ultimate playbook for navigating the traditional workforce in a diplomatic but firm way."—Erin Lowry, author of Broke Millennial: Stop Scraping By and Get Your Financial Life Together

A Manager's Mind Christian J. Evans,2006-02-23 Ever wonder what it's like to be a manager?

Maybe you have taken on the title and don't really know what you're getting into. If so, this is the book for you. Christian Evans gives an overview of every aspect there is to know for first-time managers. "I wrote this book because I wanted to share my experiences with everyone. I remember when I first took on this position, I didn't have a clue about what I was getting into. I know there are people getting started in this field who have the same questions I had. Through my experiences, I have your answers." Universally written, A MANAGER'S MIND is made for you from genuine experiences and told through a first hand point of view.

Learning Theory in the Practice of Management Development Sara Grant,Aharon Kfir,Stephen A. Stumpf,Mary Anne Watson,1998-05-21 The workplace is the ideal environment for tying together management theory and practice and yet, classes in many regular management development programs are conducted away from the work site, and class sizes are so large that individual instruction is difficult to achieve. In this book, the authors seek effective ways to merge theory with workplace practice, and advocate the modular preceptor method whereby participants work together in dyads and triads with a preceptor acting as advisor and instructor. Unlike traditional management development programs which do not usually lead to behavior changes, the modular preceptor model has behavior change as the basic aim. Participants can remain at work while experiencing individualized learning, developing problem solving skills, and acquiring new knowledge which can be immediately applied to work situations. Various ways of learning, such as passive (lecture, case study, discussion) and experiential (role playing, games, sensitivity training) are examined. No single mode of learning can be comprehensive and adequate for all situations. The

authors contend, however, that experiential learning is most effective for increasing the will and competence to learn and for using what is learned to change manager behavior. The purpose of the modular preceptor approach is not to present answers to specific managerial or organizational problems, but to help the participant acquire new problem definition and problem solving skills, and the confidence to apply them on the job. This book also analyzes the contribution of the behavioral sciences to the philosophies and techniques behind management instruction, and examines the role of the university in management development and the future direction of MBA programs. For anyone concerned with meaningful and effective management development, this book is an invaluable resource.

Enhancing Hubble's Vision David J. Shayler,David M. Harland,2015-11-25 This book tells the story of the four missions to maintain Hubble's successful operation. Between 1997 and 2009 these repaired, serviced and upgraded the instruments on the telescope to maintain its state-of-the-art capabilities. It draws on first hand interviews with those closely involved in the project. The spacewalking skills and experiences gained from maintaining and upgrading Hubble had direct application to the construction of the International Space Station and help with its maintenance. These skills can be applied to future human and robotic satellite servicing and maintenance activities as well, not only in Earth orbit but at locations deeper in space. A companion to this book, The Hubble Space Telescope: From Concept to Success, relates the events of the Telescope's launch in 1990 and its rough start, after a 20-year struggle to place a large optical telescope in orbit. Originally intended to operate for fifteen years, Hubble has just passed its 25th anniversary, and there is every expectation that it will survive for thirty years. Despite its early problems, the Hubble Space Telescope has become a lasting legacy of the Space Shuttle program, and indeed is a national treasure.
