Special Events Medical Services American Academy of Orthopaedic Surgeons, Clay Richmond, Doug Poore, 2010-09-27 From staffing to set-up, Special Events Medical Services (SEMS) prepares EMS personnel to properly plan for and manage medical response at any type of special event in their community. This concise, highly interactive continuing education course consists of the SEMS textbook and online course. Since no two special events are alike; SEMS covers the basic principles to apply when planning for and working at any type of special event, including: Preplanning; First aid station planning and set-up; Communications; Safety concerns; Mass-casualty considerations; Chapters on specific types of events include weather and outdoor events, stadium and mega-events, equestrian events and rodeos, and extreme and combat sports events. The SEMS online course walks students through the process of creating an emergency medical response plan and implementing it during a special event. An access code for the SEMS online course is printed on the inside front cover of this textbook. Upon successful completion of the course, students will receive a Course Completion Certificate from the American Academy of Orthopaedic Surgeons. Providing standby services for special events requires specialized knowledge and skills beyond initial EMS training. With special events medical services training, new and seasoned EMS personnel alike can ensure a timely and appropriate medical response regardless of the special event size or type.

Gallop to Freedom Frederic Pignon, Magali Delgado, 2019-09-24 When *Cavalia*—the amazing equestrian-themed spectacular, melding costumes and theatrics with stunt riding and haute école—first took North America by storm, few people knew who Frédéric Pignon and Magali Delgado were. But the whole world was soon abuzz with talk of the magical display these two remarkable individuals provided their audience—whether horse-crazy or layperson, none could walk away unaffected by the powerful connection they demonstrated with their unparalleled cast of beautiful horses. In this remarkable book, now available in paperback, Frédéric—a specialist in liberty and ground work—and Magali—a talented dressage rider at the Grand Prix level—combine efforts and share the secrets of the breathtaking relationships they have cultivated over the course of their lives with horses. They tell the story of *Templado*—the gorgeous but rebellious stallion who demanded they question all they had learned as horsemen and look at, in a whole new light, what it means to train horses. It was this tempestuous character that taught them that the process of building a relationship with a horse can be on more equal footing than most would dream possible. It is with this life-altering lesson in mind that Frédéric and Magali now explain their Six Golden Principles. These include how you can become a safe haven—the most important being in your horse's life—while ensuring he gets the leadership he craves and deserves. And, how to establish acceptable limits of behavior, as well as respect, without ever succumbing to anger or using force. They describe how to read horse behavior so you can better understand and communicate with your equine partner as an individual. Plus, you'll see what it means to be patient and give your horse a say in his own training—and just how rewarding the results can be. In a chapter devoted to their practical approach, you'll explore what is perhaps most central to their methods: the idea of play and how games can be used to develop a horse's intelligence, confidence, and desire to perform, whether at liberty or in the most difficult of competitive environments. Magali shares the example of her Grand Prix mount *Dao*, with whom she has reached the pinnacle of European competition, and whom dressage judges praise for his supple and stress-free performances. Both Frédéric and Magali once thought they had become skilled and compassionate riders and trainers, but found that the monumental challenges presented by *Templado* turned their beliefs upside down and made them start again from the beginning. They now view their work with horses as a journey of endless discovery and infinite rewards. With this book, full of phenomenal color photographs of their horses, many of whom appeared in the show that first made them famous, you can join—and learn from—them.

Jock Mahoney Gene Freese,2013-10-17 Iowa-born Jock Mahoney was an elite athlete and U.S. Marines fighter pilot prior to falling into a film career. He is widely considered to be one of the greatest stuntmen in movie history, having taken leaps and bounds for Errol Flynn, John Wayne, Randolph Scott, and Gregory Peck. One of the first stuntmen to successfully move into acting, he was the popular star of the 1950s television westerns Range Rider and Yancy Derringer and twice played Tarzan on the big screen, presenting a memorable portrayal of an educated, articulate and mature jungle lord true to author Edgar Rice Burroughs' original vision. Filming in real jungles around the world took a physical toll on Mahoney that transformed him from leading man to burly character actor. He had to overcome the effects of a stroke but true to his tough guy nature rose above it to resume his life's many adventures. Mahoney was beloved by fans at conventions and appearances until his untimely demise in 1989 from a stroke-caused motor vehicle accident.
