Ross-Ade Robert C. Kriebel,2019-07-15 Dave Ross (1871-1943) and George Ade (1866-1944) were trustees, distinguished alumni and benefactors of Purdue University. Their friendship began in 1922 and led to their giving land and money for the 1924 construction of Ross-Ade Stadium, now a 70,000 seat athletic landmark on the West Lafayette campus. Their life stories date to 1883 Purdue and involve their separate student experiences and eventual fame. Their lives crossed paths with U.S. First Lady Eleanor Roosevelt, Henry Ford, Amelia Earhart, and Will Rogers among others. Gifts or ideas from Ross or Ade led to creation of the Purdue Research Foundation, Purdue Airport, Ross Hills Park, and Ross Engineering Camp. They helped Purdue Theater, the Harlequin Club and more. Ade, renowned author and playwright, did butt heads with Purdue administrators at times long ago, but remains a revered figure. Ross's ingenious mechanical inventions of gears still steer millions of motorized vehicles, boats, tractors, even golf carts the world over.

A History of Germany in the Middle Ages Ernest Flagg Henderson,1894

Achtung-Panzer! Heinz Guderian,1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

The Making of Modern Colombia David Bushnell,1993-02-09 Colombia's status as the fourth largest nation in Latin America and third most populous—as well as its largest exporter of such disparate commodities as emeralds, books, processed cocaine, and cut flowers—makes this, the first history of Colombia written in English, a much-needed book. It tells the remarkable story of a country that has consistently defied modern Latin American stereotypes—a country where military dictators are virtually unknown, where the political left is congenitally weak, and where urbanization and industrialization have spawned no lasting populist movement. There is more to Colombia than the drug trafficking and violence that have recently gripped the world's attention. In the face of both cocaine wars and guerrilla conflict, the country has maintained steady economic growth as well as a relatively open and democratic government based on a two-party system. It has also produced an impressive body of art and literature. David Bushnell traces the process of state-building in Colombia from the struggle for independence, territorial consolidation, and reform in the nineteenth century to economic development and social and political democratization in the twentieth. He also sheds light on the modern history of Latin America as a whole.
