Mongolian Music, Dance, & Oral Narrative Carole Pegg,2001 This book celebrates the power of music, dance, and oral narrative to create identities by imaginatively connecting performers and audiences with ethnic and political groupings, global and sacred landscapes, histories and heroes, spirits and gods.Three distinct cultural eras of Mongolian society are represented. Many Mongolsare now performing publicly the diverse traditions of Old Mongolia that they practised in private following the communist revolution of 1921; some are perpetuating the Soviet transformations of those traditions introduced prior to 1990; and yet others are dipping their curly-toed boots into new performance arts as they revel in musical encounters on the global stage. By highlighting the sheer variety ofrepertories, this book illustrates the rich diversity of Mongolia's peoples andperformance arts.An accompanying compact disc contains musical examples linked to the text.Carole Pegg is ethnomusicology editor for the New Grove Dictionary of Musicand Musicians and associate lecturer in social anthropology at the University of Cambridge, England. As an ethno-musicologist and musician she has been working with nomadic groups in remote areas of Mongolia and Inner Mongolia, China, and with urban Mongols in both countries since 1987. She has also toured with Mongol musicians in England and Hong Kong.

Soviet Music and Society Under Lenin and Stalin Neil Edmunds,2004-06 This book investigates the place of music in Soviet society during the eras of Lenin and Stalin. It examines the different strategies adopted by composers and musicians in their attempts to carve out careers in a rapidly evolving society, discusses the role of music in Soviet society and people's lives, and shows how political ideology proved an inspiration as well as an inhibition. It explores how music and politics interacted in the lives of two of the twentieth century's greatest composers - Shostakovich and Prokofiev - and also in the lives of less well-known composers. In addition it considers the specialist composers of early Soviet musical propaganda, amateur music making, and musical life in the non-Russian republics. The book will appeal to specialists in Soviet music history, those with an interest in twentieth century music in general, and also to students of the history, culture and politics of the Soviet Union.
