**Naked Conversations** Robert Scoble, Shel Israel, 2006-04-12 From the creator of the number one business blog comes a powerful exploration of how, and why, businesses had better be blogging: *Naked Conversations*. According to experts Robert Scoble and Shel Israel, blogs offer businesses something that has long been lacking in their communication with customers -- meaningful dialogue. Devoid of corporate-speak and empty promises, business blogs can humanize communication, bringing companies and their constituencies together in a way that improves both image and bottom line. The authors use more than 50 case histories to explain why blogging is an efficient and credible method of business communication. You'll find yourself excited about the possibilities blogs present after reading just a few pages. Discover how: Prominent business leaders, including Mark Cuban of the Dallas Mavericks, Bob Lutz from General Motors, and Jonathan Schwartz of Sun Microsystems, are beginning to use blogs to connect with their customers in new ways. Blogging has changed the rules of communication and competition. You can launch an effective blogging strategy and the reasons why you should. Featuring a foreword by Tom Peters, this is a resource you and your business can't do without.

Digital Convergence - Libraries of the Future Rae Earnshaw, John Vince, 2007-09-20 The convergence of IT, telecommunications, and media is changing the way information is collected, stored and

accessed. This revolution is having effects on the development and organisation of information and artefact repositories such as libraries and museums. This book presents key aspects in the rapidly moving field of digital convergence in the areas of technology and information sciences. Its chapters are written by international experts who are leaders in their fields.

**Film and Television Stardom** Kylo-Patrick R. Hart, 2009-01-14

Film and Television Stardom examines film and television stars as a collectively complex, intriguing social phenomenon from the early twentieth century to the present day. Its range of topics includes (but is certainly not limited to) the emergence and historical development of the star system, silent-film stardom, stardom and media spectatorship, stardom and consumption, stardom and the paparazzi, reality-television “stars,” stars in the news, and studies of individual stars. In addition to providing numerous new insights and approaches to exploring the phenomenon of film stardom (past and present), its various chapters significantly expand the comparatively nascent body of academic writing that has been devoted to investigating the historical and theoretical aspects of television stardom by focusing on both traditional television programming genres and the more recent phenomenon of reality-television programming. The numerous stars addressed in this book (including Roseanne Barr, Gertrude Berg, Ingrid Bergman, Cher, Sacha Baron Cohen, Bette Davis, Jodie Foster, Jerry Lewis, Carmen Miranda, Anita Page, Jessica Simpson, and James Stewart) are analyzed in relation to noteworthy performances in a variety of well-known films (including *The Accused*, *The Broadway Melody*, *Cinderella*, *Citizen Kane*, *Dark Victory*, *The Man from Laramie*, *Persona*, and *Singin’ in the Rain*) and television programs (including *Da Ali G Show*, *The Apprentice*, *The Goldbergs*,

Roseanne, and Survivor).

Portals to the Past and to the Future Jürgen Seefeldt, Ludger Syré, 2017 The advent of the digital era has raised questions on the future course of library development. The challenge of maintaining a balance between their educational, cultural and service roles has presented libraries with new challenges - challenges which their rich and varied media holdings, modern technical infrastructure and information specialist competence well equip them to face. This fourth revised and updated English edition of *Portals to the Past and to the Future* by Jürgen Seefeldt and Ludger Syré, now in its fifth German edition, is an in-depth state-of-the art report on current German librarianship. Lavishly illustrated, the book traces the history of libraries in Germany, portrays the various types of library and cites many examples of the outstanding achievements of nationwide library cooperation in the Federal Republic of Germany. The reader will gain both a revealing insight into the cultural and educational policy underlying the German library system and an outline of the profession. Special attention has been paid to current developments such as the preservation and presentation of the common cultural heritage and the emergence of the digital library. This book has been translated not only into English but also into Arabic, Italian, Japanese, Spanish, Russian and Turkish and is now the standard work on libraries and librarianship in Germany. Because of the interest it has generated internationally, it was decided to publish the German and English versions of this new edition simultaneously. The book provides trainee librarians and non-librarians alike with a clear picture of the way in which libraries were able to cooperate in the aftermath of the Second World War to overcome the vagaries of the federal

system and create an effective decentralized library network more than a match for the challenges of the third millennium.

**Island Rivers** John R. Wagner, Jerry K. Jacka, 2018-06-19

Anthropologists have written a great deal about the coastal adaptations and seafaring traditions of Pacific Islanders, but have had much less to say about the significance of rivers for Pacific island culture, livelihood and identity. The authors of this collection seek to fill that gap in the ethnographic record by drawing attention to the deep historical attachments of island communities to rivers, and the ways in which those attachments are changing in response to various forms of economic development and social change. In addition to making a unique contribution to Pacific island ethnography, the authors of this volume speak to a global set of issues of immense importance to a world in which water scarcity, conflict, pollution and the degradation of riparian environments afflict growing numbers of people. Several authors take a political ecology approach to their topic, but the emphasis here is less on hydro-politics than on the cultural meaning of rivers to the communities we describe. How has the cultural significance of rivers shifted as a result of colonisation, development and nation-building? How do people whose identities are fundamentally rooted in their relationship to a particular river renegotiate that relationship when the river is dammed to generate hydro-power or polluted by mining activities? How do blockages in the flow of rivers and underground springs interrupt the intergenerational transmission of local ecological knowledge and hence the ability of local communities to construct collective identities rooted in a sense of place?

**Das Leben Der Schwedischen Gräfin Von G\*\*\*** Christian

Furchtegott Gellert, 2018-04-05 Christian Fürchtegott Gellert

(1715-1769) war ein deutscher Dichter und Moralphilosoph der Aufklärung und galt zu Lebzeiten neben Christian Felix Weiße als meistgelesener deutscher Schriftsteller. Seine Werke - besonders seine Fabeln - zählten in der Übergangszeit zwischen Aufklärung, Empfindsamkeit und Sturm und Drang zu den meistgelesenen in Deutschland. Durch seine breite Wirkung trug er zur Bildung eines allgemeinen Lesepublikums in Deutschland bei und ebnete so den Weg für die Dichter der folgenden Generationen. Seine Lustspiele brachten erstmals bürgerliche Figuren und deren Milieu auf die Bühnen; der Roman Leben der schwedischen Gräfin von G\*\*\* hatte die Ethik bürgerlicher Moral zum Gegenstand und war Wegbereiter des Romans in Deutschland. Aus dem Buch: Als ich mich den Morgen darauf noch mit dem Grafen beratschlagte, was wir unserm Paare heute für ein Vergnügen machen wollten, trat ein Bedienter herein und sagte, daß ein Engelländer meinen Gemahl sprechen wollte. Sobald er die Tür öffnete, so sagte uns sein Gesicht, daß es Steeleys Vater wäre. Er hatte ein eisgraues Haupt; aber seine muntern Augen, sein rotes Gesicht und trotziger Gang widerlegten seine Haare. »Ich suche«, fing er auf französisch an, »meinen Sohn bei Ihnen; oder da ich in meinem Leben wohl nicht so glücklich sein werde, ihn wiederzusehen: so will ich wenigstens hören, ob Sie nicht wissen, wo er ist.

Boundless cyber world? Nadia Kutscher, Stefan Iske, Hans-Uwe Otto, Alexandra Klein, 2007-07-12 Welche Bedeutung haben technische Ausstattung und soziale Zugangsorte für die Teilhabe im virtuellen Raum? Welchen Einfluss haben soziale Rahmenbedingungen auf Nutzungsdifferenzen und welche Ausprägungen finden sich in dieser Hinsicht bei Jugendlichen? In der Beantwortung dieser neuen Fragestellungen führt der Band international herausragende ExpertInnen aus verschiedenen Disziplinen zusammen. Zentrale Fragen der Bildungsteilhabe in der Informations- und Wissensgesellschaft gerade für die nachwachsende Generation, die häufig als DIE Mediengeneration schlechthin gilt, werden im Zusammenhang mit der Problematik der digitalen Spaltung thematisiert und systematisiert. Die erstmalige Zusammenführung dieser unterschiedlichen Blickwinkel führt zu neuen Erkenntnissen über die Bildungsherausforderungen des Internet.

**Henry, King of France** Heinrich Mann, 2004 In 'Henry, King of France', the sequel to 'Young Henry of Navarre', the compelling epic

of Henry IV's reign over France is followed to its tragic destiny. The novel recounts two decades of chaos and war that led to the triumphant founding of the French Republic and culminated in the King's assassination in 1589.

Hyper/Text/Theory George P. Landow, 1994-12-05 In his widely acclaimed book *Hypertext* George P. Landow described a radically new information technology and its relationship to the work of such literary theorists as Jacques Derrida and Roland Barthes. Now Landow has brought together a distinguished group of authorities to explore more fully the implications of hypertextual reading for contemporary literary theory. Among the contributors, Charles Ess uses the work of Jürgen Habermas and the Frankfurt School to examine hypertext's potential for true democratization. Stuart Moulthrop turns to Deleuze and Guattari as a point of departure for a study of the relation of hypertext and political power. Espen Aarseth places hypertext within a framework created by other forms of electronic textuality. David Kolb explores what hypertext implies for philosophy and philosophical discourse. Jane Yellowlees Douglas, Gunnar Liestol, and Mireille Rosello use contemporary theory to come to terms with hypertext narrative. Terrence Harpold investigates the hypertextual fiction of Michael Joyce. Drawing on Derrida, Lacan, and Wittgenstein, Gregory Ulmer offers an example of the new form of writing hypertextuality demands.

*The Crisis of the 14th Century* Martin Bauch, Gerrit Jasper Schenk, 2019-12-16 Pre-modern critical interactions of nature and society can best be studied during the so-called Crisis of the 14th Century. While historiography has long ignored the environmental framing of historical processes and scientists have over-emphasized nature's impact on the course of human history, this volume tries to

describe the at times complex modes of the late-medieval relationship of man and nature. The idea of 'teleconnection', borrowed from the geosciences, describes the influence of atmospheric circulation patterns often over long distances. It seems that there were 'teleconnections' in society, too. So this volumes aims to examine man-environment interactions mainly in the 14th century from all over Europe and beyond. It integrates contributions from different disciplines on impact, perception and reaction of environmental change and natural extreme events on late Medieval societies. For humanists from all historical disciplines it offers an approach how to integrate written and even scientific evidence on environmental change in established and new fields of historical research. For scientists it demonstrates the contributions scholars from the humanities can provide for discussion on past environmental changes.

**Of Two Minds** Michael Joyce, 1995 An acclaimed hypertext novelist's reflections on art and technology, nonlinearity, and the creative process

*Connect and Divide* Ulrike Bergermann, Erhard Schüttpelz, Monika Dommann, Jeremy Stolow, 2021 Media divide and connect simultaneously: they act as intermediaries between otherwise disconnected entities, and as a 'middle' that mediates, but also shields different entities from each other. This ambiguity gives rise to conflicting interpretations, and it evokes all those figures that give a first clue about this janus-faced relationship of 'connect and divide': gate-keeper, parasite, amongst others. If we give accounts of media before and after their mediated action, we refer to persons and organizations, automatisms and artifacts, signals and inscriptions, and we seem to find it easy to refer to their distinct potentials and dis/abilities. But within the interaction? the 'middle' of media itself

seems to be distributed right across the mix of material, semiotic and personal entities involved, and the location of agency is hard to pin down. In case of breakdown we have to disentangle the mix; in case of smooth operations action becomes all the more distributed and potentially untraceable? which makes its attribution a matter of the simultaneously occurring distribution of (official and unofficial) knowledge, labour and power. The empirical and historical investigation of this two-faced relationship of 'connect and divide' has thus resulted in a veritable 'practice turn in media studies'.<sup>0</sup> The publication studies four aspects of the practice turn in media studies: Media history from a praxeological perspective, the practice turn in religion and media studies, the connecting and dividing lines of media theories concerning gender and post\_colonial agencies, and a historical and theoretical examination of the current relationship of media theory and practice theory.

A Long Way from Verona Jane Gardam, 2013-11-05 “Far more than just another coming-of-age story” from the award-winning author of the *Old Filth* trilogy (*Bustle*). Jane Gardam’s marvelous stories of young girls on the threshold of womanhood—*God on the Rocks* and *Crusoe’s Daughter*—have delighted fans and critics alike. These “modern classics” are now joined by a novel that is equally fresh and genuine, comic and touching (*The Independent*). Jessica Vye introduces herself with an enigmatic pronouncement: “I ought to tell you at the beginning that I am not quite normal, having had a violent experience at the age of nine.” A revered author has told Jessica that she is, beyond all doubt, a born writer. This proves an accurate prediction of the future, one that indelibly colors her life at school and her perception of the world. Jessica has always known that her destiny would be shaped by her refusal to conform, her

compulsion to tell the absolute truth, and her dedication to observing the strange wartime world that surrounds her. What she doesn't know, however, is that the experiences and ideas that set her apart will also lead her to a new and wholly unexpected life. Told with grace and inimitable wit, *A Long Way from Verona* is a wise and vivid portrait of adolescent discovery and impending adulthood. "A book to be judged by the highest standards." —The Spectator "A brilliant, witty, and agonizingly true-to-life novel." —The Times Literary Supplement "A fiercely funny and personal book." —The Economist "The qualities for which Gardam is cherished (the quirkiness, the bright-eyed wonder at reality) are already apparent in this early work." —Kirkus Reviews
