**How to Play Erhu, the Chinese Violin** H. H. Lee, 2018-03-26 This Full Version is not merely a combination of the previous two books, but new chapters have been added and original chapters have been expanded to cover more information of the erhu. For instance, the chapter How to Set up an Erhu caters for readers in need, while the chapter Alternative Open Strings introduces different base tunes of the erhu. Besides, a collection of songs are included in a bid to provide necessary materials for readers who are interested to sit for the graded examination of the erhu. After reading the whole book, readers can gain a comprehensive understanding of the erhu, which helps them to master this elegant instrument.

**Musical Creativity in Twentieth-century China** Jonathan P. J. Stock, 1996-01-01 This work examines the multiple and conflicting interpretations created around the life and music of the blind folk musician Abing (1893-1950). Abing is a household name in China, but despite the central place he holds in Chinese music, he is little known, and his music rarely heard, abroad. This detailed study of Abing, and the accompanying CD compilation of his most well-known works, reveal much both about this unjustly neglected composer, and about the recreation of traditional music in contemporary China. Particular attention is given to the problematic category of the musical 'work' in a tradition which relies heavily on improvisation and creative reworking of material; Abing's music has also taken strikingly different shapes since his death, notably in arrangements, some involving Western instruments, which have adapted his music to changing tastes and ideological trends, both in mainland China, and in Taiwan and overseas. Dr. Jonathan P.J. Stock is Lecturer in Music at the University of Durham. Contains audio CD

The Music of Malaysia Patricia Matusky, Tan Sooi Beng, 2017-04-28 The Music of Malaysia, first published in Malay in 1997 and followed by an English edition in 2004 is still the only history, appreciation and analysis of Malaysian music in its many and varied forms available in English. The book categorizes the types of music genres found in Malaysian society and provides an overview of the development of music in that country. Analyses of the music are illustrated with many examples transcribed from original field recordings. Genres discussed include theatrical and dance forms, percussion ensembles, vocal and instrumental music and classical music. It is an excellent introduction to and exploration of the country's vibrant musical culture. This new, fully revised and updated edition includes time lines, listening guides and downloadable resources of field recordings that are analysed and discussed in the text.

**Chinese Music and Musical Instruments** Xi Qiang, 2011-04-10 With dozens of color photographs and insightful text, Chinese Music and Musical Instruments describes in detail the musical instruments with which a Chinese folk orchestra is equipped and their working and sounding principles. There are as many as a thousand different kinds of musical instruments in China. Only a tiny portion of them are used in an orchestra. The selection of musical instruments for an orchestra depends on how well they complement one another. A Chinese folk orchestra is composed of four sections: wind, plucked, percussion and bowed. This book is also devoted to the description of the development of classical Chinese music and the introduction of some music-related tales of profound significance. Chinese music is a big family composed of various distinctive types of music: Chinese folk music played at weddings, funerals or in festivals and fairs. The religious music played in religious services conducted in Buddhist and Taoist temples. Court music, which reached its zenith during the Tang Dynasty. The scholars' music based on Confucian thinking was the embodiment of the musical life of academia and refined music of this kind is still prevalent in today's society.

*Young People's Guide to Classical Music* Helen Bauer, 2009 Music is a powerful art. We sing it, we dance to it, and we listen to it because it moves us as little else can. Classical music in particular has fascinated people for hundreds of years. The works of such composers as Bach, Mozart, and Beethoven have proven so appealing that generations of listeners have returned to them again and again. *Young People's Guide to Classical Music* invites you to join these listeners.

**Chinese Rhapsody No. 5** An-Lun Huang, 2013-08-11 Created by Franz Liszt, the rhapsody is such a music form in which folk tune and concert virtuosity are both constantly emphasized. Following his footprints, An-lun Huang's Chinese Rhapsodies are also especially effective in the tastes of different Chinese folk tunes. His most popular one is the Chinese Rhapsody No. 2, op. 18. Not only did it become the official piece of numerous national piano competitions, it was also played by the Chinese pianist Lang Lang who performed this piece and won the 1st prize at the International Tchaikovsky Youth Piano Competition in 1994. This Chinese Rhapsody No. 5 is for the erhu, (a Chinese traditional instrument with only 2 strings), and orchestra. It is based on the original themes by Xiao Min, a village girl from the poor province of Henan, China. Both Xiao Min and her songs are a miracle of Chinese music. At only the level of grade 7, this peasant's little daughter received her limited education in a primary school of the small village. Nevertheless, without any training in music, she has created more than 1,100 songs (songs and texts), which have all been warmly received and sung alone by millions of Chinese people since the late 1990s. A symphonic music, the piece is structured into four parts. Performed continuously and combined with the popular hymn Near the Cross by William N. Doane, Xiao Min's songs are to be heard with all of the main themes of this Rhapsody.. The world premiere was performed by the Chinese erhu master George Gao with the Russian Philharmonic Orchestra under the baton of Tak-ng Lai in Moscow on the June of 2002. George Gao's brilliant interpretation and his dizzy-Paganinian-typed-technique brought the erhu performing art into a brand new height. This piece has then become the official piece of the national Erhu competition of China. The Great Chinese violinist Huang Bin, the winner of the Gold plate of the International Paganini Violin competition, world premiered the violin version in Chicago in 2009, and also got a great success in the Philharmonic Hall of Berlin in 2012.

**Around the World in 80 Musical Instruments** Nancy Dickmann, 2022-04-12 How on Earth do you play a bass that's 3.5 metres tall? How can you play a theremin without touching it? Can you turn a cave's stalactites into an organ? (spoiler alert: yes, you can!) This beautifully-illustrated book is a visual celebration of the huge variety of instruments played across the world, from those you know to those you almost certainly don't. Grouped into percussion instruments, wind, and string, as well as the weird and wonderful that defy categorization, readers will discover how they are all related to each other in 'families', and enjoy exploring the musical family tree as a fold-out poster. *Around the World in 80 Musical Instruments* covers traditional instruments from various cultures, such as the gamelan and mbira, as well as the creations of modern artists and musicians, such as the Wintergatan Marble Machine and the eerie-sounding yaybahar. Readers will even discover a band that plays

exclusively on instruments fashioned from fresh vegetables, and makes the offcuts into soup to serve to the audience! Including: Percussion: Cajon, Maraca, Mbira, Monkey stick, Stalactite organ, Piano, Steelpan, Gong, Standing bell, Skrabalai, Castanets, Treshchotka, Cantaro, Taiko, Talking drum, Shekere, Daf, Jaw harp, Cimbalom, Ferrinho, Guiro, Gamelan, XylophoneString: Violin, Cello, Erhu, Imzad, Jouhikko, K'ni, Earth harp, Celtic harp, Begena, Koto, Appalachian dulcimer, Ukulele, Guitarron, Charango, Guitarron chileno, Mouth-bow, Balalaika, Bouzouki, Oud, Sitar, Tanbur, Kora, Hurdy-gurdy Wind: Dizi, Nose flute, Siku, Ateneben, Ocarina, Calliope, Algaita, Balaban, Nadaswaram, Trumpet, Serpent, Alphorn, Digeridoo, Putatara, Vuvuzela, Saxophone, Mijwiz, Alboka, Kazoo, Sheng, Hulusi, Bagpipes, AccordionWeird and Wonderful: Wheelharp, Yaybahar, Vegetables, Melody road, Marble machine, Adapted instruments, Glass armonica, Hydraulicphone, Sea organ, Theremin, Moog synthesiser, Zeusaphone

**The Knowledgebook** ,2007 A comprehensive, visual reference, enhanced by two thousand photographs and illustrations, provides information on all major fields of knowledge and includes timelines, sidebars, cross-reference, and other useful features.

**Playing Erhu** Patty Chan,2011 Playing Erhu: Bridging the Gap was written for English readers who are interested in learning how to play the erhu, but could not find any erhu instruction books in English. The book covers: Assembly of the erhu; Reading staff and jianpu notation; Fingering charts for all common keys; Music symbols, terms, ornamentation; Exercises in staff and jianpu notation for each key; Annotated regional folksongs in staff and jianpu notation for each key; Internet access to recordings of all music found in this book as performed by the author.

**Rhapsody in Red** Sheila Melvin,Jindong Cai,2004 Western classical music has become as Chinese as Peking Opera, and it has woven its way into the hearts and lives of ordinary Chinese people. This lucidly written account traces the biographies of the bold visionaries who carried out this musical merger. Rhapsody in Red is a history of classical music in China that revolves around a common theme: how Western classical music entered China, and how it became Chinese. Chinas oldest orchestra was founded in 1879, two years before the Boston Symphony. Since then, classical music has woven its way into the lives of ordinary Chinese people. Millions of Chinese children take piano and violin lessons every week. Yet, despite the importance of classical music in China -- and of Chinese classical musicians and composers to the world -- next to nothing has been written on this fascinating subject. The authors capture the events with the voice of an insider and the perspective of a Westerner, presenting new information, original research and insights into a topic that has barely been broached elsewhere. The only other significant books touching on this field are Pianos and Politics: Middle Class Ambitions and The Struggle Over Western Music by Richard Kurt Kraus (1989), and Barbara Mittler's Dangerous Tunes - The Politics of Chinese Music. Both target the academic market. Pianos focuses narrowly on the political aspects of the Cultural Revolution and subsequent re-opening. Rhapsody in Red is a far better read and benefits from considerably more research with primary source material in China over the past decade; and it covers classical music in general over all the history of East-West interaction. This book will appeal to a general readership interested in China -- the same readers who made Wild Swans a bestseller. It will also appeal to all who are interested in the future of classical music. It could easily be used for college courses on modern China, cultural history and ethnomusicology.

**China and the West** Michael Saffle,Hon-Lun Yang,2017-05-09 Western music reached China nearly four centuries ago, with the arrival of Christian missionaries, yet only within the last century has Chinese music absorbed its influence. As China and the West demonstrates, the emergence of “Westernized” music from China—concurrent with the technological advances that have made global culture widely accessible—has not established a prominent presence in the West. China and the West brings together essays on centuries of Sino-Western musical exchange by musicologists, ethnomusicologists, and music theorists from around the world. It opens with a look at theoretical approaches of prior studies of musical encounters and a comprehensive survey of the intercultural and cross-cultural theoretical frameworks—exoticism, orientalism, globalization, transculturation, and hybridization—that inform these essays. Part I focuses on the actual encounters between Chinese and European musicians, their instruments and institutions, and the compositions inspired by these encounters, while Part II examines theatricalized and mediated East-West cultural exchanges, which often drew on stereotypical tropes, resulting in performances more inventive than accurate. Part III looks at the musical language, sonority, and subject matters of “intercultural” compositions by Eastern and Western composers. Essays in Part IV address reception studies and consider the ways in which differences are articulated in musical discourse by actors serving different purposes, whether self-promotion, commercial marketing, or modes of nationalistic—even propagandistic—expression. The volume’s extensive bibliography of secondary sources will be invaluable to scholars of music, contemporary Chinese culture, and the globalization of culture.

**Instruments of Desire** Steve Waksman,2001-05-02 This work ranges across the history of the electric guitar by focusing on key performers such as Charlie Christian, Chet Atkins, Muddy Waters, Chuck Berry, Jimi Hendrix & Led Zeppelin, who have shaped the use & meaning of the instrument.

**School Music Education and Social Change in Mainland China, Hong Kong and Taiwan** Wai-chung Ho,2011 This book compares, from a historical and sociopolitical perspective, the respective systems and contents of music education in mainland China, Hong Kong and Taiwan in response to globalization, localization and Sinification, with particular reference to Shanghai, Hong Kong and Taipei.

**American Chinatown** Bonnie Tsui,2009-08-11 CHINATOWN, U.S.A.: a state of mind, a world within a world, a neighborhood that exists in more cities than you might imagine. Every day, Americans find something different in Chinatown's narrow lanes and overflowing markets, tasting exotic delicacies from a world apart or bartering for a trinket on the street -- all without ever leaving the country. It's a place that's foreign yet familiar, by now quite well known on the Western cultural radar, but splitting the difference still gives many visitors to Chinatown the sense, above all, that things are not what they seem -- something everyone in popular culture, from Charlie Chan to Jack Nicholson, has been telling us for decades. And it's true that few visitors realize just how much goes on beneath the surface of this vibrant microcosm, a place with its own deeply felt history and stories of national cultural significance. But Chinatown is not a place that needs solving; it's a place that needs a more specific telling. In American Chinatown, acclaimed travel writer Bonnie Tsui takes an affectionate and attentive look at the neighborhood that has bewitched her since childhood, when she eagerly awaited her grandfather's return from the fortune-cookie factory. Tsui visits the country's four most famous Chinatowns -- San Francisco (the oldest), New York (the biggest), Los Angeles (the film icon), Honolulu (the crossroads) -- and makes her final, fascinating stop in Las Vegas (the newest; this Chinatown began as a mall); in her explorations, she focuses on the remarkable experiences of ordinary people, everyone from first-to fifth-generation Chinese Americans. American Chinatown breaks down the enigma of Chinatown by offering narrative glimpses: intriguing characters who reveal the realities and the unexpected details of Chinatown life that American audiences haven't heard. There are beauty queens, celebrity chefs, immigrant garment workers; there are high school kids who are changing inner-city life in San Francisco, Chinese extras who played key roles in 1940s Hollywood, new arrivals who go straight to dealer school in Las Vegas hoping to find their fortunes in their own vision of gold mountain. Tsui's investigations run everywhere, from mom-and-pop fortune-cookie factories to the mall, leaving no stone unturned. By interweaving her personal impressions with the experiences of those living in these unique communities, Tsui beautifully captures

their vivid stories, giving readers a deeper look into what Chinatown means to its inhabitants, what each community takes on from its American home, and what their experience means to America at large. For anyone who has ever wandered through Chinatown and wondered what it was all about, and for Americans wanting to understand the changing face of their own country, American Chinatown is an all-access pass.
