Bargain Fever Mark Ellwood, 2014-09-25 Almost half of everything sold in America is listed at some kind of promotional price. People don't only want a deep discount, they expect it - and won't settle for anything less. In this playful, deeply researched book, journalist Mark Ellwood takes a trip into this new landscape. From the floor of upscale department store Serpordorf Goodman to the bustling aisles of a Turkish bazaar, from the outlet Disneyworld of rural Pennsylvania to a town in Florida that can claim to be couponing's spiritual capital, Ellwood shows how some people are, quite literally, born to be bargain junkies thanks to a quirk of their DNA. He also uncovers the dark side of discounting: the sales-driven sleights of hand that sellers employ to hoodwink unsuspecting buyers. Bargain Fever is a manual for thriving in this new era, when deal hunting has gone from being a sign of indigence to one of intelligence. There's never been a better time to be a buyer - at least if you know how the game works. 'This book is a bargain hunter's bible.' Michael Tonello, author of Bringing Home the Birkin 'Bargain Fever is just as fierce, funny, tenacious, and tantalizing as its author. I love this book.' Kelly

Cutrone, founder, People's Revolution, and author of Normal Gets You Nowhere'A book after my own heart. Bargain Fever lifts the veils off the sales, ensuring even more that you'll never pay retail again.' Carmen Wong Ulrich, financial contributor, CBS This Morning, and author of Generation Debt'Highly informative and entertaining.' Booklist

*Why We Shop* Jim Pooler,2003-11-30 Shopping is one of the most challenging and rewarding human activities. Pooler offers a captivating exploration of the emotional and psychological dimensions of shopping. What drives shoppers in various situations? Why do we shop the way we do? Why do people go to malls, boutiques, and Web sites with their credit cards in hand, despite not knowing what it is they're looking for? This book answers such questions, taking an incisive look at how shopping and shoppers have changed in recent years. For those in retailing and marketing, this guide to the fickle consumer's mindset offers concrete and practical advice on modern shopping behavior, along with important insights into the shopping psyche. Comprehending why people shop as they do is a daunting challenge for today's retailer. For example, why do people shop for bargain groceries yet purchase the latest luxury-model SUV? Why do people feel justified in splurging for Christmas, birthdays, or anniversaries, but suffer guilt from over-spending at other times of the year? Is clothes-shopping all about price and practicality, or is it more about emotional reward and psychological needs? Is the excitement in the quest or the acquisition? Why is there such a thing as a morning-after urge to return among certain shoppers, while others refuse to return an item even if it's flawed or doesn't fit? Pooler probes to the heart of today's complex shopper, providing valuable insights for retailers, advertisers, marketers, and consumers.

**Abe & Fido** Matthew Algeo, 2015-04-01 In early 1861, as he prepared to leave his home in Springfield, Illinois, to move into the White House, Abraham Lincoln faced many momentous tasks, but none he dreaded more than telling his two youngest sons, Willie and Tad, that the family's beloved pet dog, Fido, would not be accompanying them to Washington. Lincoln, who had adopted Fido about five years earlier, was afraid the skittish dog wouldn't survive the long rail journey, so he decided to leave the mutt behind with friends in Springfield. Fido had been by Lincoln's side as the prairie lawyer rose from obscurity to the presidency, sometimes carrying bundles of letters from the post office as Lincoln walked the streets of the state capital. *Abe & Fido: Lincoln's Love of Animals and the Touching Story of His Favorite Canine Companion* tells the story of two friends, an unlikely tandem who each became famous and died prematurely. The book also explores the everyday life of Springfield in the years leading up to the Civil War, as well as Lincoln's sometimes radical views on animal welfare, and how they shaped his life and his presidency. It's the story of a master and his dog, living through historic, tumultuous times. Matthew Algeo is the author of *Harry Truman's Excellent Adventure*, *The President Is a Sick Man*, *Pedestrianism*, and *Last Team Standing*. An award-winning journalist, Algeo has reported from four continents, and his stories have appeared on public radio's *All Things Considered*, *Marketplace*, and *Morning Edition*.

*Shopper Marketing and the Role of In-Store Marketing* Dhruv Grewal, 2014-08-06 This volume of Review of Marketing Research (RMR) focuses on Shopper Marketing: Role of In-Store Marketing. The chapters draw from academic research as well as collaborations with major retailers and industry practitioners. Over the past several decades there has been research into how marketing actions influence how shoppers respond to offers. Yet, with the ever-shifting landscape due to influences such as mobile devices, the internet,

and social media, there is an increasing need to understand how marketing actions influence shoppers in their path to purchase. Although there are many points along the path to purchase which are important to understand, this edition of RMR is devoted to the topic of in-store marketing actions to understand their impact on shopper reactions to offers. The chapters highlight new technologies (e.g., mobile, digital displays) and information aids (e.g., nutrition scores, floor signage) being used by leading retailers to influence the path to purchase. In addition, new research technologies (e.g., eye-tracking, heat maps, in-store experiments) and models that are being used to assess the effectiveness of the path to purchase tactics are discussed.

**Mission Critical** Thomas H. Davenport, 2000 Overviews enterprise system (ES) opportunities and challenges and suggests the ESs are not the right choice for every company. Provides a set of guidelines to help managers evaluate the benefits and risks of ES implementation, stressing that an organization must make simultaneous changes in its information systems, business processes, and business strategy. Such changes are described in detail with extensive examples from real organizations, demonstrating that ESs should be viewed as business rather than technology projects. Davenport is director of a consulting institute and professor of information management at Boston University. Annotation copyrighted by Book News, Inc., Portland, OR
