Half-Blood Blues Esi Edugyan, 2012-02-28 Berlin, 1939. The Hot-Time Swingers, a popular German American jazz band, have been forbidden to play live because the Nazis have banned their 'degenerate music.' After escaping to Paris, where they meet Louis Armstrong, the band's brilliant young trumpet-player, Hieronymus Falk, is arrested in a café by the Gestapo. It is June 1940. He is never heard from again. He is twenty years old, a German citizen. And he is black. Berlin, 1992. Falk, now a jazz legend, is the subject of a celebratory documentary. Two of the original Hot-Time Swingers American band members, Sid Griffiths and Chip Jones, are invited to attend the film's premier in Berlin. As they return to the landscape of their past friendships, rivalries, loves and betrayals, Sid, the only witness to Falk's disappearance who has always refused to speak about what happened, is forced to break his silence. Sid recreates the lost world of Berlin's pre-war smoky bars, and the salons of Paris, telling his vibrant and suspenseful story in German American slang. *Half-Blood Blues* is a novel about music and race, love and loyalty, and marks the arrival of an extraordinarily 'gifted storyteller' (The Toronto Star)--Provided by publisher.

Renewable Energy Auctions Anton Eberhard, Professor Emeritus and Senior Scholar Anton Eberhard, Wikus Kruger, 2024-02-16 *Renewable Energy Auctions* provides an overview of renewable energy auctions globally, focusing on the Global South, since this is where auctions have been pioneered and provided most transformative results. Renewable energy auctions have become the dominant method for contracting utility-scale renewable energy projects, in large part due to the cost-efficient tariffs secured through this method. The ascent of auctions has been particularly rapid and transformative in the Global South, where many countries have secured renewable energy supplies at record-breaking prices. This book analyses the experiences of frontier auction markets in Latin America, sub-Saharan Africa, and India, with the aim of improving how auctions are designed and implemented globally. The book goes beyond the topic of auction design - which is concerned with the micro-economics of design choices - to include auction implementation. Across ten chapters, the authors argue that choices around the auction implementing institution and the procurement process are overlooked in most publications on the subject, yet this is often a key factor for determining outcomes. Moving beyond the program level of analysis (auction design and implementation), the book includes both country and project level factors' impacts on auction outcomes, ultimately highlighting that successful price and investment outcomes are dependent upon integration of all three levels of auction design and implementation.

The Peel Sessions Ken Garner, 2010-12-15 This is a story of teenage dreams, which, as any Peel fan knows, are hard to beat. Between 1967 and 2004 John Peel picked over 2000 bands to come and record over 4000 sessions to be played on his radio show. Many were young and had never been in a recording studio before, for some it was the start of an illustrious career, for others it was the only recognition their musical talent ever got. For over 35 years the cream of British musical talent made the journey to the BBC's studio in Maida Vale, from Pink Floyd to Pulp, the Small Faces to the Smiths. And because John Peel was so respected his sessions took on a legendary status - they were a rite of passage that every new band wanted to go through. Unfettered by commercial pressure the Peel Sessions were a unique British institution - an archive of music that reflects one man's passion for finding and encouraging new music. Includes a full sessionography listing songs, band members and broadcast dates. Jarvis Cocker writing about his first Peel Session aged 18 (Wayne the drummer was 15): 'We travelled down to Maida Vale in a van driven by a very strange man we'd contacted via a card pinned to the Virgin record shop noticeboard. We'd had to borrow lots of equipment from a band called The Naughtiest Girl Was a Monitor 'cause we didn't have enough stuff of our own. The session was to be produced by Dale Griffin, who used to be the drummer in Mott the Hoople; I seem to remember that he was wearing cowboy boots. I think the crisis point came when Wayne was attempting to get a home-made synth-drum to work that a friend of his at school had made out of a rubber burglar-alarm mat and an old electronic calculator - Dale Griffin looked at this 15-year-old kid crouching on the floor bashing what looked like a doormat with some wires coming out of it and just put his head in his hands. But to his credit, the session did get finished and after it, everything else started for me...'

Washington Black Esi Edugyan, 2018-09-18 ONE OF THE NEW YORK TIMES BOOK REVIEW'S TEN BEST BOOKS OF THE YEAR • MAN BOOKER PRIZE FINALIST • "A gripping historical narrative exploring both the bounds of slavery and what it means to be truly free." —Vanity Fair Eleven-year-old George Washington Black—or Wash—a field slave on a Barbados sugar plantation, is initially terrified when he is chosen as the

manservant of his master's brother. To his surprise, however, the eccentric Christopher Wilde turns out to be a naturalist, explorer, inventor, and abolitionist. Soon Wash is initiated into a world where a flying machine can carry a man across the sky, where even a boy born in chains may embrace a life of dignity and meaning, and where two people, separated by an impossible divide, can begin to see each other as human. But when a man is killed and a bounty is placed on Wash's head, they must abandon everything and flee together. Over the course of their travels, what brings Wash and Christopher together will tear them apart, propelling Wash ever farther across the globe in search of his true self. Spanning the Caribbean to the frozen Far North, London to Morocco, Washington Black is a story of self-invention and betrayal, of love and redemption, and of a world destroyed and made whole again.
