The Ornament of the World Maria Rosa Menocal,2009-11-29 This classic bestseller — the inspiration for the PBS series — is an illuminating and even inspiring portrait of medieval Spain that explores the golden age when Muslims, Jews, and Christians lived together in an atmosphere of tolerance (Los Angeles Times). This enthralling history, widely hailed as a revelation of a lost golden age, brings to vivid life the rich and thriving culture of medieval Spain, where for more than seven centuries Muslims, Jews, and Christians lived together in an atmosphere of tolerance, and where literature, science, and the arts flourished. It is no exaggeration to say that what we presumptuously call 'Western' culture is owed in large measure to the Andalusian enlightenment...This book partly restores a world we have lost. —Christopher Hitchens, The Nation

Promoting the Educational Success of Children and Youth Learning English National Academies of Sciences, Engineering, and Medicine,Health and Medicine Division,Division of Behavioral and Social Sciences and Education,Board on Science Education,Board on Children, Youth, and Families,Committee on Fostering School Success for English Learners: Toward New Directions in Policy, Practice, and Research,2017-08-25 Educating dual language learners (DLLs) and English learners (ELs) effectively is a national challenge with consequences both for individuals and for American society. Despite their linguistic, cognitive, and social potential, many ELs—who account for more than 9 percent of enrollment in grades K-12 in U.S. schools—are struggling to meet the requirements for academic success, and their prospects for success in postsecondary education and in the workforce are jeopardized as a result. Promoting the Educational Success of Children and Youth Learning English: Promising Futures examines how evidence based on research relevant to the development of DLLs/ELs from birth to age 21 can inform education and health policies and related practices that can result in better educational outcomes. This report makes recommendations for policy, practice, and research and data collection focused on addressing the challenges in caring for and educating DLLs/ELs from birth to grade 12.

English Through Pictures Ivor Armstrong Richards,Christine M. Gibson,2005 Annotation The three pocketbooks comprising the 'English Through Pictures Series' are the remarkable invention of I A Richards and Christine Gibson, who designed them to help the learner speak, read and write English in the quickest and clearest possible way -- through pictures. The authors have made a careful selection of the most widely useful English words, choosing those with the power to define other words, and have put them to work in key patterns that offer the learner the ability to communicate successfully in English. Book 1 contains a vocabulary of 250 such words, with an additional 500 developed in Book 2; these 750 words are then used in Book 3 to build a command of 1000 words which, by their defining power, hold the possibility of understanding as much as another 20,000 words of English. Throughout 'English Through Pictures', responsibility for learning is placed directly on the learner, who from the very start enjoys the ability to put essential words to work creating key sentence patterns where meaning is clearly shown in pictures. These simplified drawings allow learners to focus on the sentence and to enjoy growing confidence as they successfully take control of language, with the workbooks in Books 1 and 2 challenging and reinforcing their growing competence as both speakers and readers. Motivated and inspired, learners will soon find to their delight that fluent communication in English -- the common language of today's world -- lies well within their grasp. 'English Through Pictures' has already been used successfully by millions of learners in over forty countries.
