Essays - Second Series Ralph Waldo Emerson,2017-12-17 Why buy our paperbacks? Expedited shipping High Quality Paper Made in USA Standard Font size of 10 for all books 30 Days Money Back Guarantee BEWARE of Low-quality sellers Don't buy cheap paperbacks just to save a few dollars. Most of them use low-quality papers & binding. Their pages fall off easily. Some of them even use very small font size of 6 or less to increase their profit margin. It makes their books completely unreadable. How is this book unique? Unabridged (100% Original content) Font adjustments & biography included Illustrated Essays - Second Series by Ralph Waldo Emerson Ralph Waldo Emerson (May 25, 1803 - April 27, 1882), known professionally as Waldo Emerson, was an American essayist, lecturer, and poet who led the transcendentalist movement of the mid-19th century. He was seen as a champion of individualism and a prescient critic of the countervailing pressures of society, and he disseminated his thoughts through dozens of published essays and more than 1,500 public

lectures across the United States. Emerson gradually moved away from the religious and social beliefs of his contemporaries, formulating and expressing the philosophy of transcendentalism in his 1836 essay *Nature*. Following this groundbreaking work, he gave a speech entitled *The American Scholar* in 1837, which Oliver Wendell Holmes Sr. considered to be America's intellectual Declaration of Independence. Emerson wrote most of his important essays as lectures first and then revised them for print. His first two collections of essays, *Essays: First Series* (1841) and *Essays: Second Series* (1844), represent the core of his thinking. They include the well-known essays *Self-Reliance*, *The Over-Soul*, *Circles*, *The Poet* and *Experience*. Together with *Nature*, these essays made the decade from the mid-1830s to the mid-1840s Emerson's most fertile period. Emerson wrote on a number of subjects, never espousing fixed philosophical tenets, but developing certain ideas such as individuality, freedom, the ability for humankind to realize almost anything, and the relationship between the soul and the surrounding world. Emerson's nature was more philosophical than naturalistic: Philosophically considered, the universe is composed of *Nature* and the *Soul*. Emerson is one of several figures who

took a more pantheist or pandeist approach by rejecting views of God as separate from the world. He remains among the linchpins of the American romantic movement, and his work has greatly influenced the thinkers, writers and poets that followed him. When asked to sum up his work, he said his central doctrine was the infinitude of the private man. Emerson is also well known as a mentor and friend of Henry David Thoreau, a fellow transcendentalist.

*Essays by Ralph Waldo Emerson* Ralph Waldo Emerson, 1883 *Essays by Ralph Waldo Emerson* is a classic collection of essays by the great American writer and philosopher, Ralph Waldo Emerson that includes the following titles: Introduction -- The American scholar -- Compensation -- Self-reliance -- Friendship -- Heroism -- Manners -- Gifts -- Nature -- Shakespeare; or, The poet -- Prudence -- Circles -- Notes. Ralph Waldo Emerson was an American essayist, lecturer, philosopher, and poet who led the transcendentalist movement of the mid-19th century. He was seen as a champion of individualism and a prescient critic of the countervailing pressures of society, and he disseminated his thoughts through dozens of published essays and more than 1,500 public lectures across the United States. Emerson gradually moved away from the religious and social beliefs of his contemporaries,

formulating and expressing the philosophy of transcendentalism in his 1836 essay *Nature*. Following this work, he gave a speech entitled *The American Scholar* in 1837, which Oliver Wendell Holmes Sr. considered to be America's intellectual Declaration of Independence.[4]Emerson wrote most of his important essays as lectures first and then revised them for print. His first two collections of essays, *Essays: First Series* (1841) and *Essays: Second Series* (1844), represent the core of his thinking. **Ralph Waldo Emerson: Essays: First and Second Series** Ralph Waldo Emerson, 2010-08-05 A compilation of the best essays written by the father of transcendentalism, with selections from Emerson's lectures on history, art, politics, and more In the words of Harold Bloom, "Emerson's prose is his triumph, both as eloquence and as insight. After Shakespeare, it matches anything else in the language." Here are Ralph Waldo Emerson's classic essays, including the exhortation to "Self-

Reliance,” the embattled realizations of “Circles” and “Experience,” and the groundbreaking achievement of “Nature.” Our most eloquent champion of individualism, Emerson acknowledges at the same time the countervailing pressures of society in American life. Even as he extols what he calls “the great and crescive self,” he dramatizes and records its vicissitudes. Also gathered here are his wide-ranging discourses on history, art, politics, friendship, love, and much more. For almost thirty years, The Library of America has presented America's best and most significant writing in acclaimed hardcover editions. Now, a new series, Library of America Paperback Classics, offers attractive and affordable books that bring The Library of America's authoritative texts within easy reach of every reader. Each book features an introductory essay by a leading writer, as well as a detailed chronology of the author's life and career, an essay on the choice and history of the text, and notes.

Vectors James Richardson, 2001 James Richardson is one of the finest poets now writing, and the best contemporary practitioner of the art of aphorism.--Publishers Weekly Not since the appearance of W. S. Merwin's translations and adaptations of aphorisms in *Asian Figures*, some thirty years ago, has an American poet managed to put down so much delightful and compelling wisdom.--American Literary Review No one theme or moral pervades these tesserae of specificity. Rather, Richardson's elegant compression invites the reader to fill in the blanks with personal experience... Richardson's knack for the quintessential, sustained for more than a hundred pages, left me satisfied yet hungry for more.--Times Literary Supplement Readers will be obsessed by this book; they will memorize passages, give copies to friends, proselytize. That's because *Vectors* so generously provides the best that poetry can offer. It is a masterpiece of practicality, beauty, and solace.-- Boston Review James Richardson's *Vectors*... penetrates to the very heart of human nature. I stand looking in the mirror, alert to my own foibles, shaking my head as I tolerate what I know he knows about who I am.-- The Georgia Review

Almost every entry... introduces a new insight, provides a revelation, supplies a surprise... it is a book one wants to spend time with, a wonderfully friendly book, generous, witty and entertaining.-- Gulf Coast Vectors is the kind of book you read, reread, thumb through, and pick up several extra copies because you want to share the joy you found in perusing it with friends.-- Barrow Street James Richardson's Vectors is a book of subversive wonders. Stunningly precise, these brilliant aphorisms and ten-second essays show a mind assessing, reassessing, discovering, and interrogating assumptions in ways that feel diamond-sharp, at once good-natured, quietly sly at times, and always, always, very shrewd. 'It can never be satisfied, the mind, never,' wrote Wallace Stevens. Vectors is a remarkable testament to such questing, vivid minding, as these aphorisms alight on everything from the nature of perception, to God, success, fear, shame, self-consciousness, love and friendship.-- Laurie Sheck
