Spiritual and Corporeal Selves in India Carmen Escobedo de Tapia, Alejandra Moreno-Álvarez, 2020-08-24 This volume offers a number of images of contemporary India where glocalization is undoubtedly present. The twelve chapters included here provide different perspectives on the relationship between the corporeal and the spiritual, highlighting the union of both soul and body, which has been present from the very beginning of the Indian civilization. This volume offers clues to understand the differences and similarities that characterise the East-West encounter through artistic representations in the era of globalisation. It also enhances the importance of re-inscribing the fusion of the spiritual and the corporeal into the academic research agenda. In Western theory, the body has been arguably dismembered and separated from the spiritual. As such, this text opens up a range of possibilities to tackle and debunk the dualism of both the corporeal and the spiritual suggesting a rupture of the "logic" of binary thinking. The contributors specifically focus on Indian culture and analyse how we can empirically and theoretically reconcile mind and body in order to promote active and reciprocal exchanges among educators, students, researchers, social activists, and those professionally and spiritually engaged with Indian studies.

Brutal Beauty Jisha Menon, 2021-10-15 Brutal Beauty: Aesthetics and Aspiration in Urban India follows a postcolonial city as it transforms into a bustling global metropolis after the liberalization of the Indian economy. Taking the once idyllic "garden city" of Bangalore in southern India as its point of departure, the book explores how artists across India and beyond foreground neoliberalism as a "structure of feeling" permeating aesthetics, selfhood, and everyday life. Jisha Menon conveys the affective life of the city through multiple aesthetic projects that express a range of urban feelings, including aspiration, panic, and obsolescence. As developers and policymakers remodel the city through tumultuous construction projects, urban beautification, privatization, and other templated features of "world-class cities," urban citizens are also changing—transformed by nostalgia, narcissism, shame, and the spaces where they dwell and work. Sketching out scenes of urban aspiration and its dark underbelly. Menon delineates the creative and destructive potential of India's lurch into contemporary capitalism, uncovering the interconnectedness of local and global power structures as well as art's capacity to absorb and critique liberalization's discontents. She argues that neoliberalism isn't just an economic, social, and political phenomenon; neoliberalism is also a profoundly aesthetic project.

Signless Signification in Ancient India and Beyond Tiziana Pontillo, Maria Piera Candotti, 2013-04-01 The collected essays in this book are the result of a series of workshops held at the University of Cagliari in Italy; this work charts the evolution of key concepts on signless signification of traditional Indian grammar and deals with powerful mechanisms of meaning extension, including rituals and speculative patterns. This collection brings an interdisciplinary approach to the examination of possible relationships between different cultural and linguistic systems of signification.

The Bloomsbury Research Handbook of Indian Aesthetics and the Philosophy of Art Arindam Chakrabarti,2016-02-25 The Bloomsbury Research Handbook of Indian Aesthetics and the Philosophy of Art provides an extensive research resource to the burgeoning field of Asian aesthetics. Featuring leading international scholars and teachers whose work defines the field, this unique volume reflects the very best scholarship in creative, analytic, and comparative philosophy. Beginning with a philosophical reconstruction of the classical rasa aesthetics, chapters range from the nature of art-emotions, tones of thinking, and aesthetic education to issues in film-theory and problems of the past versus present. As well as discussing indigenous versus foreign in aesthetic practices, this volume covers North and South Indian performance practices and theories, alongside recent and new themes including the

Gandhian aesthetics of surrender and self-control and the aesthetics of touch in the light of the politics of untouchability. With such unparalleled and authoritative coverage, The Bloomsbury Research Handbook of Indian Aesthetics and the Philosophy of Art represents a dynamic map of comparative cross-cultural aesthetics. Bringing together original philosophical research from renowned thinkers, it makes a major contribution to both Eastern and Western contemporary aesthetics.

The Routledge Handbook of Translation and Globalization Esperança
Bielsa, Dionysios Kapsaskis, 2020-12-30 This is the first handbook to provide a comprehensive coverage of the main approaches that theorize translation and globalization, offering a wide-ranging selection of chapters dealing with substantive areas of research. The handbook investigates the many ways in which translation both enables globalization and is inevitably transformed by it. Taking a genuinely interdisciplinary approach, the authors are leading researchers drawn from the social sciences, as well as from translation studies. The chapters cover major areas of current interdisciplinary interest, including climate change, migration, borders, democracy and human rights, as well as key topics in the discipline of translation studies. This handbook also highlights the increasing significance of translation in the most pressing social, economic and political issues of our time, while

accounting for the new technologies and practices that are currently deployed to cope with growing translation demands. With five sections covering key concepts, people, culture, economics and politics, and a substantial introduction and conclusion, this handbook is an indispensable resource for students and researchers of translation and globalization within translation and interpreting studies, comparative literature, sociology, global studies, cultural studies and related areas.

Indian Aesthetics and Aesthetic Perspectives Haradvārī Lāla Śarmā,1990 Indian Beauty Bérénice Geoffroy-Schneiter,2004 The movies made in the studios of Bombay brimming with ravishing eyes, generous hips, ample breasts, syrupy music, and sultry dance routines, and set in wedding-cake dÃ(c)cors have spawned a distinct style now identified by a succinct moniker: Bollywood. This genre s unique blend of kitsch and eroticism has not only invaded the screens of the Indian diaspora, but is now influencing art and fashion throughout the West. More than a sociological and aesthetic discussion of the recent phenomenon, this book explores the visual and narrative origins of Bollywood style, grounded in Indian art and religion. It shows how Bollywood s frenzy, sanctity, sensuality, and sentiment are variously indebted to Mughal miniatures, racy statues of Ganesh and Shiva, erotic temples in Khajuraho, and vivid passages from the Kama Sutra.

Twentieth-century Indian Sculpture Shivaji Panikkar,2000 This volume brings together on one platform 'high' gallery-oriented art and popular sculptural

practices, the latter produced in specific socio-politico-religious contexts. It also features a portfolio of the works of twenty-seven prominent sculptors with excerpts from the writings of art critics and statements by the artists, some contributed exclusively for this volume.

Daya Krishna and Twentieth-Century Indian Philosophy Daniel Raveh, 2020-09-03 Daya Krishna and Twentieth-Century Indian Philosophy introduces contemporary Indian philosophy as a unique philosophical genre through the writings of one its most significant exponents, Daya Krishna (1924-2007). It surveys Daya Krishna's main intellectual projects: rereading classical Indian sources anew, his famous Samvad Project, and his attempt to formulate a new social and political theory for India. Conceived as a dialogue with Daya Krishna and contemporaries, including his interlocutors, Krishnachandra Bhattacharyya, Badrinath Shukla, Ramchandra Gandhi, and Mukund Lath, this book is an engaging introduction to anyone interested in contemporary Indian philosophy and in the thought-provoking writings of Daya Krishna.

Rule by Aesthetics D. Asher Ghertner, 2015 Rule by Aesthetics offers a powerful examination of the process and experience of mass demolition in the world's second largest city of Delhi, India. Using Delhi's millennial effort to become a 'world-class city,' the book shows how aesthetic norms can replace the procedures of mapping and surveying typically considered necessary to administer space. This practice of evaluating territory based on

its adherence to aesthetic norms - what Ghertner calls 'rule by aesthetics' allowed the state in Delhi to intervene in the once ungovernable space of slums, overcoming its historical reliance on inaccurate maps and statistics. Slums hence were declared illegal because they looked illegal, an arrangement that led to the displacement of a million slum residents in the first decade of the 21st century. Drawing on close ethnographic engagement with the slum residents targeted for removal, as well as the planners, judges, and politicians who targeted them, the book demonstrates how easily plans, laws, and democratic procedures can be subverted once the subjects of democracy are seen as visually out of place. Slum dwellers' creative appropriation of dominant aesthetic norms shows, however, that aesthetic rule does not mark the end of democratic claims making. Rather, it signals a new relationship between the mechanism of government and the practice of politics, one in which struggles for a more inclusive city rely more than ever on urban aesthetics, in Delhi as in aspiring world-class cities the world over.

The Hindu View of Art Mulk Raj Anand,2019-04-12 This book, first published in 1933, was the first text on the general Hindu attitude to art. It sums up under the wider title of the Hindu view of art all such considerations — religious, philosophic, sociological, aesthetic and technical — as might be helpful for the understanding of Indian art.

<u>Geographical Thoughts in India</u> Rana Singh,2009-05-27 This book deals with roots of Indian geographical thoughts with reference to its historical base,

cultural context and visionary message. As a consequence of long cultural history the resultant lifeworld in India converges like a drama and dance of space-time function with transference and transformation. In the passage of time emerged a metaphysical frame of thought, the varieties of heritagescapes, and simultaneously grown the senses to heritage ecology. Of course, attempts have been scanty but the richness always portrayed in literature and literary geography. Historical and cultural geographies in India have not caught that much attention in the academia; however on microlevel distinct attributes are interpreted in the recent literature. Going back to the ancient notions of nature theology, religioscapes and rituals have developed a complex network of belief systems in the Hindu traditions. In these traditions the motherly river Ganga serves as symbol, system and metaphor in the Indian culture. Continuity of cultural manifestations is actively maintained and continued in the Indian villages, where lives threefourths of India's population, and serve like a 'place ballet'. India's catastrophic march on the road of development and technology is entangled with obstacles and socio-spatial gaps that need to be re-considered in the light of cultural background and historical legacy. All these issues are examined, emphasising dualistic and complimentary perspectives in the West and the East.
