Vedic Metaphysics Swami Bharati Krishna Tirtha, Bhāratīkṛṣṇatīrtha, 1978 First time in the history of India, in 1958, a Sankaracarya visited West. The author, His Holiness Jagadguru Sankaracarya Sri Bharati Krsna Tirtha of Puri, went to America at the invitation of the Self Realization Fellowship, Los Angeles, to spread the message of Vedanta. This book is a compilation of some of his discourses delivered there. These discourses by a saint-yogi and master of ancient Indian scriptures, also well-versed in modern sciences, give the essentials of Vedanta. They combine authenticity of thought with simplicity of language. Being couched in the contemporary idiom they will be found to be particularly suited to the modern mind. Though addressed to American audiences, the discourses carry a message of eternal truth and of universal application. The steps of spiritual inquiry and the paths of God-realisation outlined in them will be of immense practical use to the readers in their quest for the Supreme.

Fundamentals of Rotating Machinery Diagnostics Donald E. Bently, Charles T. Hatch, 2002 A practical course in the fundamentals of machinery diagnostics for anyone who works with rotating machinery, from operator to manager, from design engineer to machinery diagnostician. This comprehensive book thoroughly explains and demystifies important concepts needed for effective machinery malfunction diagnosis: (A) Vibration fundamentals: vibration, phase, and vibration vectors. (B) Data plots: timebase, average shaft centerline, polar, Bode, APHT, spectrum, trend XY, and the orbit. (C) Rotor dynamics: the rotor model, dynamic stiffness, modes of vibration, anisotropic (asymmetric) stiffness, stability analysis, torsional and axial vibration, and basic balancing. Modern root locus methods (pioneered by Walter R. Evans) are used throughout this book. (D) Malfunctions: unbalance, rotor bow, high radial loads, misalignment, rub and looseness, fluid-induced instability, and shaft cracks. Hundreds of full-color illustrations explain key concepts, and several detailed case studies show how these concepts were used to solve real machinery problems. A comprehensive glossary of diagnostic terms is included.

Language and Style of the Vedic Rsis Tat?i?a?na I?A?kovlevna Elizarenkova, Tatyana J.

Elizarenkova,1995-01-01 Elizarenkova, perhaps the greatest living scholar of the Rgveda and certainly its greatest linguist, explains here the relationships between a very complicated grammatical system and the peculiarities of style of the archaic religious poetry. The laudatory hymn is treated as an act of verbal communication between the poet Rsi and the deity, with the hymn itself transmitting certain information from man to god. From this viewpoint, the hymn is used as a means to maintain a circular exchange of gifts between the Rsis and their gods. Many peculiarities of the functioning of the grammatical system of the Rgveda are interpreted in connection with the model of the universe of the Vedic Aryan. For example, the concept of time as a circular process bears closely on the use of the verbal grammatical categories of tense and mood; the personification of some abstract forces can explain some irregularities in the functioning of the nominal category of gender; and the idea of magical power attributed to the Sacred Speech in general, and to the name of a god in particular, underlies the magical grammar of this religious poetry.

Tantric Way Ajit Mookerjee,Madhu Khanna,2003-03-25 In recent years, the West has shown a wide and enthusiastic interest in tantra and its application to everyday life. Though its roots are in Hinduism, tantra's goals are the universal ones of self-knowledge and liberated joy. Its methods and effects transcend geography and era. Basing its approach on a historical and explanatory survey, this book deals in a detailed way with astronomy, astrology, alchemy, and cosmology in tantrism. In addition, there is discussion of the different viewpoints of left-hand and right-hand tantrikas and their respective attitudes towards human sexuality and its place in ritual. The drawings and illustrations serve further to explain and instruct, thus providing a unique opportunity for close contact with one of the world's oldest practical methods of achieving an expanded and creative awareness of oneself.
