Dying for an iPhone Jenny Chan, Mark Selden, Ngai Pun, 2020-06-02 Suicides, excessive overtime, and hostility and violence on the factory floor in China. Drawing on vivid testimonies from rural migrant workers, student interns, managers and trade union staff, Dying for an iPhone is a devastating expose of two of the world's most powerful companies: Foxconn and Apple. As the leading manufacturer of iPhones, iPads, and Kindles, and employing one million workers in China alone, Taiwanese-invested Foxconn's drive to dominate global electronics manufacturing has aligned perfectly with China's goal of becoming the world leader in technology. This book reveals the human cost of that ambition and what our demands for the newest and best technology means for workers. Foxconn workers have repeatedly demonstrated their power to strike at key nodes of transnational production, challenge management and the Chinese state, and confront global tech behemoths. Dying for an iPhone allows us to assess the impact of global capitalism's deepening crisis on workers.'

Planète médias - 2e éd. - Géopolitique des réseaux et de l'influence
Philippe Boulanger, 2021-10-13 Outils d'intelligence collective et collaborative, mais aussi de contrôle, d'influence et de domination, les médias jouent un rôle aujourd'hui incontournable sur la scène géopolitique mondiale. Domination des grands groupes industriels du Global media, traitement médiatique permanent des crises et des conflits, fake news et influence des réseaux sociaux dans la sphère politique... le soft power médiatique constitue une grille de lecture décisive pour comprendre les mutations et les évolutions contemporaines. Comment mesurer l'impact de la globalisation des médias sur la recomposition des interdépendances entre sociétés ? Quels sont les rapports entre mondialisation, rivalités de pouvoir et médias, révélant à la fois la prédominance américaine et les utilisations mises en œuvre par les pays émergents ? Quel rôle les médias jouent-ils dans les relations internationales et les conflits, depuis leur exploitation dans le champ d'action militaire aux nouvelles rivalités du cyberspace ? Telles

sont l'ensemble des questions abordées par cet ouvrage.

Interactions on Digital Tablets in the Context of 3D Geometry Learning

David Bertolo, 2016-07-14 Over the last few years, multi-touch mobile devices have become increasingly common. However, very few applications in the context of 3D geometry learning can be found in app stores. Manipulating a 3D scene with a 2D device is the main difficulty of such applications.

Throughout this book, the author focuses on allowing young students to manipulate, observe and modify 3D scenes using new technologies brought about by digital tablets. Through a user-centered approach, the author proposes a grammar of interactions adapted to young learners, and then evaluates acceptability, ease of use and ease of learning of the interactions proposed. Finally, the author studies *in situ* the pedagogic benefits of the use of tablets with an app based on the suggested grammar. The results show that students are able to manipulate, observe and modify 3D scenes using an adapted set of interactions. Moreover, in the context of 3D geometry learning, a significant contribution has been observed in two classes when students use such an application. The approach here focuses on interactions with digital tablets to increase learning rather than on technology. First, defining which interactions allow pupils to realize tasks needed in the learning process, then, evaluating the impact of these interactions on the learning process. This is the first time that both interactions and the learning process have been taken into account at the same time.

L'éthique en entreprise Faustine Antoine, Thomas Métivier, 2013 L'éthique en entreprise est aujourd'hui sous les projecteurs du grand public. En réaction, les entreprises élaborent une réflexion où se côtoient les valeurs, la responsabilité sociale et la notion de citoyenneté. Pourtant, la réalité du terrain et les objectifs d'efficacité et de rentabilité sont encore souvent

en contradiction avec les standards éthiques de la société. Les dispositifs mis en oeuvre pour promouvoir l'éthique en entreprise semblent insuffisants pour freiner les débordements que suscitent parfois les objectifs annuels et les bonus. Et si les discours éthiques servaient de boucliers aux entreprises pour se protéger et exposer leurs collaborateurs aux assauts de la justice et du grand public ? Le présent ouvrage éclaire sur la géométrie variable du couple éthique et entreprise et sur les pièges parfois sous-jacents aux discours des entreprises dans lesquels se laissent entraîner des collaborateurs trop naïfs. L'ouvrage déconstruit six idées reçues sur l'éthique en entreprise grâce à des exemples marquants tirés de l'actualité récente et à des explications claires sur les conséquences des différentes attitudes adoptées en entreprise face à la problématique de l'éthique. Les industries culturelles et créatives : Économie et stratégie Alain Busson, Yves Evrard, 2013-11-20 Un panorama très complet des logiques économiques et managériales du secteur culturel qui fait la part belle aux évolutions récentes. Évolution de la place de l'art dans la société et du statut de l'artiste, changement du rapport à l'œuvre d'art et des comportements de consommation, modification de la formation de la valeur et des modèles économiques... les repères traditionnels, qui ont fondé la croissance des industries culturelles et créatives (ICC) tout au long du XXe siècle, sont profondément remis en question sous la poussée de

bouleversements technologiques et sociétaux, au premier rang desquels la vertigineuse croissance d'Internet. Cet ouvrage entend dresser un panorama et décrypter les évolutions en cours pour chacun des secteurs (musées et patrimoine, spectacle vivant, livre, musique, jeu vidéo, cinéma et télévision). Après une vision d'ensemble du champ culturel et de ses perspectives, chaque secteur est décrit en suivant une grille d'analyse générique (marché, comportement du consommateur, stratégies des acteurs) puis étudié sous l'angle de ses spécificités. L'exposé est enrichi de nombreux exemples et outils opérationnels.

Contre le colonialisme numérique Roberto Casati, 2013-10-02 Le livre papier est-il mort ? Non. Si le livre papier risque de devenir commercialement obsolète, cela ne signifie pas qu'il soit obsolète cognitivement. N'en déplaise aux colonialistes numériques, les nouveaux formats n'ont pas ouvert de nouveaux horizons de lecture ; au contraire, cette lecture a été volée. Dans cet essai percutant, Roberto Casati montre comment choisir utilement entre des parcours qui capturent l'attention et d'autres qui la protègent. C'est pourquoi l'introduction du numérique à l'école doit se faire prudemment et toujours être soumise à des évaluations rigoureuses. L'école et les enseignants qui en sont la sève n'ont aucune raison de se laisser intimider par la normativité automatique qu'imposent les technologies nouvelles : le « maître électronique » est un mythe. L'école, au contraire, est un espace protégé dans lequel le zapping est exclu. Accéder à l'information, ce n'est

pas lire ; lire, ce n'est pas encore comprendre; et comprendre, n'est pas encore apprendre. Il nous faut inventer les moyens de résister à la culture de l'impatience.

Perspectives des communications de l'OCDE 2011 OECD, 2013-03-06 Cette onzième rapport biennal des Perspectives des communications de l'OCDE examine les récents développements du secteur des communications, qui a fait preuve de résilience durant la crise financière mondiale (CFM), reflétant ainsi son rôle crucial dans les économies d'aujourd'hui.

L'islam de Chine Élisabeth Allès, 2013 Dans L'islam de Chine, Elisabeth Allès met en lumière l'extrême diversité des situations minoritaires dans lesquelles se trouvent placés les musulmans de Chine : Hui de la plaine centrale, vivant paisiblement leur religion au sein d'un environnement massivement han ; Hui du Zhejiang à la recherche de leurs racines ; musulmans de Canton et de Hong Kong, aussi bien Hui que migrants ouïghours ou indo-pakistanais ; Ouïghours turcophones du Xinjiang confrontés à la colonisation han. Quand les Dounganes et les Ouïghours traversent les frontières vers les trois nouvelles républiques de l'ancienne URSS, où sont leurs familles, que ce soit pour y résider, pour y faire des affaires ou pour passer de l'une à l'autre de ces républiques, nous les suivons louvoyant au milieu des contraintes politiques, du nationalisme, de la méfiance envers leur imposant voisin chinois, de la défiance de ces pays les uns envers les autres. Dans chaque cas, les communautés concernées inventent des stratégies de survie qui

se transforment selon les circonstances et qui vont de la résistance ou de la fuite à l'adaptation et à la coexistence pacifique. Elles sont donc, non pas objets passifs, mais acteurs de leur propre destin.
