Media Law in the United Arab Emirates Matt J. Duffy,2018-03-27 Derived from the renowned multi-volume International Encyclopaedia of Laws, this analysis of media law in the United Arab Emirates surveys the massively altered and enlarged legal landscape traditionally encompassed in laws pertaining to freedom of expression and regulation of communications. Everywhere, a shift from mass media to mass self-communication has put enormous pressure on traditional law models. An introduction describing the main actors and salient aspects of media markets is followed by in-depth analyses of print media, radio and television broadcasting, the Internet, commercial communications, political advertising, concentration in media markets, and media regulation. Among the topics that arise for discussion are privacy, cultural policy, protection of minors, competition policy, access to digital gateways, protection of journalists' sources, standardization and interoperability, and liability of intermediaries. Relevant case law is considered throughout, as are various ethical codes. A clear, comprehensive overview of media legislation, case law, and doctrine, presented from the practitioner's point of view, this book is a valuable time-saving resource for all concerned with media and communication freedom. Lawyers representing parties with interests in the United Arab Emirates will welcome this very useful guide, and academics and researchers will appreciate its value in the study of comparative media law.

The Report: Abu Dhabi 2013 ,2013

Uae Yearbook Ibrahim Al-Abed,Paula Vine,Peter Hellyer,2004-12 Each year this book celebrates achievements of the United Arab Emirates and in so doing it pays tribute to the architect of this stunning success story, Sheikh Zayed bin Sultan Al Nahyan, the greatly loved and respected founding father and President of the UAE from its formation on 2 December 1971 until his death on 2 November 2004. Sheikh Zayed displayed enormous wisdom and strength in overcoming the obstacles that faced him in constructing a modern nation. He never faltered on his course and knew exactly what he wanted to achieve - and why. He used to say that 'Wealth is not money. Wealth is in people.' And he devoted his efforts to providing education, health care and social services for all

the country's citizens. At the same time he nurtured an environment in which business could flourish and people could live rewarding lives in freedom and peace.

International Business Marios I. Katsioloudes, Spyros Hadjidakis, 2007 'International Business' covers international business issues from a multinational perspective. Each chapter features the reverse perspective case that provides material for discussion and/or case analysis from a global perspective not necessarily that of the US.

International Business Marios Katsioloudes, Spyros Hadjidakis, 2007-03-15 Traditionally, international business (IB) texts survey the field from a USA perspective, going on to compare the USA to the rest of the business world. This text addresses IB from a purely multinational perspective. International Business is examined from the USA angle, going on to address IB issues from other countries' perspectives, what we call the "Reverse Perspective." The authors interview business executives and politicians from a number of countries including the USA, Canada, Mexico, Brazil, Colombia, Argentina, India, Hong Kong, Taiwan, China, Japan, South Korea, Germany, Italy, and Russia. These interviews are incorporated at appropriate points in the text providing first-hand information and practical insight. Cases include: Air Arabia, Gap, Diebold Inc, Matsushita, AMSUPP, NIKE, China Eastern Airlines, Luton & Dunstable Hospital, Harley Davidson, Cassis de Dijon, Green investments in Belize, Chicago Food and Beverage Company, Advanced Software Analytics

United Arab Emirates Internet, E-Commerce Investment and Business Guide - Strategic and Practical Information, Regulations, Opportunities IBP, Inc., 2016-05-10 United Arab Emirates Internet and E-Commerce Investment and Business Guide - Strategic and Practical Information: Regulations and Opportunities

Research, Practice, and Educational Advancements in Telecommunications and Networking Bartolacci, Michael, 2012-01-31 The study of telecommunications and networking allows us to understand existing modes of communication and information transfer while also developing new methods for managing, modeling, and regulating the exchange of information. Research, Practice, and Educational Advancements in Telecommunications and Networking offers multidisciplinary perspectives on architectures and systems for effective, efficient communication across different types of infrastructures, which include online and wireless networks. Collecting research on mobile ad hoc networks, VoIP, and mobile recommendation systems, this book provides theoretical discussions, as well as practical research on new and emerging developments in telecommunications and networking.

Passion for Adventure Saad Al Barrak, 2012-03-29 Dr. Saad al Barrak is no ordinary businessman. His approach to business comes from the souks of his native Kuwait, but is also shaped by an American and British education, occupation and war, and his own warm and human leadership style. In just seven years (2002-2009), al Barrak transformed a moribund, ex-state-owned telecoms operator with a base of 500,000 customers in Kuwait, into the international giant Zain, a company with over 72 million customers across twenty-two countries. Over the same period, revenues leapt from \$570 million to a staggering \$8 billion. Saad al Barrak's respect for the human dimension in business dealings shines through this insightful and entertaining book. His call to be bold, be daring, be different, has revolutionised the business models of companies such as McKinsey.

Measuring the Information Society Report 2015 International Telecommunication Union,2017-07-11 The Measuring the Information Society Report (MISR), which has been published annually since 2009, features key ICT data and benchmarking tools to measure the information society, including the ICT Development Index (IDI). The IDI 2015 captures the level of ICT developments in 167 economies worldwide and compares progress made since the year 2010. The MISR 2015 assesses IDI findings at the regional level and highlights countries that rank at the top of the IDI and those that have improved their position in the overall IDI rankings most dynamically since 2010. The report will feature a review and quantitative assessment of the global ITU goals and targets agreed upon at PP-14 and included in the Connect 2020 Agenda. In addition, the MISR will show the results of the ICT Price Basket (IPB) and present and analyze fixed and mobile broadband price data for around 180 economies. The report also includes a chapter looking into recent developments of the Internet of Things (IoT).

Telecommunications Law and Regulation in Nigeria Uchenna Jerome Orji,2018-12-19 The Nigerian telecommunications industry has continued to grow in a phenomenal manner following market liberalization reforms that commenced in the 1990s. As of 2017, the telecommunications industry was one of the fastest-growing economic sectors in Nigeria and the fourth largest contributor to the country's Gross Domestic Product. The telecommunications industry, however, remains a highly technical and naturally dynamic industry that has not been a usual area for legal research in developing countries such as Nigeria. This book bridges that gap in knowledge by providing an analysis of the legal and policy instruments that regulate the industry. It comprises eleven chapters that discuss the historical evolution of telecommunications and its regulation; the development of the Nigerian telecommunications industry from 1886 to 2017; the legal basis for the regulation of the industry; the licensing and duties of service providers; the regulation of network infrastructure; the protection of consumers; the regulation of competition, interconnection, universal access, and environmental protection; and the resolution of industry disputes. This book will be useful to policy makers, legislators, regulators, lawyers, law students, investors, operators, and consumers, as well as any person interested in the

Nigerian telecommunications industry.
