The Euro Crisis and European Identities Charlotte Galpin,2017-06-21 This book builds upon our knowledge of the far-reaching economic, political and social effects of the Euro crisis on the European Union by providing a unique study of European identities. In particular, it considers the impact on the construction of European identities in political and media discourse in Germany, Ireland and Poland—three countries with profoundly different experiences of the crisis and never before compared in a single study. Offering an original insight into the dynamics of identity change at moments of upheaval, the author argues that political and media actors in the early stages of the crisis drew on long-standing identities in order to make sense of the crisis in the public sphere. European identity discourses are thus resilient to change but become central to legitimising and contesting bailouts and further economic integration. As such, the author challenges the commonly held view that identities change dramatically at times of crisis but argues that this very resilience helps to understand the EU's current divisions. The study of identity during the Euro crisis sheds important light on the prospects for European solidarity as well as on the future of the single currency as an identity-building project. The book will be of particular interest to students and scholars in the fields of EU politics, comparative European politics, and identity politics.

EASTERN EUROPEAN FOLKLORE, FAIRY TALES, MYTHS and LEGENDS 5 book set at WHOLESALE RATES 60% OFF! Anon E Mouse,2016-11-17 Herein you will find 5 books containing 84 old Eastern European folk and fairy tales, plus tales of dragons, both magnanimous and evil, tales of princes on their white chargers dashing in to rescue princesses in distress and tales of the little people - the fairy folk who stitch together each and every fairy tale. These books were bestsellers when they were first published, some over 120 years ago, at a time when people REALLY DID BELIEVE in fairies. These are tales from the forests and lane-side hedgerows as well as tales of fairy dances, which only ever occur at midnight under a full moon. And then there are tales of how lowly laborers applied their brains to a situation to win the hand of princesses and become kings of kingdoms. Plus there are other tales of how kings, forever protective of their precious princesses, set ever more difficult challenges to those wanting to win the hand of their daughters, who, of course, are the fairest and most beautiful in all the land! Ideal for parents, grandparents and lovers of fairy tales and of all things magic! In addition this is a unique collection for primary/elementary school libraries. TEACHERS read a page or two from each story at the end of the school day and have your students queuing up to hear the next part of the story day after day. Bibliographic Data ISBN, TITLE, # stories, #pages 978-1-909302-54-9 - Czechoslovak Fairy Tales 15 Stories, 236pg Illustrated. 978-1-909302-55-6 - Fairy Tales of the Slav Peasants and Herdsmen 20 Stories, 398pg Illustrated. 978-1-909302-23-5 - The Key of Gold - 23 Czech Folk Tales, 200pg Illustrated. 978-1-909302-44-0 - The Shoemaker's Apron - 20 Czechoslovak fairy tales, 270pg Illustrated. 978-1-909302-67-9 - Polish Fairy Tales 6 Stories, 192pg Illustrated. Go, find a comfy chair, and sit back with a hot toddy, and enjoy a change of scenery and a change of pace and be whisked away to a land far, far away where only magical things happen.

Strategies for Europe Maurice Goldsmith,2014-05-09 *Strategies for Europe: Proposals for Science and Technology Policies* evaluates proposals for developing strategies for European research policies in five priority areas: fundamental research; social sciences; industrial innovation; public involvement in science and technology; and relations with developing countries. The importance of the multidisciplinary approach in dealing with the kinds of problems that Europe has to solve in the future is emphasized. Comprised of seven chapters, this book begins with an overview of the contribution that science and technology may make to the government of the human societies organized in the nation-states of Europe. The role of science policy in providing the necessary kind of wisdom that seems to be developing within the social sciences is discussed, along with the importance of basic research in ensuring the continuity of scientific and technical development on a long-term basis. Subsequent chapters deal with the approach of the European Science Foundation to science and technology; the contribution of the social sciences to the formulation of science and technology policies; industrial innovation and public involvement in science and technology; and Europe's relations with developing countries. The book concludes by offering recommendations for developing appropriate science and technology policies for Europe. This monograph will be of interest to science policymakers.

Competition and Profitability in European Financial Services Morten Balling, Frank Lierman, Andy Mullineux,2006-04-18 Financial services firms play a key role in the European economy. The efficiency and profitability of these firms and the competition among them have an impact on allocation of savings, financing of investment, economic growth, the stability of the financial system and the transmission of monetary policy. This collection of research contributions includes evaluations of trends in the European financial service industry and examinations of the driving forces of efficiency, competition and profitability of financial firms and institutions in Europe. The papers have been written by leading academics and researchers in the field, who specialize in strategic, systematic and policy issues related to the European financial services industry. This edited collection will be essential reading for students and academics but will also be of interest to financial practitioners and government officials interested in acquiring a deeper understanding of this complex issue.

Redefining European Economic Governance Michele Chang, Georg Menz, Mitchell P. Smith,2016-04-14 The global financial crisis and sovereign debt crisis exposed the inadequacy of European economic governance. Despite the multitude of new mechanisms and institutions that have arisen over the last few years, many contend that economic governance remains inadequate and the EU must integrate even further to calm still-volatile markets. A tension exists between creating effective instruments that will not overstep the authority delegated to an EU that has integrated economically but not politically. Can the EU's economic governance system satisfy the demands of markets and politics? Relevant issues include the ability of supranational institutions to dictate policy to national governments, the harmonization of economic policies and institutions across Europe, and a substantial increase in the transfer of funds across borders. Can monetary union continue without political union? How will the new institutions alter the distribution of power between EU institutions as well as between member states? This edited volume analyzes the major policy challenges and institutional mechanisms at the EU- and international levels to combat the global financial crisis and the EU's sovereign debt crisis such as financial integration, fiscal cooperation, and the rising power of the ECB. This book was published as a special issue of the *Journal of European Integration*.

STERN'S GUIDE TO EUROPEAN RIVERBOATS AND HOTEL BARGES Steven B. Stern,2013-04-09 Steven Stern has an encyclopedic knowledge of the cruise world in general and riverboat-and barge- cruising in particular, with a great understanding of the different lines and their products. This guide is a must for both new and veteran riverboat and barge travelers. -World of Cruising Magazine Finally someone has written a definitive travel guide covering an ever growing and popular, yet seldom covered, segment of the cruise industry. This is compulsory reading for anyone interested in a riverboat or barge cruise. -Official Steamship Guide

International Steven B. Stern is the ultimate authority on all forms of cruising. Having written 24 annual editions of the universally acclaimed Stern's Guide to the Cruise Vacation he has now produced a guide devoted exclusively to the riverboat and barge experience. The popularity of riverboat explorations throughout Europe has grown expeditiously over the past few years and has become the newest hot segment of the cruise market. Leisurely sojourns on hotel barges on the waterways of France and other European countries also are becoming popular among seasoned cruisers seeking a more intimate and tranquil vacation. This comprehensive guide lists descriptive information for every European riverboat and hotel barge, including vital statistics, stateroom size, descriptions of public areas, dining and shipboard facilities, and itineraries. Each vessel is evaluated as to comfort and luxury. Hundreds of photos of the vessels exterior and interiors are included, as well as sample menus and daily programs. Several chapters are devoted to descriptions of the cities and villages visited by riverboats, and the regions and villages visited by hotel barges, along with descriptive photographs.

European Union Competition Policy versus Industrial Competitiveness Hikaru Yoshizawa,2021-11-10 The book examines whether EU competition policy is applied fairly and consistently to EU and non-EU firms despite persistent political pressure from member states for a relaxation of the rules and deals with the dilemma of regional organisations in the global political economy. Focussing on the EU's desire to achieve balance between the promotion of market competition and the enhancement of international competitiveness, the book explores the validity of its attempts successfully to ensure a 'stringent competition policy' which is nationality-blind and comparatively strict. Finally, it shows that the competition-competitiveness dilemma remains unresolved because the EU's capability to set global regulatory standards is constrained by competition and the need to engage in multilateral forums, such as the WTO and the International Competition Network. This book will be of key interest to scholars and students of European Union studies, EU competition law and policy, EU external action and more broadly to global governance, international political economy and international relations.

Africa-Europe Cooperation and Digital Transformation Chux Daniels,Benedikt Erforth,Chloe Teevan,2022-11-23

Africa-Europe Cooperation and Digital Transformation explores the opportunities and challenges for cooperation between Africa and Europe in the digital sphere. Digitalisation and digital technologies are not only essential for building competitive and dynamic economies; they transform societies, pose immense challenges for policymakers, and increasingly play a pivotal role in global power relations. Digital transformations have had catalytic effects on African and European governance, economies, and societies, and will continue to do so. The COVID-19 pandemic has already accelerated the penetration of digital tools all over the globe and is likely to be perceived as a critical juncture in how and to what purpose the world accepts and uses new and emerging technologies. This book offers a holistic analysis of how Africa and Europe can manage and harness digital transformation as partners in a globalised world. The authors shed light on issues ranging from economic growth, youth employment, and gender, to regulatory frameworks, business environments, entrepreneurship, and interest-driven power politics. They add much-needed perspectives to the debates that shape the two continents' digital transformation and innovation environments. This book will interest practitioners working in the areas of innovation, digital technologies, and digital entrepreneurship, as well as students and scholars of international relations. It will also be relevant for policymakers, regulators, decision-makers, and leaders in Africa and Europe.
