Homer Simpson Ponders Politics Timothy M. Dale, 2013-05-01 What pop culture from The Hobbit to The Office reveals about modern politics—from the authors of Homer Simpson Marches on Washington: “Fun and engaging.” —William Irwin, author of Black Sabbath and Philosophy It’s said that the poet Homer educated ancient Greece. Joseph J. Foy and Timothy M. Dale have assembled a team of notable scholars who argue, quite persuasively, that Homer Simpson and his ilk are educating America and offering insights into the social order and the human condition. Following Homer Simpson Goes to Washington (winner of the John G. Cawelti Award for Best Textbook or Primer on

American and Popular Culture) and Homer Simpson Marches on Washington, this exceptional volume reveals how books like J. R. R. Tolkien's *The Hobbit* and J. K. Rowling's *Harry Potter*, movies like *Avatar* and *Star Wars*, and television shows like *The Office* and *Firefly* define Americans' perceptions of society. The authors expand the discussion to explore the ways in which political theories play out in popular culture. *Homer Simpson Ponders Politics* includes a foreword by fantasy author Margaret Weis (coauthor/creator of the *Dragonlance* novels and game world) and is divided according to eras and themes in political thought: The first section explores civic virtue, applying the work of Plato and Aristotle to modern media. Part 2 draws on the philosophy of Hobbes, Locke, Rousseau, and Smith as a framework for understanding the role of the state. Part 3 explores the work of theorists such as Kant and Marx, and the final section investigates the ways in which movies and newer forms of electronic media either support or challenge the underlying assumptions of the democratic order. The result is an engaging read for students as well as anyone interested in popular culture.

Let's Abolish Government Spooner, 2008

By Nightfall Michael Cunningham, 2010-09-28 Peter and Rebecca Harris: mid-forties denizens of Manhattan's SoHo, nearing the apogee of committed careers in the arts—he a dealer, she an editor. With a spacious loft, a college-age daughter in Boston, and lively friends, they are admirable, enviable contemporary urbanites with every reason, it seems, to be happy. Then Rebecca's much younger look-alike brother, Ethan (known in the family as Mizzy, the mistake), shows up for a visit. A beautiful, beguiling twenty-three-year-old with a history of drug problems, Mizzy is wayward, at loose ends,

looking for direction. And in his presence, Peter finds himself questioning his artists, their work, his career—the entire world he has so carefully constructed. Like his legendary, Pulitzer Prize-winning novel, *The Hours*, Michael Cunningham's masterly new novel is a heartbreaking look at the way we live now. Full of shocks and aftershocks, it makes us think and feel deeply about the uses and meaning of beauty and the place of love in our lives.

B/ordering Space Henk van Houtum, 2017-03-02 In the wake of globalization, numerous social scientists are turning to concepts of mobility, fluidity and hybridity to characterize a presumed de-territorialization and de-bordering of contemporary social and economic relations. This book brings together a select group of internationally renowned human geographers to explore the use of these concepts in relation to space, place and territory. In doing so, they (re)situate the subject of borders as active socio-spatial processes from a variety of theoretical perspectives. The contributors link debates on borders to discussions within the wider sphere of cultural studies, notably those addressing themes of migration, post-colonialism, the formation of national/regional identities and radical democratic practice. The chapters focus on those discursive practices that constitute 'bordered' geographical entities in the first instance through differentiated regimes of discourse. The book thus transcends the narrower field of borderlands research by building bridges to other domains of enquiry within political and human geography.

DiverCity - Global Cities as a Literary Phenomenon Melanie U. Pooch, 2016-02 This work examines global cities as a literary phenomenon, the DiverCity, based on the reading of selected North American novels. By analyzing Dionne Brand's Toronto in *What We All Long For*, Chang-rae Lee's New York in *Native Speaker*, and Karen Tei Yamashita's Los Angeles in *Tropic of Orange*, Melanie U. Pooch provides the connecting link for exploring the triad of globalization and its effects, global cities as cultural nodal points, and cultural diversity in a globalizing age as a literary phenomenon.

Continuous Productive Urban Landscapes Andre Viljoen, Joe Howe, 2012-05-04 This book on urban design extends and develops the widely accepted 'compact city' solution. It provides a design proposal for a new kind of sustainable urban landscape: Urban Agriculture. By growing food within an urban rather than exclusively rural environment, urban agriculture would reduce the need for industrialized production, packaging and transportation of foodstuffs to the city dwelling consumers. The revolutionary and innovative concepts put forth in this book have potential to shape the future of our cities quality of life within them. Urban design is shown in practice through international case studies and the arguments presented are supported by quantified economic, environmental and social justifications.
