Eversheds Sutherland: The Employment Practitioner's Guide to Financial Institutions Paul Fontes, Elizabeth Graves, Susan Mayne, 2019-02-19

The financial crisis both in the US and UK led to concerns that individual accountability of senior managers in the banking sector had to be strengthened and risk and reward aligned more closely. Sweeping amendments were made to legislation, with new regimes introduced to improve accountability and greater powers bestowed upon regulators. The landscape has changed significantly with onerous rules faced by employers from recruitment to departure and beyond.

Eversheds Sutherland: The Employment Practitioner's Guide to Financial Institutions: Key Aspects of the Regulatory Framework (originally titled: The Employment Practitioner's Guide to Financial Institutions: The Senior Managers and Certification Regime and Accountability) covers the full roll-out of the Senior Managers and Certification Regime to all financial services firms in 2018. The complexity of the rules and the difficulty for practitioners in finding resources to help them understand the new regime has led to much confusion and uncertainty. This book provides an invaluable guide to the new regime with practical analysis of the issues raised and how the

changes should be implemented.

**Proactive Law for Managers** George Siedel, Helena Haapio, 2016-04-22 Savvy managers no longer look at contracts and the law reactively but use them proactively to reduce their costs, minimize their risks, secure key talent, collaborate to innovate, protect intellectual property, and create value for their customers that is superior to that offered by competitors. To achieve competitive advantage in this way managers need a plan. Proactive Law for Managers provides this plan; The Manager's Legal Plan™. George Siedel and Helena Haapio first discuss the traditional, reactive approach used by many managers when confronted with the law, then contrast it with a proactive approach that enables the law and managers' legal capabilities to be used to prevent problems, promote successful business, and achieve competitive advantage. Proactive Law for Managers shows how to use contracts and the law to create new value and innovate in often neglected areas - and implement ideas in a profitable manner.

Women, Business and the Law 2021 World Bank,2021-04-05

Women, Business and the Law 2021 is the seventh in a series of annual studies measuring the laws and regulations that affect women's economic opportunity in 190 economies. The project presents eight indicators structured around women's interactions with the law as they move through their lives and careers: Mobility, Workplace, Pay, Marriage, Parenthood, Entrepreneurship, Assets, and Pension. This year's report updates all indicators as of October 1, 2020 and builds evidence of the links between legal gender equality and women's economic inclusion. By examining the economic decisions women make throughout their working lives, as well as the pace of reform over the past 50 years, Women, Business and the Law 2021 makes an important contribution to research and policy discussions about the state of women's economic empowerment. Prepared during a global pandemic that threatens progress toward gender equality, this edition also includes important findings on government responses to COVID-19 and pilot research related to childcare and women's access to justice.

*The Agility Mindset* Fiona Cannon, 2017-01-20 Shows how to unlock the massive efficiency savings and productivity gains by reframing the approach to flexible working by concentrating on workforce agility. We know that organizations don't need the same number of workers 9-5, five days a week 52 weeks a year. We know that not all of the best talent will work when and where we want. We know that command and control Taylorism stifles innovation and creativity. So why do we keep thinking of flexible working as a cost to the organization? A simple mindset shift is all that is required to grasp the opportunity that smart organizations are already exploiting. Stop thinking about "flexible working" and start thinking about "workforce agility". By creating win-win working practices you can attract the best talent by offering the flexibility they crave and secure the agile, just-in-time workforce that can get

the job done. The Agile Future Forum, a business-to-business initiative started by 22 founder members – mostly CEOs of big employers including BT, Lloyds Banking Group, Cisco, Tesco, KPMG, HM Treasury and Ford – have conducted case studies and a collated best practice from world class organisations which show that a more agile approach to flexible working not only delivers better performance but can also save between 3 and 13% of personnel costs. The Agility Mindset blends the insights of scores of CEOs, along with the frontline experience of practising managers to create this very practical guide. Based on rigorous research, but packed with practical diagnostics and frameworks, the book shows you how to create a fit for purpose workplace in a world where only the agile will flourish.

**China in Ethiopia** Aaron Tesfaye, 2020-04-01 Examines China's involvement in Ethiopia as the latter embarks on modernization and economic development. This comprehensive study of China-Ethiopia relations examines why China—an economic and emerging global power—has built relations with Ethiopia and why Ethiopia has responded by singling out China as a partner in its quest for economic development. Using middle-range theory and field research, Aaron Tesfaye focuses on three sets of phenomena: political, economic, and strategic. He explores the following

questions: Why are China and Ethiopia building relations at this juncture of globalization? What motivates China's role in helping build Ethiopia's infrastructure, and is Ethiopia's debt to China sustainable? What can Ethiopia offer China in terms of strategic interest in the Horn of Africa and the Red Sea littoral, which is now the most sought out area for military bases by regional and international forces? Tesfaye argues that China's ability to meet Africa's tremendous demand for capital and technology is a reflection of its economic and military rise and evidence that the Asian Century has arrived, ushering in a new global reality. "This is an excellent contribution to South-South relations in general, and China-Africa scholarship in particular." – Edson Ziso, author of *A Post State-Centric Analysis of China-Africa Relations*:
