Everyday Church Tim Chester, Steve Timmis, 2011 This book is not a commentary. Instead, we want to offer some missional reflections on 1 Peter, to explore what the Holy Spirit would say to the Western church today through this portion of God's Word. Above all, we have tried to write a practical book that shows what everyday church and everyday mission might look like on the ground. In calling the church to everyday mission, we recognize that this is what many, many Christians are already doing: being good neighbours, colleagues, family members, doing good in the face of hostility, bearing witness to Christ in the context of ordinary life. Our aim is not to dismiss this. Quite the opposite. We want to celebrate it and put it back at the centre of the church's mission. And perhaps also give it more direction and show how it can be more intentional.--Introduction, page 11.

Keeping Your Children's Ministry on Mission Jared Kennedy, 2022-02-23 Practical Strategies for Gospel-Centered Children's Ministry When building a children's ministry at a church, there is so much to consider: Which curriculum should we use? How many volunteers do we need? How do we keep parents in the loop? And that's before we run into stalled check-in computers, missing activity sheets, and floors that need to be vacuumed. While all of the tasks of children's ministry are important, leaders can get easily distracted with the everyday work of doing ministry and lose sight of the main focus—the gospel. Writing from personal ministry experience, Jared Kennedy shares a four-fold approach for gospel-centered, missional children's ministry: hospitality, teaching, discipleship, and mission. This practical resource covers a variety of topics ranging from creating child protection policies to putting together lesson plans to catechism, helpful for children's ministers and volunteers alike as they disciple children with the powerful message of the gospel. Applicable: Includes questions for reflection and evaluation Helps Leaders Disciple the Next Generation: Features advice for sending kids and their families on mission Ideal for Nursery-5th Grade Teachers and Leaders: A practical and helpful resource for children's ministries Published in Conjunction with the Gospel Coalition (TGC)

What Are You Going to Do with Your Life? J.D. Greear, 2020-10-13 God has a plan to make your life count for eternity. Stop wasting it. You want your life to matter. To mean something. But if you're like most people, you probably don't have a compelling answer to the question, "What are you going to do with your life?" In this book, J.D. Greear considers Jesus' radical call to give your life away to the greatest cause of all. To view your life from the perspective of eternity. To start making decisions now that you'll be glad you made then. It's time to put your "yes" on the table and let God put it on the map.

Nothing to Prove Jennie Allen, 2018-02-06 The visionary behind the million-strong IF:Gathering challenges Christian women to discover what it means to do life with God rather than always striving to impress him, in this trade paperback edition of her perspective-shifting work, which now includes bonus material to enhance your book club experience, including discussion questions and easy-to-create recipes. All too many of us struggle under the weight of life, convinced we need to work harder to prove to ourselves, to others, and to God that we are good enough, smart enough, and spiritual enough to do the things we believe we should. Author and Bible teacher Jennie Allen invites us into a different experience, one in which our souls overflow with contentment and joy. In *Nothing to Prove* she calls us to... * Find freedom from self-induced pressure by admitting we're not enough—but Jesus is. * Admit our greatest needs and watch them be filled by the only One who can meet them. * Make it our goal to know and love Jesus, then watch what He does in and through us. As you wade into the refreshing truth of the more-than-enough life Jesus offers, you'll experience the joyous freedom that comes to those who are determined to discover what God can do through a soul completely in love with Him. * * * * * "These pages are what your soul is begging for —Ann Voskamp "Nothing to Prove takes us on a journey toward freedom from the need to measure up." —Mark Batterson We love this glorious and universally resounding message." —Louie and Shelley Giglio "This book will help you take your eyes off your problems and put them back on God's promises." —Christine Caine

Testimonios: Stories of Latinx and Hispanic Mathematicians Pamela E. Harris,2021-08-16 Testimonios brings together first-person narratives from the vibrant, diverse, and complex Latinx and Hispanic mathematical community. Starting with childhood and family, the authors recount their own individual stories, highlighting their upbringing, education, and career paths. Their particular stories, told in their own voices, from their own perspectives, give visibility to some of the experiences of Latinx/Hispanic mathematicians. Testimonios seeks to inspire the next generation of Latinx and Hispanic mathematicians by featuring the stories of people like them, holding a mirror up to our own community. It also aims to provide a window for mathematicians (and aspiring mathematicians) from all ethnicities, with the hope of inspiring a better understanding of the diversity of the mathematical community.

Code Charles Petzold,2022-08-02 The classic guide to how computers work, updated with new chapters and interactive graphics For me, Code was a revelation. It was the first book about programming that spoke to me. It started with a story, and it built up, layer by layer, analogy by analogy, until I understood not just the Code, but the System. Code is a book that is as much about Systems Thinking and abstractions as it is about code and programming. Code teaches us how many unseen layers there are between the computer systems that we as users look at every day and the magical silicon rocks that we infused with lightning and taught to think. - Scott Hanselman, Partner Program Director, Microsoft, and host of Hanselminutes Computers are everywhere, most obviously in our laptops and smartphones, but also our cars, televisions, microwave ovens, alarm clocks, robot vacuum cleaners, and other smart appliances. Have you ever wondered what goes on inside these devices to make our lives easier but occasionally more infuriating? For more than 20 years, readers have delighted in Charles Petzold's illuminating story of the secret inner life of computers, and now he has revised it for this new age of computing. Cleverly illustrated and easy to understand, this is the book that cracks the mystery. You'll discover what flashlights, black cats, seesaws, and the ride of Paul Revere can teach you about computing, and how human ingenuity and our compulsion to communicate have shaped every electronic device we use. This new expanded edition explores more deeply the bit-by-bit and gate-by-gate construction of the heart of every smart device, the central processing unit that combines the simplest of basic operations to perform the most complex of feats. Petzold's companion website, CodeHiddenLanguage.com, uses animated graphics of key circuits in the book to make computers even easier to comprehend. In addition to substantially revised and updated content, new chapters include: Chapter 18: Let's Build a Clock! Chapter 21: The Arithmetic Logic Unit Chapter 22: Registers and Busses Chapter 23: CPU Control Signals Chapter 24: Jumps, Loops, and Calls Chapter 28: The World Brain From the simple ticking of clocks to the worldwide hum of the internet, Code reveals the essence of the digital revolution.
