**Trade and Climate Change** Ludivine Tamiotti, United Nations Environment Programme, 2009 Climate change is one of the greatest challenges facing the international community. Mitigating global warming and adapting to its consequences will require major economic investment and, above all, unequivocal determination on the part of all policymakers. This publication uniquely examines the intersection between trade and climate change from four different but correlated perspectives: the science of climate change, economic aspects, multilateral efforts to tackle climate change, and national climate change policies and

their trade effect. Copublished with the United Nations Environment Programme

*A Field Guide to Awkward Silences* Alexandra

Petri,2016-06-07 Washington Post columnist Alexandra Petri shares her stories of awkwardness in this insightful and supremely funny debut. Most twentysomethings avoid awkwardness. Not Alexandra Petri. She auditioned for America's Next Top Model. She lost Jeopardy! by answering "Who is that dude?" One time, she let some cult members baptize her, just to be polite. Alexandra Petri is a connoisseur of the kind of awkwardness most people spend lifetimes avoiding. If John Hodgman and Amy Sedaris had a baby. . .they would never let Petri babysit it. Here, the Washington Post columnist turns her satirical eye on her own life—with hilarious results. And she's here to tell you that interesting things start to happen when you stop caring what people think.

**Betrayal in Berlin** Steve Vogel,2019-09-24 A riveting and vivid account. ... A remarkable story. ... It reads like a Hollywood screenplay. —Foreign Affairs The astonishing true story of the Berlin Tunnel, one of the West's greatest espionage operations of the Cold War—and the dangerous Soviet mole who betrayed it. Its code name was "Operation Gold," a wildly audacious CIA plan to construct a clandestine tunnel into East Berlin to tap into critical KGB and Soviet military telecommunication lines. The tunnel, crossing the border between the American and Soviet sectors, would have to be 1,500 feet (the length of the Empire State Building) with state-of-the-art equipment, built and operated literally under the feet of their Cold War adversaries. Success would provide the CIA and the British Secret Intelligence Service access to a vast treasure of intelligence. Exposure might spark a dangerous confrontation with the Soviets. Yet as the Allies were burrowing into the German soil, a traitor, code-named Agent Diamond by his Soviet handlers, was burrowing into the operation itself. . . Betrayal in Berlin is Steve Vogel's heart pounding account of the operation. He vividly recreates post-war Berlin, a scarred, shadowy snake pit with thousands of spies and innumerable cover stories. It is also the most vivid account of George Blake, perhaps the most damaging mole of the Cold War. Drawing upon years of archival research, secret documents, and rare interviews with Blake himself, Vogel has crafted a true-life spy story as thrilling as the novels of John le Carré and Len Deighton. Betrayal in Berlin includes 24 photos and two maps.

**Lincoln's Sanctuary** Matthew Pinsker, 2003 Presents a portrait of Abraham Lincoln's stay at a small cottage on the grounds of the Soldiers' Home during his presidency.

In the Enemy's House Howard Blum, 2018-02-20 The New York Times bestselling author of *Dark Invasion* and *The Last Goodnight* once again illuminates the lives of little-known individuals who played a significant role in America's history as he chronicles the incredible true story of a critical, recently declassified counterintelligence mission and two remarkable agents whose story has been called the greatest secret of the Cold War. In 1946, genius linguist and codebreaker Meredith Gardner discovered that the KGB was running an extensive network of strategically placed spies inside the United States, whose goal was to infiltrate American intelligence and steal the nation's military and atomic secrets. Over the course of the next decade, he and young FBI supervisor Bob Lamphere worked together on Venona, a top-secret mission to uncover the Soviet agents and protect the Holy Grail of Cold War espionage—the atomic bomb. Opposites in nearly every way, Lamphere and

Gardner relentlessly followed a trail of clues that helped them identify and take down these Soviet agents one by one, including Julius and Ethel Rosenberg. But at the center of this spy ring, seemingly beyond the American agents' grasp, was the mysterious master spy who pulled the strings of the KGB's extensive campaign, dubbed Operation Enormoz by Russian Intelligence headquarters. Lamphere and Gardner began to suspect that a mole buried deep in the American intelligence community was feeding Moscow Center information on Venona. They raced to unmask the traitor and prevent the Soviets from fulfilling Soviet Premier Nikita Khrushchev's threat: We shall bury you! A breathtaking chapter of American history and a page-turning mystery that plays out against the tense, life-and-death gamesmanship of the Cold War, this twisting thriller begins at the end of World War II and leads all the way to the execution of the Rosenbergs—a result that haunted both Gardner and Lamphere to the end of their lives.
