Creating the Viewer Justin Wyatt,2024-04-23 A study of the largely hidden world of primary media market research and the different methods used to understand how the viewer is pictured in the industry. The first book on the intersection between market research and media, *Creating the Viewer* takes a critical look at media companies' studies of television viewers, the assumptions behind these studies, and the images of the viewer that are constructed through them. Justin Wyatt examines various types of market research, including talent testing, pilot testing, series maintenance, brand studies, and new show "ideation," providing examples from a range of programming including news, sitcoms, reality shows, and dramas. He looks at brand studies for networks such as E!, and examines how the brands of individuals such as showrunner Ryan Murphy can be tested. Both an analytical and practical work, the book includes sample questionnaires and paths for study moderators and research analysts to follow. Drawn from over fifteen years of experience in research departments at various media companies, *Creating the Viewer* looks toward the future of media viewership, discussing how the concept of the viewer has changed in the age of streaming, how services such as Netflix view market research, and how viewers themselves can shift the industry through their media choices, behaviors, and activities.

Working-Class Comic Book Heroes Marc DiPaolo,2018-04-19 Contributions by Phil Bevin, Blair Davis, Marc DiPaolo, Michele Fazio, James Gifford, Kelly Kanayama, Orion Ussner Kidder, Christina M. Knopf, Kevin Michael Scott, Andrew Alan Smith, and Terrence R. Wandtke In comic books, superhero stories often depict working-class characters who struggle to make ends meet, lead fulfilling lives, and remain faithful to themselves and their own personal code of ethics. *Working-Class Comic Book Heroes: Class Conflict and Populist Politics in Comics* examines working-class superheroes and other protagonists who populate heroic narratives in serialized comic books. Essayists analyze and deconstruct these figures, viewing their roles as fictional stand-ins for real-world blue-collar characters. Informed by new working-class studies, the book also discusses how often working-class writers and artists created these characters. Notably Jack Kirby, a working-class Jewish artist, created several of the most recognizable working-class superheroes, including Captain America and the Thing. Contributors weigh industry histories and marketing concerns as well as the fan community's changing attitudes towards class signifiers in superhero adventures. The often financially strapped Spider-Man proves to be a touchstone figure in many of these essays. Grant Morrison's Superman, Marvel's Shamrock, Alan Moore and David Lloyd's V for Vendetta, and *The Walking Dead* receive thoughtful treatment. While there have been many scholarly works concerned with issues of race and gender in comics, this book stands as the first to deal explicitly with issues of class, cultural capital, and economics as its main themes.

Cady Davenport is living the American dream... At least she's supposed to be. She's in a new city, with a new job and even a new fiancé. But when her husband-to-be hits the road for the upcoming presidential election, Cady realizes she's on her own—and that her dream life might not be all she'd imagined. Until she finds herself thrust straight into the heart of the most influential inner circle in Washington, DC: the campaign widows. As friends, they're an unlikely group—a fabulous Georgetown doyenne; a speechwriter turned mommy blogger; an artsy website editor; and a First Lady Hopeful who's not convinced she wants the job. But they share one undeniable bond: their spouses are all out on the trail during a hotly contested election season. Cady is unsure of her place in their illustrious group, but with the pressures of the unprecedented election mounting, the widows' worlds keep turning—faster than ever—as they hold down the fort while running companies, raising babies, racking up page views and even reinventing themselves. And their friendship might be just what Cady needs to find the strength to pursue her own happiness.

No Need for Heroes Sandy MacGregor, Jimmy Thomson, 2014-06-12 THE FIRST TUNNEL RATS This is the thrilling, hilarious and inspiring true story of a ragtag band of Aussie Army Engineers who redefined the word heroes ... and reinvented larrikin too. Among the first Australians to fight in Vietnam, they faced death every day defusing Viet Cong booby traps—then partied all night in a casino they'd built in secret. They led hundreds of American troops to safety, but fought US military police to a standstill in the bars of South Vietnam. They built the Australian Task Force's base—then sabotaged a headquarters conference, booby trapped showers and blew up a generator rather than kowtow to newly arrived officers. And that's before we even mention sex ... Most importantly, the men of Three Field Troop discovered a huge Viet Cong tunnel complex and were the first allied troops to follow the enemy down into their underground city. They were the original Tunnel Rats and this is their story.

Migrating for Medical Marijuana Tracy Ferrell, 2019-09-13 In the last six years, Colorado has seen a population boom reminiscent of the state's first few years of settlement. But rather than staking mining claims or establishing homesteads, these new pioneers are on the frontier of an emerging science: marijuana as treatment for various debilitating conditions. This book contains personal accounts from doctors, researchers, and patients--self-proclaimed refugees seeking treatment unavailable elsewhere--who are at the forefront of medical marijuana practice. Their stories provide unique insights into a social, political and medical revolution.
