*Don't Fear the Spreadsheet* Tyler Nash, Bill Jelen, Kevin Jones, Tom Urtis, 2012-07-01 Written in a question-and-answer format, this lowest-level beginner book covers the extreme basics of using spreadsheets in Excel. Instead of delving into advanced topics that scare most Excel novices away, the guide starts at a much more basic level, quickly providing a passable knowledge of the program and allowing users to overcome their fears and frustrations. It answers hundreds of common questions, including Can I delete data from a spreadsheet without changing the formatting? How can I merge two cells, columns, or rows? How do I use text-wrapping? How do I create custom functions? and What is a Macro and how do I go about creating it? Intended for the roughly 40 percent Excel users who have never even entered a formula, this book will demystify the problems and confusion that prevent them from using the program to its potential.

**Cross-Cultural Online Learning in Higher Education and Corporate Training** Keengwe, Jared,2014-01-31 This book brings together researchers who study and professionals who design and deliver online training across cultures in both higher education and corporate training settings to share paradigms, perspectives, insights, best practices, challenges and best practices--Provided by publisher.

**Industry Practices, Processes and Techniques Adopted in Education** Kathryn MacCallum,David Parsons,2022-08-25 This book provides a single source of reference for educators interested in understanding how industry-based ideas have been adapted into different educational contexts, and supports their utilisation in practice. The link between industry-based ideas and their application in education has enabled educators to develop engaging, collaborative, and creative learning environments, as well as better preparing their students for an increasingly complex and dynamic global environment. This book includes contributions from educators, researchers, and practitioners, who have integrated industry-based ideas into their teaching, and explores how these concepts and practices support the creation of effective learning environments. Through these diverse, international contributions, this book enables wider engagement with, and critical analysis of, the application of industry practices, processes and techniques in the development of collaborative and creative learning environments.

**Private Sector Development in an Emerging World** Diederik Boer,Harald Sander,Katharina Friz,Antonella Anastasi,2023-12-04 This book explores the interactions between private sector development, public policies and societal institutions with a strong view on contributing to sustainable and inclusive development in emerging countries. The private sector is often praised as an engine of economic growth. This belief has led to significant efforts to promote private sector development in

emerging countries. Development agencies prioritize private sector development and national governments are following suit, resulting in often huge incentives to stimulate and attract private investment. However, private sector development is not a panacea for sustainable and inclusive development as the past decades have clearly shown. Economic growth, societal development and environmental sustainability are often in a sharp conflict; and more often than not economic growth has failed to improve the lives of all citizens. This book examines the role the state and the private sector should play to benefit from the dynamics of business development, while ensuring that these benefits are shared broadly without jeopardizing sustainability. The views presented differ in detail, but the analyses and case studies presented share common themes, namely that the relative roles of state and private sector should be balanced and that this particular balance should be based on the context of each country in order to make the private-public sector interaction work for all people.
