The Excuse-maker ,18??

Excuses, Excuses Lisa Swerling,2013-03-04 A side-splitting collection of excuses for getting out of work--if you can get your boss to believe them Most people will admit to telling the odd white lie in order to wangle a day off work, but only a master excuse-maker could conceive of alibis including milking a walrus, contracting osmosis, and FOHP (Fear of Having Peaked)--all of which, and more, are presented in this surreal and off-the-wall book! Caution: Not recommended for use in actual workplace scenarios.

The Little Giant Encyclopedia of Outrageous Excuses David MacFarlane,2006 Every time you mess up, you feel the need to make an excuse. If you're tired of offering the same old tired explanations, take your pick from this encyclopedic collection of hundreds of excuses you've never used before. They're organized into categories like medical emergencies (I have a chemical imbalance), weather (the humidity swelled my door shut), ancient proverbs (nothing is inevitable until it happens), and reasons that make no sense (I did my own thing and now I have to undo it). You can even pick the perfect excuse for particular people: boss, spouse, date, or cop. Serious excuse makers will appreciate the psychological interpretations of various responses, to make sure you pick the right one for every situation.

The No Excuse Guide to Success Jim Smith,2012-06-22 Almost everyone is guilty of playing the blame game. It's satisfying and easy to do. If we despise our work, we can blame our manager or even our short-sighted organization for its inability to recognize our genius. If our personal lives are a disaster, we can blame our spouses, partners, the economy, or even our ancestors. We all know on some level that we are pointing our fingers in the wrong direction, but

we just can't seem to help ourselves. The No Excuse Guide to Success shows you how to abandon this unworkable routine and stop the destructive pattern of making excuses and blaming others—to stop whining and start winning. The No Excuse Guide to Success gives you the tools and techniques you need to: Make life-altering changes in how you approach your career and your life Stop blaming others and start believing in yourself Own your choices and break down self-created barriers to success Embrace uncertainty and stop being afraid to win

No More Excuses Sally Resolut, 2020-12-31 Stop making excuses for: Getting things done Spending habits Eating habits Getting enough sleep Self care mistakes Negative thinking Changing careers Pursuing success Fixing relationships Being true to yourself Expressing your wants and needs Honesty (with yourself and others) Being too old/young to do something Dangerous habits He that is good for making excuses is seldom good for anything else. - Benjamin Franklin People make excuses mainly for the following: Fear of Failing Fear of Embarrassment Fear of Success Fear of Change Fear of Uncertainty Fear of Responsibility Fear of Making Mistakes Lack of Confidence You need to ask yourself the following questions: What excuses do I usually make? What am I settling for? Why am I making these excuses all the time? Also, list the consequences for these excuses: How do these excuses prevent me from moving forward? How do they hamper my ability to get what I want? Stop making excuses and start doing. Use the No Excuses Journal to track excuses made and/or excuses overcome. The Book of Excuses William Veloo, 2018-08-14 Are you a chronic excuse maker or a procrastinator? Do you make excuses not to go out with friends, miss work, important meetings or any other such occasion? Well, this book will outline several types of excuses that people use to get out of doing things and taking responsibility for a wide variety of different things from getting out of debt and paying bills to making up with estranged friends or family, or any other thing. If you need a swift kick in the rear to start goal-setting and planning out your life, this also is your guide to getting out of Excuse Land. The book features some

of the funniest excuses, some of the worst excuses, bad excuses that turn into lies, and excuses that turn into bad incomes for all parties involved with the excuse. The book also outlines, step by step, how to trick your mind not to make excuses for anything. This goal-setting chapter can't get any simpler. Follow the steps outlined in the particular chapter and you will be successful. Many times, the book says not to fall down on the job with excuses why one can't be successful. Anyone who can follow directions, can be successful. This book also says why most people don't tell the truth and use excuses to cleverly and creatively cover it up. This book will show you the consequences of living a life of excuses whether the excuses be for being addicted to alcohol to simply failing to pay your debts on time, from choosing not to go to work to overspending. It's all covered in real-world scenarios where people use excuses to not be great. This book will cause you to get rid of the can't analogy. This book will cause you to turn your what-ifs into actionable solutions. It will turn your creative mind onto how you can look at problems as stepping stones to be conquered rather than ignored, things that should be addressed rather than covered up. Consider this your quick dose of reality to get you up and moving in the right direction. You may or may not consider this a motivational type book, but that is exactly what it is. The tone is such that reality is hard; it's time to live it. Whatever things are hanging you up, the general message is to find your way out of it, using this book as an honest guide to what excuses really are--shy and scared attempts to not do anything productive. This book outlines what procrastinators do and what effective, productive people do. Time is valuable. Time is money. It's true that if you had a quarter for every excuse you made, some of you would be rich, but excuses

hardly ever make people millionaires. They make people even more poor, broke and destitute than they were before The book will help you to examine the excuses people make and help make plans to forego such excuses in the future.
