micromanaged—or not being managed at all • you catch a colleague in a lie • your boss seems unhappy with your work • your cubemate's loud speakerphone is making you homicidal • you got drunk at the holiday party Praise for Ask a Manager “A must-read for anyone who works . . . [Alison Green's] advice boils down to the idea that you should be professional (even when others are not) and that communicating in a straightforward manner with candor and kindness will get you far, no matter where you work.”—Booklist (starred review) “The author's friendly, warm, no-nonsense writing is a pleasure to read, and her advice can be widely applied to relationships in all areas of readers' lives. Ideal for anyone new to the job market or new to management, or anyone hoping to improve their work experience.”—Library Journal (starred review) “I am a huge fan of Alison Green's Ask a Manager column. This book is even better. It teaches us how to deal with many of the most vexing big and little problems in our workplaces—and to do so with grace, confidence, and a sense of humor.”—Robert Sutton, Stanford professor and author of The No Asshole Rule and The Asshole Survival Guide “Ask a Manager is the ultimate playbook for navigating the traditional workforce in a diplomatic but firm way.”—Erin Lowry, author of Broke Millennial: Stop Scraping By and Get Your Financial Life Together

**Impact Analysis** Laurie Larwood,Urs E. Gattiker,1999-08-01 Throughout the social sciences, the gap between research and application is a reminder that the goals of scholars and practitioners are not always one and the same. Still, the best scholarship is often acknowledged to be that which informs practice, and the best practice--whether defined in terms of efficiency, flexibility, long-term vision, or even profit--is often that which is based on relevant research. This book presents a discussion among eminent researchers, practitioners, and consultants of the new field of Impact Analysis. They address three central issues: \*the practical ways in which scholars can better ensure that their work has an important influence on practice; \*the pros and cons in forging a closer connection between research, consulting, and practice; and \*how, despite potential drawbacks, a closer relationship between research and practice can be mutually beneficial. In addition to practical advice, the participants offer predictions that will be of interest to applied researchers in this field and business-oriented professionals.
