Cost Management of Construction Projects Donald Towey, 2013-06-12 The cost manager/quantity surveyor plays a pivotal role in the financial and contract management of construction projects, although the exact nature of the service they provide depends on the project employer's terms of engagement. This can mean acting as consultant in a range of roles including cost and advisory services for budget setting to initiate a project, cost management through the design and construction phases, contract administration and acting as the client side project manager to oversee the entire building process. *Cost Management of Construction Projects* focusses on the cost manager/quantity surveyor engaged by the project client, and discusses key elements that help drive project success including measurement (based on the New Rules of Measurement published by RICS), procurement, cost planning, contract administration and project cost management. With examples, it provides a thorough guide to the role in the workplace and in the field, directly addressing the day to day situations faced by the cost manager/quantity surveyor. Donald Towey MRICS has extensive experience of the construction industry. His experience began as an estimator with a glass/glazing contractor in Manchester. Following a number of positions with UK contractors he relocated to Australia and has worked with a number of developers and main contractors, as well as doing freelance work. He is currently working in contracts management in Sydney.

The good news is that you don't have to a bean-counter to understand this, for only 20% of IT project financials is accounting - the rest is all process. In a clear and engaging style, Michael Gentle lifts the veil off things like portfolio management, capex and opex, depreciation, cost management and forecasting. You'll then understand why time entry is not going away anytime soon (sorry, folks!), and why chargebacks are so hard to implement. Michael Gentle has over 25 years of experience in IT departments and software vendors in Europe, North America and Asia-Pacific.
