America-Lite David Gelernter, 2013-10-14 America-Lite (where we all live) is just like America, only turned into an amusement park or a video game or a supersized Pinkberry, where the past and future are blank and there is only a big NOW. How did we come to expect no virtue and so much cynicism from our culture, our leaders—and each other? In this refreshingly judgmental book, David Gelernter connects the historical dots to reveal a stealth revolution carried out by post-religious globalist intellectuals who, by and large, “can’t run their own universities or scholarly fields, but are very sure they can run you.” These imperial academics have deployed their students into the top echelon of professions once monopolized by staid and steady WASPs. In this simple way, they have installed themselves as the new designated drivers of American culture. Imperial academics live in a world of theory; they preach disdain for mere facts and for old-fashioned fact-based judgments like true or false. Schoolchildren are routinely taught theories about history instead of actual history—they learn, for example, that all nations are equally nice except for America, which is nearly always nasty. With academic experts to do our thinking for us, we’ve politely shut up and let second-raters take the wheel. In fact, we have handed the keys to the star pupil and teacher’s pet of the post-religious globalist intellectuals, whose election to the presidency of the United States constituted the ultimate global group hug. How do we finally face the truth and get back into the driver’s seat? America-Lite ends with a one-point plan.

Lite is Dangerous Henriette Chardak, 2023-07-04 In 6,000 food products, aspartame is found everywhere in so-called diet nutrition. However, several scientific studies show that this sweetener is harmful for children, pregnant women and epileptics. Used to replace sugar and reduce the caloric intake of food, aspartame actually works in the opposite direction, it develops obesity and diabetes. In this first in-depth investigation of the diet industry, Henriette Chardak exposes a health scandal. She shows why the use of aspartame continues despite the risks it generates. How people were pushed into consuming these chemical substances—whose harmlessness had been questioned for many years. Between Chicago and Tokyo, top-secret files and complacency of the authorities, the author offers us a breathless thriller, behind-the-scenes of the world chemical industry. The story begins in Chicago and ends up in our plates and our medicines. A real cold case, where readers will find the keys to a thriller that was played out in the 1970s. They will make up their minds about the usefulness—or danger—of this fake sugar. Two scoops: • super sweeteners from aspartame are given to cattle to make them grow fatter faster; • Japan, which manufactures aspartame, does not consume it. This book also lays bare what is was not meant to be told—the conflicts of interest, colossal stakes, secret files forbidden to the public. Henriette Chardak is a journalist and television producer. She studied criminology with Professor Jacques Léauté during her journalism studies, which led her to prefer long investigations to short news flashes. After working as a journalist and director for France 2, she devoted herself to biographies, to introduce the general public to unique and exemplary pioneers: Kepler, Brahe, Pythagoras, Rabelais, Cervantes, Reclus, Shakespeare.

Trading Chaos Justine Gregory-Williams, Bill M. Williams, 2004-02-27 How to trade the markets by integrating Chaos Theory with market sentiment In the first edition of *Trading Chaos*, seasoned trader and psychologist Bill Williams detailed the potential of Chaos Theory—which seeks to make the unpredictable understandable—in trading and it revolutionized financial decision-making. The Second Edition of *Trading Chaos* is a cutting edge book that combines trading psychology and Chaos Theory and its particular effect on the markets. By examining both of these facets in relation to the current market, readers will have the best of all possible worlds when trading. Bill Williams, PhD, CTA (Solana Beach, CA), is President of Profitunity.com, a leader in the field of education for traders and investors. Justine Gregory-Williams (Solana Beach, CA) is President of the Profitunity Trading Group and a full-time trader.

Advising Ultra-Affluent Clients and Family Offices Michael M. Pompian,2009-04-22 A timely guide for financial professionals looking to tap into the lucrative world of the ultra-affluent The ultra affluent—defined here as those having \$50 million or more in liquid assets—are an elite class who expect their financial advisors to not only preserve and grow their assets, but also help them with soft issues such as philanthropy and family governance. One of the biggest factors to success in this field is the relationship between the client and the advisor. In *Advising Ultra-Affluent Clients and Family Offices*, author and practicing investment consultant Michael Pompian provides a practical introduction to who the ultra-affluent actually are and reveals what it takes to build and maintain a solid relationship with them. Filled with in-depth insights and expert advice, this unique resource offers valuable information on issues that every advisor to the ultra-affluent must be familiar with.

Beyond Foundations Thomas J. Grites,Marsha A. Miller,Julie Givans Voler,2016-08-30 Sharpen advising expertise by exploring critical issues affecting the field *Beyond Foundations*, a core resource for experienced academic advisors, gives practitioners insight into important issues affecting academic advising. In addition to gaining understanding of foundational concepts and pressing concerns, master advisors engage with case studies to clarify their roles as educators of students, as thought leaders in institutions, and as advocates for the profession. Pillar documents—the NACADA Core Values, NACADA Concept of Academic Advising, and CAS Standards—serve as sources of both information and inspiration for those seeking to improve advising. New strategies inform advisors helping a diverse student population delineate meaningful educational goals. Each chapter prompts productive discussions with fellow advisors interested in cultivating advising excellence. To promote advisor influence in higher education, experienced contributors explain new trends—including the impact of external forces and legal issues on postsecondary institutions—and the evolution of advising as a profession and a field of inquiry. Expert insight and practical focus contribute to the development of experienced advisors. Use existing resources in new ways to master advising roles and encourage student success Apply theory to advance advising practice Create and optimize professional development opportunities Establish recognition for the contributions of academic advisors to the institution and higher education Face challenges created by the changing higher education landscape Advisors must meet the expectations of students, parents, faculty members, administrators, and outside agencies, all while navigating an increasingly complex range of issues presented by a student population unlike any that has come before. *Beyond Foundations* provides the insight and clarity advisors need to help students achieve their educational goals and to advance the field.
