Open Your Eyes Jake Olson, McKay Christensen, 2014-01-07 Doctors removed Jake Olson's left eye at ten months old. When he was twelve, after years of radiation and chemotherapy, the cancer took his right eye as well. That's when Jake's story really began. When ESPN met Jake Olson, he was a twelve-year-old boy who wanted to spend his final weeks of sight with the USC football team. Jake's story became one of the most recognized pieces in the network's history, earning an award, instantly viewed by hundreds of thousands of people worldwide. But Jake's story didn't end with his final surgery or with ESPN—not by a long shot. Now sixteen, Jake Olson dreams of becoming the first blind golfer in the PGA. How is such a thing even possible? How does that level of perseverance endure in someone with so many reasons to give up? In Open Your Eyes, Jake Olson tells more than his story. He reveals the ways of thinking, living, and praying that have kept him and his family triumphant in the face of their tribulations. Told with sincerity and humor in tandem with leadership coach McKay Christensen, Open Your Eyes is not just a heartwarming chronicle of the Olson family's struggle. Jake's story is a step-by-step lesson in perseverance and motivation from a young man who knows how to put the past in the past. From the USC locker room to the fairways of Pebble Beach, Jake Olson will inspire you, your family, and your team with bravery, ability, and faith. It is time to learn from this remarkable young man and open your eyes to a happier life.

Land,Dan-Eric Nilsson,2012-03-01 Animal Eyes provides a comparative account of all known types of eye in the animal kingdom, outlining their structure and function with an emphasis on the nature of the optical systems and the physical principles involved in image formation. A universal theme throughout the book is the evolution and taxonomic distribution of each type of eye, and the roles of different eye types in the behaviour and ecology of the animals that possess them. In comparing the specific capabilities of eyes, it considers the factors that lead to good resolution of detail and the ability to function under a wide range of light conditions. This new edition is fully updated throughout, incorporating more than a decade of new discoveries and research.

What the Eyes Don't See Mona Hanna-Attisha,2018-06-19 A NEW YORK TIMES NOTABLE BOOK • The dramatic story of the Flint water crisis, by a relentless physician who stood up to power. "Stirring . . . [a] blueprint for all those who believe . . . that 'the world . . . should be full of people raising their voices.'"—The New York Times "Revealing, with the gripping intrigue of a Grisham thriller." —O: The Oprah Magazine Here is the inspiring story of how Dr. Mona Hanna-Attisha, alongside a team of researchers, parents, friends, and community leaders, discovered that the children of Flint, Michigan, were being exposed to lead in their tap water—and then battled her own government and a brutal backlash to expose that truth to the world. Paced like a scientific thriller, What the Eyes Don't See reveals how misguided austerity policies, broken democracy, and callous bureaucratic indifference placed an entire city at risk. And at the center of the story is Dr. Mona herself—an immigrant, doctor, scientist, and mother whose family's activist roots inspired her pursuit of justice. What the Eyes Don't See is a riveting account of a shameful disaster that became a tale of hope, the story of a city on the ropes that came together to fight for justice, self-determination, and the right to build a better world for their—and all of our—children. Praise for What the Eyes Don't See "It is one thing to point out a problem. It is another thing altogether to step up and work to fix it. Mona Hanna-Attisha is a true American hero."—Erin Brockovich "A clarion call to live a life of purpose."—The Washington Post "Gripping . . . entertaining . . . Her book has power precisely because she takes the events she recounts so personally. . . . Moral outrage present on every page."—The New York Times Book Review "Personal and emotional. . . . She vividly describes the effects of lead poisoning on her young patients. . . . She is at her best when recounting the detective work she undertook after a tip-off about lead levels from a friend. . . . 'Flint will not be defined by this crisis,' vows Ms. Hanna-Attisha."—The Economist "Flint is a public health disaster. But it was Dr. Mona, this caring, tough pediatrician turned detective, who cracked the case."—Rachel Maddow
