Cooking 4 Change Illustrated Cargoship,2016-09 Cooking 4 Change is the brainchild of celebrated New Zealand artist Dick Frizzell, his business partner Christian Kasper and TV host Erin Simpson. They asked a wide range of New Zealand celebrities to share their all-time favourite dishes in order to raise money for longstanding local charities Paw Justice, Leukaemia and Blood Cancer New Zealand, Starship Foundation and Auckland City Mission. What resulted is a diverse selection of recipes and intimate cooking stories from a raft of our favourite personalities who want to make a difference. The recipes and stories are accompanied by sumptuous photography, mostly taken inside each celebrity's own kitchen. In true New Zealand style, Cooking 4 Change showcases the amazing results Kiwis can achieve when we all work together and give back to some of our hardest-working charities.

Jorge Otero-Pailos Eva Ebersberger,Daniela Zyman,2009 Estoy interesado en cómo hacemos la transición como personas de una fase de la vida a otra, y como culturas de un período histórico a otro. Las transiciones son a menudo difíciles, tal vez incluso atemorizantes. Con esta presentación, podemos imaginar que el trabajo del arquitecto artista Jorge Otero-Pailos será diferente, especialmente respecto a cómo entendemos el paso del tiempo de la arquitectura en la historia. The Ethics of Dust evidencia la limpieza del polvo y los residuos de contaminación de reconocidos edificios

y monumentos históricos. Haciendo visible lo invisible.

Kill Anything That Moves Nick Turse,2013-01-15 Based on classified documents and first-person interviews, a controversial history of the Vietnam War argues that American acts of violence against millions of Vietnamese civilians were a pervasive and systematic part of the war and that soldiers were deliberately trained and ordered to conduct hate-based slaughter campaigns.

70-698 Installing and Configuring Windows 10 Lab Manual Microsoft Official Academic Course,2016-12-27 This is the Lab Manual to accompany 70-698: Installing & Configuring Windows 10 exam. Students pursuing a Microsoft Certified Solutions Associate (MCSA) for Windows 10 will need to start with this 70-698: Installing & Configuring Windows 10 exam. Often referred to as the Help Desk course, this exam provides students with the essentials needed for a career in Information Technology in a corporate environment. Exam 70-698 is the first exam required to earn the Windows 10 MCSA credential, and a primary course in most Help Desk Technician curricula. This text is comparable to exam 70-687 for Windows 8.1 or 70-680 for Windows 7. This exam covers local installation, configuration of core local services, and the general local management and maintenance of Windows 10. Although the focus is primarily on local scenarios, enterprise scenarios are also included, where applicable. Some cloud-integrated services are covered where appropriate, such as with Microsoft Passport. Microsoft Official Academic Course (MOAC) textbooks are designed for instructor-led classroom courses; the optional MOAC Labs Online facilitate hands-on labs from any location, locally or remotely. Available as an ebook with optional MOAC Labs Online or Lab Manual.

House: Black Swan Theory Steven Holl,2007-03-29 Using site as a starting point, readers can follow Holl's entire creative process. The text contains watercolours, photographs, renderings, plans, and sketches for houses in New York, Arizona, Texas, Washington D.C., and Martha's Vineyard.

The Operators Michael Hastings,2012-01-05 The inspiration for the Netflix original movie War Machine, starring Brad Pitt, Tilda Swinton, and Ben Kingsley From the author of The Last Magazine, a shocking behind-the-scenes portrait of our military commanders, their high-stake maneuvers, and the politcal firestorm that shook the United States. In the shadow of the hunt for Bin Laden and the United States' involvement in the Middle East, General Stanley McChrystal, the commanding general of international and U.S. forces in Afghanistan, was living large. His loyal staff liked to call him a "rock star." During a spring 2010 trip, journalist Michael Hastings looked on as McChrystal and his staff let off steam, partying and openly bashing the Obama administration. When Hastings's article appeared in Rolling Stone, it set off a political firestorm: McChrystal was unceremoniously fired. In The Operators, Hastings picks up where his Rolling Stone coup ended. From patrol missions in the Afghan hinterlands to senior military advisors' late-night bull sessions to hotel bars where spies and expensive hookers participate in nation-building, Hastings presents a shocking behind-the-scenes portrait of what he fears is an unwinnable war. Written in prose that is at once eye-opening and other times uncannily conversational, readers of No Easy Day will take to Hastings' unyielding first-hand account of the Afghan War and its cast of players.

The New Acropolis Museum Dēmētrios Pantermalēs,Bernard Tschumi Architects,2009-09-29 A comprehensive look at the eagerly anticipated New Acropolis Museum in Athens, Greece, and the

celebrated collection it houses. Marking the opening of the New Acropolis Museum, this book examines both its architecture and the archaeological treasures it was built to house. The building addresses the dramatic complexities of the collection and the site with minimalist simplicity by using three main materials—glass, stainless steel, and concrete. There's no way at the beginning of the twenty-first century you can try to imitate even superficially the art of 2,500 years ago, Tschumi says. The precision of the concept was really what counted. The book provides an in-depth look at the creation of the building, set only 280 meters from the Parthenon, as well as the restoration, preservation, and housing of its exhibits through over 200 photographs, drawings, and texts.

AT-INdex Winka Dubbeldam,Archi-Tectonics,2006 Publisher description

Wang Shu Amateur Architecture Studio Mette Marie Kallehauge,Michael Juul Holm,Kjeld Kjeldsen,2017 Wang Shu Amateur Architecture Studio is the first major book on the recent work of architect Wang Shu, Pritzker Price winner in 2012, and his wife Lu Wenyu. Together they have run Amateur Architecture Studio, based in Hangzhou, China, for nearly 20 years. At a time when Chinas explosive urbanization is making inroads into rural areas and leaving the marks of cheap concrete construction everywhere, Amateur Architecture Studio is keen to work against this tendency by reusing materials from the buildings that Chinese authorities are systematically tearing down. Amateur Architecture Studios working ways successfully represent socially conscious and sustainable new architecture. Wang Shus architecture reveals a thoughtful attitude toward both design and implementation, as well as the ability to react flexibly to the surroundings and history of a particular site. At heart, it comes down to preserving Chinese building customs and local awareness of material in a nation that is fast losing its building culture. The studios projects inhabit a fascinating field between allusions to traditional Chinese culture and large-scale modern architecture. This book is

published on the occasion of the Louisiana Museum of Modern Art exhibition in 2017 of Wang Shu and Amateur Architecture Studios work. Featuring a wealth of images by architecture photographer Iwan Baan this is a detailed and reflective guide to Amateur Architecture Studios projects, philosophy and methodology. -- Publicaciones Arquitectura y Arte.

The Phaidon Atlas of Contemporary World Architecture Phaidon Press,2005-06 A condensed version of the information contained in the ground breaking Phaidon Atlas of Contemporary World Architecture, this travel edition is pocket sized and portable, ideal for the holiday or business traveller. Organized geographically and illustrated with global, regional and sub-regional maps, locating each building, plus twenty seven city orientations, the book contains 1,052 buildings, each of which is illustrated with a single image, and is accompanied by a brief description as well as the address and telephone number

The Infrastructural City Kazys Varnelis,2009 Once the greatest American example of a modern city served by infrastructure, Los Angeles is now in perpetual crisis. Infrastructure has ceased to support its urban plans, subordinating architecture to its own purposes. This out-of-control but networked world is increasingly organized by flows of objects and information. Static structures avoid being superfluous by joining this system as temporary containers for people, objects, and capital. This provocative collection of photography, essays, and maps looks at infrastructure as a way of mapping our place in the city and affecting change through architecture.

Sorry, Out of Gas Giovanna Borasi,Mirko Zardini,2007 The year 1973 marks one of the most important turning points in the history of the twentieth century. Prior to that year, the world had become accustomed to a plentiful supply of inexpensive fossil fuels--especially oil. During this first major international oil crisis, however, the western world's dependency on unstable eastern energy

resources became dramatically clear. Published to accompany the comprehensive and enlightening 2008 exhibition, 1973: Sorry, Out of Gas, hosted by the Canadian Centre for Architecture in Montreal, this beautifully designed, frightening and strangely inspiring volume examines the oil crisis of 1973 as the major precedent of contemporary concerns about energy resources and fossil fuel dependency. The 1973 shortage triggered research and development of renewable energy sources, improved technologies and sparked social experiments that were to have an enduring impact on the fields of architecture and policy in both America and Europe. Put together by the acclaimed Italian book designer Massimo Pitis, this volume includes a monumental stash of documentary photographs, ephemera, documents, transcripts and original writings on all things related to the oil crisis--from Jimmy Carter to underground utopias. Reproductions cover everything from impossible traffic jams leading up to empty gas stations to board games with names like Energy Quest and Petrol. Specially conceived for this occasion, an illustrated tale by Harriet Russell, whose work is regularly featured in Time Out and the Guardian, introduces the ideas behind this book from a child's point of view. Russell's drawings depict ironic and humorous situations that will familiarize children with energy-saving and oil dependency concerns.
