It is suggested that they use natural products that they can make at home with your own hands. They are safer and they have no side effect. Even if you are allergic to some ingredient, you can try another recipe. I have given 5 in one chapter. In one chapter, I have shared 5 different ways of making ant killers or repellents. You can these from natural ingredients. They are not only environment friendly, they are highly effective too. This book draws together the entire unprecedented campaign, uncovering the twists and turns and nasty surprises the team had to deal with along the way. Written in an approachable way, it also contains new unpublished technical information which will be sought after by professionals.
