Snakes! 9 Crochet Patterns Tara Cousins, 2020-04-16 This Crochet Pattern eBook includes written instructions as well as

many photos and extra tips for creating this collection of 9 different snakes. What is more fun and easy than crocheting realistic looking snakes? (as well as a mythical magical rainbow snake....) To give variety, some of the snakes in this book are worked in the round, and some are worked in rows. They also vary in size, from 22 long to 52 long. Kids love snakes, and so do adults (well, most adults... a few are scared of them - make these snakes especially for the adults that are scared of them! haha). If you don't have a ton of experience with crochet, don't worry - these patterns are easy! They have some increases, decreases, and color changes, but they only use basic stitches and I give some extra photos and explanations so you can complete the patterns with success. These patterns were created by Me, Tara Cousins, the designer and book publisher behind Tiger Road Crafts. I live in Colorado with my husband and my two kids, who inspire me every day to be creative and share that creativity with others!

The Languages and Linguistics of Western Asia Geoffrey Haig, Geoffrey Khan, 2018-12-03 The languages of Western Asia belong to a variety of language families, including Indo-European, Kartvelian, Semitic, and Turkic, but share numerous features on account of being in areal contact over many centuries. This volume presents descriptions of the modern languages, contributed by leading specialists, and evaluates similarities across the languages that may have arisen by areal contact. It begins with an introductory chapter presenting an overview of the various genetic groupings in the region and summarizing

some of the significant features and issues relating to language contact. In the core of the volume the presentation of the languages is divided into five contact areas, which include (i) eastern Anatolia and northwestern Iran, (ii) northern Iraq, (iii) western Iran, (iv) the Caspian region and south Azerbaijan, and (v) the Caucasian rim and southern Black Sea coast. Each section contains chapters devoted to the languages of the area preceded by an introductory section that highlights significant contact phenomena. The volume is rounded off by an appendix with basic lexical items across a selection of the languages. The handbook features contributions by Erik Anonby, Denise Bailey, Christiane Bulut, David Erschler, Geoffrey Haig, Geoffrey Khan, Rene Lacroix, Parvin Mahmoudveysi, Hrach Martirosyan, Ludwig Paul, Stephan Procházka, Laurentia Schreiber, Don Stilo, Mortaza Taheri-Ardali, Christina van der Wal Anonby.

Dreamsnake Vonda N. McIntyre, 2021-10-12 The Hugo and Nebula Award-winning novel from the New York

Times–bestselling author of *The King’s Daughter*. On an Earth scarred by nuclear war, Snake harnesses the power of venom to cure illnesses and vaccinate against disease. The healer can even ease patients into death with the power of her dreamsnake. But she is not respected and trusted by all, and when she tries to help a sick nomad child, the frightened clan kills her dreamsnake. Ashamed of being misjudged and grieving the loss of her dreamsnake, Snake has one choice to maintain her livelihood: she must travel to the city, which jealously guards its knowledge. And before she faces the prejudices and arrogance of the people there, Snake must make her way across a barren desert, surviving storms and radiation poisoning, helping those she can—all while a madman stalks her every move . . .

“[Dreamsnake] is filled with scenes as suspenseful as anyone could wish . . . but most of all it addresses the humanity in all of us.” —The Seattle Times “A haunting, rich, and tender novel that explores the human side of science fiction in a manner that’s all too uncommon.” —Robert Silverberg “A splendid tale, combining the sensitivity and attention to mood of the new generation of SF writers with a gripping and well-worked-out adventure . . . The novel is rich in character, background and incident—unusually absorbing and moving.” —Publishers Weekly “Instead of kicking butt, the lead character is dedicated to saving lives. . . . Snake’s blighted world is expertly drawn, and her encounters with dysfunctional societies can be bracing and challenging reading.” —The Guardian “This is an exciting future-dream with real characters, a believable mythos and, what’s more important, an excellent, readable story.” —Frank Herbert, author of the *Dune* series
