Old Taoist Stephen Addiss,J. Thomas Rimer,2000 In the literary and artistic milieu of early modern Japan the Chinese and Japanese arts flourished side by side. Kodojin, the Old Taoist (1865-1944), was the last of these great poet-painters in Japan. Portraying this last representative of a tradition of gentle and refined artistry in the midst of a society that valued economic growth and national achievement, this beautifully illustrated book includes a wide selection of his finest poems, paintings, and calligraphy.

The Philosophy of Life Guying Chen,2016-01-12 Chen Guying, one of the leading scholars on Daoism in contemporary China, provides in his book The Philosophy of Life, A New Reading of the Zhuangzi a detailed analysis and a unique interpretation of Zhuangzi’s Inner, Outer and Miscellaneous chapters. Unlike many other Chinese scholars Chen does not focus on a philological, but on a philosophical reading of the Zhuangzi highlighting the main topics of self-cultivation, aesthetics, and epistemology. Chen’s perspectives on the Zhuangzi range from the historical background of the Warring States Period to his own personal (political) experience. Since Chen is also a specialist on Nietzsche, he elaborates Zhuangzi’s philosophy of life and the idea of regulating one’s heart by drawing a parallel to Nietzsche’s perspectivism.

Dao Companion to the Philosophy of the Zhuangzi Kim-chong Chong,2022-09-21 This comprehensive collection brings out the rich and deep philosophical resources of the Zhuangzi. It covers textual, linguistic, hermeneutical, ethical, social/political and philosophical issues, with the latter including epistemological, metaphysical, phenomenological and cross-cultural (Chinese and Western) aspects. The volume starts out with the textual history of the Zhuangzi, and then examines how language is used in the text. It explores this unique characteristic of the Zhuangzi, in terms of its metaphorical forms, its use of humour in deriding and parodying the Confucians, and paradoxically making Confucius the spokesman for Zhuangzi’s own point of view. The volume discusses questions such as: Why does Zhuangzi use language in this way, and how does it work? Why does he not use straightforward propositional language? Why is language said to be inadequate to capture the “dao” and what is the nature of this dao? The volume puts Zhuangzi in the philosophical context of his times, and discusses how he relates to other philosophers such as Laozi, Xunzi, and the Logicians.

Zhuangzi Zhuangzi,2003 Only by understanding Dao (the Way of Nature) and dwelling in its unity can humankind achieve true happiness and freedom, in both life and death. This is the central tenet of the philosophy espoused by Zhuangzi (369?-286? BCE) in the book that bears his name. A leading philosopher of the Daoist strain, Zhuangzi used parable and anecdote, allegory and paradox, to set forth the early ideas of what was to become the Daoist school. Witty and imaginative, enriched by brilliant imagery, and making sportive use of both mythological and historical personages (including even Confucius), this is a timeless classic.

The Complete Works of Zhuangzi ,2013-11-26 Only by inhabiting Dao (the Way of Nature) and dwelling in its unity can humankind achieve true happiness and freedom, in both life and death. This is Daoist philosophy’s central tenet, espoused by the person—or group of people—known as Zhuangzi (369?-286? B.C.E.) in a text by the same name. To be free, individuals must discard rigid distinctions between good and bad, right and wrong, and follow a course of action not motivated by gain or striving. When one ceases to judge events as good or bad, man-made suffering disappears and natural suffering is embraced as part of life. Zhuangzi elucidates this mystical philosophy through humor, parable, and anecdote, deploying non sequitur and even nonsense to illuminate a truth beyond the boundaries of ordinary logic. Boldly imaginative and inventively worded, the Zhuangzi floats free of its historical period and society, addressing the spiritual nourishment of all people across time. One of the most justly celebrated texts of the Chinese tradition, the Zhuangzi is read by thousands of English-language scholars each year, yet only in the Wade-Giles romanization. Burton Watson’s pinyin romanization brings the text in line with how Chinese scholars, and an increasing number of other scholars, read it.
