The Face-to-Face Book Edward B. Keller,Brad Fay,2012-05-22 The world's preeminent word-of-mouth marketing experts demonstrate how in-person social networking, not online marketing, is the secret to soaring revenues.

Face to Face Brian Grazer,2019-09-17 Featured on CBS This Morning, Squawk Box, MSNBC, CNN, Bloomberg, Forbes, Fast Company, The New York Times, and more. “Reading Face to Face is like being a fly on the wall, watching Brian Grazer work his magic. Utterly entertaining, this is how you become Hollywood’s best producer.” —Malcolm Gladwell, author of Talking to Strangers Legendary Hollywood producer and author of the bestselling A Curious Mind, Brian Grazer is back with a captivating new book about the life-changing ways we can connect with one another. Much of Brian Grazer’s success—as a #1 New York Times bestselling author, Academy Award–winning producer, father, and husband—comes from his ability to establish genuine connections with almost anyone. In Face to Face, he takes you around the world and behind the scenes of some of his most iconic movies and television shows, like A Beautiful Mind, Empire, Arrested Development, American Gangster, and 8 Mile, to show just how much in-person encounters have revolutionized his life—and how they have the power to change yours. With his flair for intriguing stories, Grazer reveals what he’s learned through interactions with people like Bill Gates, Taraji P. Henson, George W. Bush, Barack Obama, Eminem, Prince, Spike Lee, and the Afghani rapper activist Sonita: that the secret to a bigger life lies in personal connection. In a world where our attention is too often focused downward at our devices, Grazer argues that we are missing an essential piece of the human experience. Only when we are face to face, able to look one another in the eyes, can we form the kinds of connections that expand our world views, deepen our self-awareness, and ultimately lead to our greatest achievements and most meaningful moments. When we lift our eyes to look at the person in front of us, we open the door to infinite possibility.

The Book of Faces Joseph Campana,2005-11 In Joseph Campana's debut collection, starring Audrey Hepburn, icons of public consumption speak in the language of private devotion. Encourage emulation. Inspire idolatry. Be a muse, be a nymph, be a sprite, bewitch me. Rise from obscurity. Set trends. Break habits. Make statements. Count blessings. Distribute kindnesses. Arouse devotion. Devote yourself to nobility. Ascend, ascend, ascend. - from How to Be a Star

Asian Face Reading Boye Lafayette De Mente,2011-12-20 Imagine how much you could learn if you knew how to evaluate a person's character, health, fortune, social status, sexual charisma, and life expectancy from a careful reading of his or her face. Face reading, a practice as old as man, is a universal art that we all use every day—with varying degrees of skill. We all know and respond to facial expressions that indicate fear, anger, merriment, and other moods, and we know from experience that facial characteristics, such as unusually large eyes or big noses, have an important influence on our lives. In China and Japan, face reading is a respectable analytical tool used to make business decisions, arrange marriages, and evaluate partnerships and friendships. Asian Face Reading offers a quick, practical, easy-to-understand and easy-to-apply introduction to the basic principles of face reading. The book is fully illustrated with dozens of examples readers can use to learn this increasingly popular practice—and to analyze their friends, colleagues, and loved ones.

Read the Face Eric Standop,Elisa Petrini,2019-10-01 Relearn the intuitive language of face reading From birth, face is our first language. We are born face readers—knowing to seek out human features and faces from the moment our eyes open. We all have the intuitive ability to read and interpret the feelings and expressions of those around us. In Read the Face, master face reader Eric Standop unlocks the power of this innate human ability, sharing his own journey to become a face reading master, along with stories that illustrate the power of this unique language. Using a combination of three different schools of face reading, along with a scientific accuracy to detect the most fleeting microexpressions, Standop is able to read personality, character, emotions, and even the state of a person’s health—all from simply glancing at their face. The book is divided into sections focusing on specific ways that face reading can offer insight, such as Health, Love, Communication, Work and Success. The stories are accompanied by detailed black and white illustrations of faces, allowing readers to observe the same features that Standop interpreted. The final section of the book outlines the meanings of dozens of facial features and face shapes, so that readers can recognize their own innate intuitive powers and develop them. Read the Face is a guide to using the ancient art and science of face reading to go beyond the surface and create the boldest life possible.

What's That Look on Your Face? Catherine S. Snodgrass, 2008 Imagine spending a year in middle school without being able to talk with friends or understand the Recognizing and interpreting facial expressions and the feelings they represent poses great challenges for children with language and communication difficulties, including those with an autism spectrum disorder. This strikingly illustrated book helps young readers link faces to feelings by presenting situations they can all relate to. Each page spread is devoted to a feeling expressed through an exaggerated facial expression accompanied by a short poem that further elaborates on the expression to reinforce its meaning. The Foreword by Diane Twatchman-Cullen includes activities designed to help children develop the skills necessary to recognize common facial expressions using the accompanying poster-size chart of the twelve basic feelings covered.

Make a Face Ricardo Alegria, 2017-10-10 Make a Face is an interactive, concept driven-picture book that shows how different facial expressions connect with different emotions by pairing them with corresponding animals who come to life as children make different faces on cue. Can you make a face as happy as a dancing hippo or as silly as a gaping fish? In this riotous, joyful, interactive picture book, emotions and moods are paired with corresponding animals that come to life as the young reader performs prompts given by the narrator. Making a playful face sends dolphins leaping from the water, and a frightening face reveals a great big elephant that's terrified of a little mouse. While learning how different facial expressions connect with different feelings and concepts, young readers will be enchanted by how their participation creates magic at the turn of every page. Stretch those faces, and prepare to use your imagination, because some of them will be challenging, as will getting through the book without dissolving into giggles.

Find a Face Francois Robert, Jean Robert, Jane Gittings, 2004-09-22 Presents, with accompanying rhyming text, photographs of everyday objects depicting faces.

In Your Face David Perrett, 2017-09-16 In our daily lives, in our memories and fantasies, our mental worlds overflow with faces. But what do we really know about this most remarkable feature of the human body? Why do we have faces at all, and brains that are good at reading them? What do our looks say – and not say – about our personalities? And perhaps the most compelling question of all: Why are we attracted to some faces more than others? In Your Face is an engaging and authoritative tour of the science of facial beauty and face perception. David Perrett, the pre-eminent scholar in the field, reveals and interprets the most remarkable findings and in the process demolishes many popular myths, setting the record straight on what neuroscience and evolutionary psychology are teaching us about beauty. The record is more surprising and often more unsettling than you might think.

Face to Face Robert Grant, 1901

The Face Dean Koontz, 2003 The Face is Hollywood's most dazzling star. His flawless countenance inspires the worship of millions, and fires the hatred of one twisted soul. In the days before Christmas, this warped and dangerous star-hater has sent the Face six sinister messages. It is up to Ethan Truman to unmask the culprit.

Face Value Alexander Todorov, 2017-05-30 The scientific story of first impressions—and why the snap character judgments we make from faces are irresistible but usually incorrect We make up our minds about others after seeing their faces for a fraction of a second—and these snap judgments predict all kinds of important decisions. For example, politicians who simply look more competent are more likely to win elections. Yet the character judgments we make from faces are as inaccurate as they are irresistible; in most situations, we would guess more accurately if we ignored faces. So why do we put so much stock in these widely shared impressions? What is their purpose if they are completely unreliable? In this book, Alexander Todorov, one of the world's leading researchers on the subject, answers these questions as he tells the story of the modern science of first impressions. Drawing on psychology, cognitive science, neuroscience, computer science, and other fields, this accessible and richly illustrated book describes cutting-edge research and puts it in the context of the history of efforts to read personality from faces. Todorov describes how we have evolved the ability to read basic social signals and momentary emotional states from faces, using a network of brain regions dedicated to the processing of faces. Yet contrary to the nineteenth-century pseudoscience of physiognomy and even some of today's psychologists, faces don't provide us a map to the personalities of others. Rather, the impressions we draw from faces reveal a map of our own biases and stereotypes. A fascinating scientific account of first impressions, Face Value explains why we pay so much attention to faces, why they lead us astray, and what our judgments actually tell us.

Face Cecile Pineda, 1985 Amid the extreme poverty of Rio de Janeiro's Whale Back slum, Helio Cara has a terrible accident which leaves his face scarred beyond recognition. Lacking a face, he lacks identity. Based on a real incident, Cecile Pineda's stunning novel observes Cara as he struggles with a cruelly insensitive medical system until he decides to surgically create a new face himself -- and a new identity. Book jacket.

Face Perception Vicki Bruce, Andrew W. Young, 2012 Human faces are unique biological structures which convey a complex variety of important social messages. Even strangers can tell things from our faces. Written in a clear and accessible style, this book will be of interest to all students studying face perception and social cognition.

Seek My Face John Updike,2003-11-04 John Updike’s twentieth novel, like his first, The Poorhouse Fair, takes place in one day, a day that contains much conversation and some rain. The seventy-nine-year-old painter Hope Chafetz, who in the course of her eventful life has been Hope Ouderkirk, Hope McCoy, and Hope Holloway, answers questions put to her by a New York interviewer named Kathryn, and recapitulates, through stories from her career and many marriages, the triumphant, poignant saga of postwar American art. In the evolving relation between the two women, interviewer and subject move in and out of the roles of daughter and mother, therapist and patient, predator and prey, supplicant and idol. The scene is central Vermont; the time, the early spring of 2001.
