Face Reading Plain & Simple Jonathan Dee, 2018-08-01 The face is the first thing we focus on when meeting any new person—we automatically assess a person's mood, feelings, and intentions by what we “read” on that person's face. We consider some people to have “kind” eyes or a grumpy look. This book will introduce you to the ancient Chinese art of face reading so that you can gain insight into the personalities of your loved ones and those you meet. Discover aspects of personality you never knew existed! Chinese face reading demonstrates that faces are open books, and their individual features provide the keys to interpreting their message. The author explores the significance of: Twenty-three basic eye shapes Twenty-three eyebrow conformations Thirteen ear types Thirteen basic nose profiles Nine mouth types Along the way the author discusses the subtle distinctions within the cheekbones, the lips, the forehead, and facial creases.

Practical Face Reading and Palmistry 朱 朱 朱 Peter So, 2012-07-01 This is how a Chinese proverb goes, “It takes a long way to tell how strong a horse is; it takes a long time to know a person well.” Yet, the Chinese also developed a set of rules to know a person simply by observation – read first his face and palm, then his gesture and demeanour for his intelligence and his luck. If you're interested in knowing a person by just looking, this book is an indispensable read: - Is she/he the perfect wife or husband? Is he pretending to be rich, but is actually a less-privileged working class? Is he a sex fiend or a shameless con man? They are giving it away on their face and with their gestures. -What is your boss thinking? How do you tell if a subordinate is loyal? Which of the workers is the most competent? Simply take a look and you'd know. -Read both the face and the palm to tell his/her love luck and if his/her marriage is good or bad. -A mole, a zit, the voice, the hair and the way a person walks are all essential clues to tell his/her luck. -This book comes with remedies to dissipate your bad luck and boost your good luck. Dye your hair. Grow a beard. Or even wear a pair of spectacles for better luck. This book is great fun to read, encompassing a broad base of knowledge in face and palm reading. It also puts theories in contexts, so that you'd get to know those around you in everyday situations. This book lets you take a peep at a person's heart by reading his/her tiniest feature or trait. Not to be missed.
