More Than Just a Pretty Face Syed Masood, 2020-08-04 'A deliciously entertaining rom-com.' - Nandini Bajpai, author of *A Match Made in Mehendi* Danyal Jilani doesn't lack confidence. He may not be the smartest guy in the room, but he's funny, gorgeous, and going to make a great chef one day. His father doesn't approve of his career choice, but that hardly matters. What does matter is the opinion of Danyal's longtime crush, the perfect-in-all-ways Kaval, and her family, who consider him a less than ideal arranged marriage prospect. When Danyal gets selected for Renaissance Man, a school-wide academic championship, it's the perfect opportunity to show everyone he's smarter than they think. He recruits the brilliant, totally-uninterested-in-him Bisma to help with the competition, but the more time Danyal spends with her . . . the more he learns from her...the more he cooks for her . . . the more he realizes that happiness may be staring him right in his pretty face. In this young adult debut full of depth and heart, author Syed M. Masood will have readers laughing, sighing, tearing up, and shouting 'YES!' at the top of their lungs. Perfect for fans of Sandhya Menon and Jenny Han. Praise for MORE THAN JUST A PRETTY FACE 'A laugh-out-loud yet heartwarming story about familial obligations, friendship, and love. Syed M. Masood has created an unforgettable cast of characters with the utterly charming, hilarious, and most endearing Danyal Jilani at the center of it. A thoroughly enjoyable read and a great addition to any bookshelf.' - Sabina Khan, author of *The Love and Lies of Rukhsana Ali* 'Funny, open-hearted, and utterly charming, More Than Just a Pretty Face perfectly captures the joys of friendship and first love, as well as all the complexities of identity, faith, and family. This is a spectacular debut.' - Katie Henry, author of *Heretics Anonymous* 'Hilarious and teeming with heart, More Than Just a Pretty Face challenged me, wounded me, made me laugh, and made me love. Danyal has secured his place as a heroic protagonist for the ages who only wants the very best for those he loves. His friends and family are so lucky to have him, and readers will be lucky to have Syed M. Masood's debut. I am a forever fan.' Erin Hahn, author of *You'd Be Mine*

Temptations Men Face Tom L. Eisenman, 1991-11-27 In this personal and practical book, Tom L. Eisenman discusses the temptations men face (being macho, having an affair, misusing power, loving money, trying to be perfect) and shows how they can be resisted.

Brave Talk Melody Stanford Martin, 2020-09-22 When we disagree about fundamental issues, especially issues such as politics or religion, it can be incredibly difficult to maintain close interpersonal relationships. These differences have ended friendships and caused rifts in families. We need a tool to help us build more resilient relationships despite real and present differences. In *Brave Talk*, communications expert Melody Stanford Martin offers just such a tool: *impasse*. By learning to treat every conflict as if it's an *impasse* and temporarily suspend our desire to resolve differences, we make space for deeper understanding and stronger ties. *Brave Talk* offers hands-on skill-building in critical thinking, power sharing, and rhetoric. Combining real-life storytelling, engaging illustrations, and rigorous academic sources, this book blends humor, creativity, and interactive learning to help everyday people develop better skills for navigating conflict in order to build stronger relationships and healthier communities.

Ugly Robert Hoge, 2015-08-11 A beautiful story about one very ugly kid. Robert Hoge was born with a tumour in the middle of his face, and legs that weren't much use. There wasn't another baby like him in the whole of Australia, let alone Brisbane. But the rest of his life wasn't so unusual: he had a mum and a dad, brothers and sisters, friends at school and in his street. He had childhood scrapes and days at the beach; fights with his family and trouble with his teachers. He had doctors, too: lots of doctors who, when he was still very young, removed that tumour from his face and operated on his legs, then stitched him back together. He still looked different, though. He still looked ... ugly. *UGLY* is the true story of how an extraordinary boy grew up to have an ordinary life, and how that became his greatest achievement of all.

Stop Talking and Listen to Yourself! Dalton A. Kehoe, 2021-06-08 This book clarifies how automatic most of our talk is. Using a simple version of our mental processes I show how we easily get along with others but also how things fall apart when we're threatened. Mostly, we don't think before we talk. Our talk flows naturally from our adaptive unconscious as it responds to whatever situation we are in. It drives our talk. To illustrate its power I represent it using the metaphor of the 5-ton working Elephant. Its 110 pound Rider represents our conscious mind. I also summarize all of our talk into three basic forms: CONNECT, CONTROL and DIALOGUE talk. The first two forms demonstrate how we talk to draw people closer to us or dominate them using our adaptive unconscious minds. The third form, shows the reader how to "wake up" their conscious mind in difficult situations and speak in order to repair communication disasters.

Face-off! L. E. Blair, 1990 Katie decides to quit the flag squad and try out for the boys' ice hockey team and every one seems to disapprove, even Scottie, the gorgeous captain of the hockey team.

Reclaiming Conversation Sherry Turkle, 2016-10-04 "In a time in which the ways we communicate and connect are constantly changing, and not always for the better, Sherry Turkle provides a much needed voice of caution and reason to help explain what the f*** is going on." —Aziz Ansari, author of *Modern Romance* Renowned media scholar Sherry Turkle investigates how a flight from conversation undermines our relationships, creativity, and productivity—and why reclaiming face-to-face conversation can help us regain lost ground. We live in a technological universe in which we are always communicating. And yet we have sacrificed conversation for mere connection. Preeminent author and researcher Sherry Turkle has been studying digital culture for over thirty years. Long an enthusiast for its possibilities, here she investigates a troubling consequence: at work, at home, in politics, and in love, we find ways around conversation, tempted by the possibilities of a text or an email in which we don't have to look, listen, or reveal ourselves. We develop a taste for what mere connection offers. The dinner table falls silent as children compete with phones for their parents' attention. Friends learn strategies to keep conversations going when only a few people are looking up from their phones. At work, we retreat to our screens although it is conversation at the water cooler that increases not only productivity but commitment to work. Online, we only want to share opinions that our followers will agree with — a politics that shies away from the real conflicts and solutions of the public square. The case for conversation begins with the necessary conversations of solitude and self-reflection. They are endangered: these days, always connected, we see loneliness as a problem that technology should solve. Afraid of being alone, we rely on other people to give us a sense of ourselves, and our capacity for empathy and relationship suffers. We see the costs of the flight from conversation everywhere: conversation is the cornerstone for democracy and in business it is good for the bottom

line. In the private sphere, it builds empathy, friendship, love, learning, and productivity. But there is good news: we are resilient. Conversation cures. Based on five years of research and interviews in homes, schools, and the workplace, Turkle argues that we have come to a better understanding of where our technology can and cannot take us and that the time is right to reclaim conversation. The most human—and humanizing—thing that we do. The virtues of person-to-person conversation are timeless, and our most basic technology, talk, responds to our modern challenges. We have everything we need to start, we have each other. Turkle's latest book, *The Empathy Diaries* (3/2/21) is available now.

Face Value Alexander Todorov, 2017-05-30 The scientific story of first impressions—and why the snap character judgments we make from faces are irresistible but usually incorrect We make up our minds about others after seeing their faces for a fraction of a second—and these snap judgments predict all kinds of important decisions. For example, politicians who simply look more competent are more likely to win elections. Yet the character judgments we make from faces are as inaccurate as they are irresistible; in most situations, we would guess more accurately if we ignored faces. So why do we put so much stock in these widely shared impressions? What is their purpose if they are completely unreliable? In this book, Alexander Todorov, one of the world's leading researchers on the subject, answers these questions as he tells the story of the modern science of first impressions. Drawing on psychology, cognitive science, neuroscience, computer science, and other fields, this accessible and richly illustrated book describes cutting-edge research and puts it in the context of the history of efforts to read personality from faces. Todorov describes how we have evolved the ability to read basic social signals and momentary emotional states from faces, using a network of brain regions dedicated to the processing of faces. Yet contrary to the nineteenth-century pseudoscience of physiognomy and even some of today's psychologists, faces don't provide us a map to the personalities of others. Rather, the impressions we draw from faces reveal a map of our own biases and stereotypes. A fascinating scientific account of first impressions, *Face Value* explains why we pay so much attention to faces, why they lead us astray, and what our judgments actually tell us.

Face and Face Practices in Chinese Talk-in-interaction Wei-Lin Melody Chang, 2015 The main purpose of this book is to address the knowledge-gap in the field by focusing on the importance of emic conceptualizations (face1) in theorizing face, since existing research on face to date has tended to rely on the etic perspective (face2) in theorizing and conceptualizing face. However, in applying an interactional pragmatics approach instead of simply describing Chinese in a normative, and thus potentially stereotypical manner, through drawing only on folk notions and discourse, this book contributes to face research and pragmatics research in general. It builds on an analysis of original face-to-face interactional data and employs a combination of methodological approaches to analyze face in business setting. Moreover, this work is the very first study to examine face and face practices in Chinese employing Face Constituting Theory (FCT) as the theoretical framework. In doing so it provides empirical support for the importance of examining the cognitive and the interactional aspects of face practices, as well as providing insightful perspectives on the complex interactional moves that participants employ in managing their interpersonal relationships in the process of attaining significant interactional goals in business interactions and mediations. In this way, the book addresses key current debates regarding how face should be conceptualized and theorized. It also demystifies Chinese communication through the detailed analysis undertaken, and thereby illuminates some unidentified face practices, both culture-general and cultural-specific.
