Studies in the Organization of Conversational Interaction Jim Schenkein, 2014-05-10 Studies in the Organization of Conversational Interaction examines the different features of conversational interaction,

which reflect a vigorous research paradigm for the study of natural conversations. This book discusses the naturally occurring interactions that have been recorded and transcribed. Organized into 10 chapters, this book begins with an overview of the turn-taking system for conversation and explains that the organization of taking turns at talk is one type of organization operative in conversation. This text then discusses encounters with strangers that only conduct their business under the auspices of their official identity relations. Other chapters consider the production of compliment responses, which are sensitive to the cooperation of multiple constraint systems. This book discusses as well the conversational activity of telling stories and listening to stories. The final chapter deals with an analysis of a dirty joke. This book is a valuable resource for sociologists, conversationalists, linguists, grammarians, and anthropologists.

Douglas MacArthur Arthur Herman, 2016-06-14 A new, definitive life of an American icon, the visionary general who led American forces through three wars and foresaw his nation's great geopolitical shift toward the Pacific Rim—from the Pulitzer Prize finalist and bestselling author of *Gandhi & Churchill* Douglas MacArthur was arguably the last American public figure to be worshipped unreservedly as a national hero, the last military figure to conjure up the romantic stirrings once evoked by George Armstrong Custer and Robert E. Lee. But he was also one of America's most divisive figures, a man whose entire career was steeped in controversy. Was he an avatar or an anachronism, a brilliant strategist or a vainglorious mountebank? Drawing on a wealth of new sources, Arthur Herman delivers a powerhouse biography that peels back the layers of myth—both good and bad—and exposes the marrow of the man beneath. MacArthur's life spans the emergence of the United States Army as a global fighting force. Its history is to a great degree his story. The son of a Civil War hero, he led American troops in three monumental conflicts—World War I, World War II, and the Korean War. Born four years after Little Bighorn, he died just as American forces began deploying in Vietnam. Herman's magisterial book spans the full arc of MacArthur's journey, from his elevation to major general at thirty-eight through his tenure as superintendent of West Point, field marshal of the Philippines, supreme ruler

of postwar Japan, and beyond. More than any previous biographer, Herman shows how MacArthur's strategic vision helped shape several decades of U.S. foreign policy. Alone among his peers, he foresaw the shift away from Europe, becoming the prophet of America's destiny in the Pacific Rim. Here, too, is a vivid portrait of a man whose grandiose vision of his own destiny won him enemies as well as acolytes. MacArthur was one of the first military heroes to cultivate his own public persona—the swashbuckling commander outfitted with Ray-Ban sunglasses, riding crop, and corncob pipe. Repeatedly spared from being killed in battle—his soldiers nicknamed him “Bullet Proof”—he had a strong sense of divine mission. “Mac” was a man possessed, in the words of one of his contemporaries, of a “supreme and almost mystical faith that he could not fail.” Yet when he did, it was on an epic scale. His willingness to defy both civilian and military authority was, Herman shows, a lifelong trait—and it would become his undoing. Tellingly, MacArthur once observed, “Sometimes it is the order one disobeys that makes one famous.” To capture the life of such an outsize figure in one volume is no small achievement. With Douglas MacArthur, Arthur Herman has set a new standard for untangling the legacy of this American legend. Praise for Douglas MacArthur “This is revisionist history at its best and, hopefully, will reopen a debate about the judgment of history and MacArthur's place in history.”—New York Journal of Books “Unfailingly evocative . . . close to an epic . . . More than a biography, it is a tale of a time in the past almost impossible to

contemplate today as having taken place, with MacArthur himself as a figure perhaps too remote to understand, but all the more important to encounter.”—The New Criterion “With Douglas MacArthur: American Warrior, the prolific and talented historian Arthur Herman has delivered an expertly rendered, compulsively readable account that does full justice to MacArthur’s monumental achievements without slighting his equally monumental flaws.”—Commentary

Fighting the Cold War John R. Galvin, 2015-04-28 When four-star general John Rogers Galvin retired from the US Army after forty-four years of distinguished service in 1992, the Washington Post hailed him as a man without peer among living generals. In *Fighting the Cold War: A Soldier's Memoir*, the celebrated soldier, scholar, and statesman recounts his active participation in more than sixty years of international history -- from the onset of World War II through the fall of the Berlin Wall and the post--Cold War era. Galvin's illustrious tenure included the rare opportunity to lead two different Department of Defense unified commands: United States Southern Command in Panama from 1985 to 1987 and United States European Command from 1987 to 1992. In his memoir, he recounts fascinating behind-the-scenes anecdotes about his interactions with world leaders, describing encounters such as his experience of watching President José Napoleón Duarte argue eloquently against US intervention in El Salvador; a private conversation with Pope John Paul II in which the pontiff spoke to him about what it means

to be a man of peace; and his discussion with General William Westmoreland about soldiers' conduct in the jungles of Vietnam and Cambodia. In addition, Galvin recalls his complex negotiations with a number of often difficult foreign heads of state, including Manuel Noriega, Augusto Pinochet, Mikhail Gorbachev, and Ratko Mladić. As NATO Supreme Allied Commander in Europe during the tumultuous five years that ended the Cold War, Galvin played a key role in shaping a new era. Fighting the Cold War illuminates his leadership and service as one of America's premier soldier-statesmen, revealing him to be not only a brilliant strategist and consummate diplomat but also a gifted historian and writer who taught and mentored generations of students.

Emotion in the Human Face Joseph C. Hager, Harriet Oster, 2013 The original edition of *Emotion in the Human Face*, published in 1972, was the first volume to evaluate and integrate all the research on facial expression of emotion since Darwin's *The Expression of Emotions in Man and Animals* was published in 1872. It presented a detailed, critical discussion of research involving the face and emotion, focusing on the complex conceptual and methodological issues involved, and settling many past controversies, such as whether the face provides accurate information about emotion, and whether some facial expressions are universal. This special Malor Books edition includes a new Preface, three additional chapters, and a new conclusion summarizing Ekman's final views on the field that he has played such a large part in creating. Contributors to this work include: Paul Ekman, Phoebe Ellsworth, Wallace V.

Friesen, Joseph C. Hager, Harriet Oster, Maureen O'Sullivan, William K. Redican and Silvan S. Tomkins.

Love/Sick John Cariani, 2017-03-16 A darker cousin to *Almost, Maine*, John Cariani's *LOVE/SICK* is a collection of nine slightly twisted and completely hilarious short plays. Set on a Friday night in an alternate suburban reality, this 80-minute romp explores the pain and the joy that comes with being in love. Full of imperfect lovers and dreamers, *LOVE/SICK* is an unromantic comedy for the romantic in everyone.

The Complete Book of Combat Systema Kevin Secours, 2016-02-01 In 1998 while changing after a kali training session, a friend approached Kevin Secours with a videocassette and asked, You ever seen the Russian martial arts? Looking at the Cyrillic label on the video, Secours asked, Any good? It's interesting, the friend replied. Weird as hell but interesting. Little did Secours know that tape would be his introduction to a 16-year (and counting) journey into the unorthodox world of the Russian martial arts, including years of high-level training under top Russian masters. On the video Secours saw mobility exercises unlike anything he had ever experienced. As he was to learn, the uniqueness of the Russian martial arts stemmed from the uniqueness of the country itself. The Cold War in the 1950s, during which the superpowers battled for supremacy, was the final forge that refined the Russian martial arts into what they are today. In anticipation of global warfare, the Soviet government commissioned combat researchers to travel

throughout the world to study different approaches. They tested these methods and integrated the best concepts with their own native traditions. This period of development led to the creation of distinct Soviet martial arts, including Sport Sambo, Combat Sambo, and Samoz, which was later modified and became known simply as Systema (literally the System). Approaching Systema from a decidedly Western perspective, Secours pressure-tested the strengths and benefits of every concept and technique, and ultimately took only what served him. He built his Combat Systema curriculum on a scientific approach to bio-mechanics, breath training, and combat psychology. In The Complete Book of Combat Systema, he keeps things practical, provable, and profitable for you to incorporate what works into your self-defense training.

Making Decisions Under Stress Janis A. Cannon-Bowers, Eduardo Salas, 1998 Ten

years ago, a fateful intersection of technology risk, and split second decisions claimed 290 lives when the USS VICENNES mistakenly shot down a commercial airliner over the Persian Gulf. In the aftermath of this tragedy, a revolutionary applied research programme known as TADMUS (Tactical Decision Making Under Stress) was launched. The TADMUS programme was devoted to developing and improving training and decision support technology in the US Navy. This volume documents the lessons learned from TADMUS - a programme of research driven by a common operational problem, based on a common theoretical framework, and employing a common methodology and task. The military has long been in the vanguard of using human factors research to increase the efficiency and reduce the danger of critical tasks. The abundant technical and operational accomplishments described here should be valuable to all front-line personnel in high-risk environments.

The Chip Woman's Fortune Willis Richardson, 2019-02-03 In 1922, Willis Richardson wrote *The Chip Woman's Fortune*. On January 29, 1923, the play was performed by the Ethiopian Art Players in Chicago. In April 1923, the play moved to New York. On May 7, 1923, *The Chip Woman's Fortune* had a short run at the Lafayette Theatre in Harlem. Eight days later, it became the first play by an African American to reach Broadway. The chip woman, in *The Chip Woman's Fortune*, is named Aunt Nancy. She contributes to the household where she resides by picking up chips of wood and lumps of coal from the streets. We find her living with Silas and caring for his ill wife, Liza, whom we learn is making a steady recovery under Aunt Nancy's care. Silas learns that the family's greatest treasure, a Victrola record player, is about to be repossessed because of financial strain that has left him unable to make payments on the outstanding debt owed on the machine. After learning that, Aunt Nancy has managed to save some money from street donations she receives,

Silas decides that it is time for her to contribute more than the nursing care provided to his wife, and the wood chips and coal lumps she collects for use by the family.
