Our Own Fair Italy Kathryn Walchester, 2007 This study proposes that in their writing about the region, women travel writers made a significant contribution to the changing representation of Italy and to their own changing reputation as professional writers. Between 1800 and 1844 there was a significant shift in the way in which Italy was both perceived and discussed as the tradition of the 'Grand Tour' waned and new types of travellers made trips to Europe. Encouraged by changes in the cost, ease and motivations for travel, unprecedented numbers of women travelled to Italy and published their accounts. Focussing on the pivotal works of five women writers - Mariana Starke, Mary Shelley, Charlotte Eaton, Anna Jameson and Lady Morgan - this book assesses the developments made by these women to a number of genres of travel writing and to the political and aesthetic representation of Italy.

World's Fairs Italian-Style Cristina Della Coletta, 2006-12-15 According to conventional wisdom, Italy was not an influential participant in the nationalistic and imperialistic discourses that world's fairs produced in countries such as Great Britain, France, and the United States. In the late nineteenth and early twentieth centuries, however, Italy hosted numerous national and international exhibitions expounding notions of national identity, imperial expansion, technological progress, and capitalist growth. *World's Fairs Italian-Style* explores world's fairs in Italy at the turn of the twentieth century in comparison to their more famous counterparts in France, England, and the United States. Cristina Della Coletta demonstrates that, because of its social fragmentation and hybrid history, Italy was a site of both hegemony and subordination – an aspiring imperial power whose colonization started from within. She focuses on two best-selling authors, Emilio Salgari and Guido Gozzano, and illustrates how these authors interpreted their age's 'exposition mentality.' Salgari and Gozzano's exposition narratives, Della Coletta argues, reveal Italy's uncertainties about own sense of national identity, and its belated commitment to Western imperialism. Of interest to students and scholars of literature, cultural history, and Italian, *World's Fairs Italian-Style* provides a fascinating glimpse into a hitherto unexplored area of study, and brings to light a cultural phenomenon that played a significant role in shaping Italy's national identity.

Cold War American Exhibitions of Italian Art and Design Antje Gamble, 2023-07-13 Enriching the existing scholarship on this important exhibition, *Italy at Work: Her Renaissance in Design Today (1950–53)*, this book shows the dynamic role art, specifically sculpture, played in constructing both Italian and American culture after World War II (WWII). Moving beyond previous studies, this book looks to the archival sources and beyond the history of design for a greater understanding of the stakes of the show. First, the book considers art's role in this exhibition's import—prominent mid-century sculptors like Giacomo Manzù, Fausto Melotti, and Lucio Fontana were included. Second, it foregrounds the particular role sculpture was able to play in transcending the boundaries of fine art and craft to showcase innovative formalist aesthetics of modernism without falling in the critiques of modernism playing out on the international stage in terms of state funding for art. Third, the book engages with the larger socio-political use of art as a cultural soft power both within the American and Italian contexts. Fourth, it highlights the important role race and culture of Italians and Italian-Americans played in the installation and success of this exhibition. Lastly, therefore, this study connects an investigation of modernist sculpture, modern

design, post-war exhibitions, sociology, and transatlantic politics and economics to highlight the important role sculpture played in post-war Italian and American cultural production. The book will be of interest to scholars working in art history, design history, museum studies, Italian studies, and American studies.

Italy: the New Domestic Landscape Museum of
Modern Art (New York, N.Y.),1972 During the last
decade, the emergence of Italy as the dominant
force in design has had a profound influence in
Europe and the Americas. The phenomenon is
important not only because of the high quality and
diversity of the forms produced, but also because
it has generated a lively debate on the
sociocultural implications of product design,
raising questions of vital concern to designers

throughout the world. For many designers, the aesthetic quality of individual objects intended for private consumption have become irrelevant in the face of such pressing problems as poverty, urban decay, and the pollution of the environment now encountered in all industrialized countries. Consequently, they are increasingly shifting the focus of their attention from the well-designed object to man's total environment, seeing the designer's function as one that can mold patterns of behavior by creating new settings for freer, more adaptable lifestyles. Some, however, despairing of effecting social change through design, regard their task as essentially a political one. They therefore abstain from the physical designing of either objects or environments and channel their energies into the staging of events and the issuing of polemical statements. Their approach thus parallels that of many artists in other mediums who view their art in primarily conceptual terms. This publication, issued in conjunction with a major exhibition at The Museum of Modern Art, is the first to deal comprehensively with these challenging developments. Over 150 objects of Italian design of the past ten years have been selected for the show and are all reproduced in color and black-and-white, as are the dozen environments by well-known Italian designers specially commissioned for the occasion, and the two awarded prizes in a concurrent competition for young designers under thirty-five sponsored by the Museum. Each environment is accompanied by a statement in which the individual or group responsible for the

project clarifies his position regarding the present and future role of design. In addition to essays by Emilio Ambasz, Curator of Design at the Museum of Modern Art and director of the exhibition, the book contains contributions by a number of outstanding Italian critics and art historians. Together, these comprise the first historical survey of contemporary Italian design and a critical analysis of its intellectual and formal positions within the context of international design today. -- Publisher's description
