Jamie A. Swenson

Fall Ball Peter McCarty, 2013-09-03 Young Bobby, his friends and his dog Sparky enjoy a game of football played in the flying leaves, swirling colors and crisp air before an early sunset and a surprise snowfall prompt Bobby's family to snuggle on the couch together to watch a game on television. By the author of *Jeremy Draws a Monster*.

Drop the Ball Tiffany Dufu, 2017-02-14 A bold and inspiring memoir and manifesto from a renowned voice in the women's leadership movement who shows women how to cultivate the single skill they really need in order to thrive: the ability to let go. Once the poster girl for doing it all, after she had her first child, Tiffany Dufu struggled to accomplish everything she thought she needed to in order to succeed. Like so many driven and talented women who have been brought up to believe that to have it all, they must do it all, Dufu began to feel that achieving her career and personal goals was an impossibility. Eventually, she discovered the solution: letting go. In *Drop the Ball*, Dufu recounts how she learned to reevaluate expectations, shrink her to-do list, and meaningfully engage the assistance of others—freeing the space she needed to flourish at work and to develop deeper, more meaningful relationships at home. Even though women are half the workforce, they still represent only eighteen per cent of the highest level leaders. The reasons are obvious: just as women reach middle management they are also starting families. Mounting responsibilities at work and home leave them with no bandwidth to do what will most lead to their success. Offering new perspective on why the women's leadership movement has stalled, and packed with actionable advice, Tiffany Dufu's *Drop the Ball* urges women to embrace imperfection, to expect less of themselves and more from others—only then can they focus on what they truly care about, devote the necessary energy to achieving their real goals, and create the type of rich, rewarding life we all desire.

When the Balls Drop Brad Garrett,2015-05-05 An honest look at life's second half from Everybody Loves Raymond TV sitcom star and comic Brad Garrett--

**When All Balls Drop** Heidi Siefkas,2014-09-15 Heidi Siefkas was a happily married, globetrotting professional who seemingly had it all -- until a tree limb in New York's Hudson River Valley struck her down, breaking her neck and leaving her unconscious. Suddenly, life as she knew it stopped. She lost her independence. She lost her career. She watched her marriage disintegrate as she confronted a trail of devastating lies about her husband's double life. She had lost all that mattered, but she was a survivor. She fought to restore her health, repair her broken heart, and rebuild herself. Along the way, she gained clarity about her core values, ultimately coming to a deeper understanding of what it means to have it all. Through down-to-earth, short vignettes, *When All Balls Drop* shows us how it's possible to look up in spite of pain, deceit, and loss. Heidi's memoir -- rich with hope and humor -- inspires anyone who's had to confront tragedy and reassess their life in the wake of life-altering events.

The Genesis of Technoscientific Revolutions Venkatesh Narayanamurti,Jeffrey Y. Tsao,2021-11-16 Research powers innovation and technoscientific advance, but it is due for a rethink, one consistent with its deeply holistic nature, requiring deeply human nurturing. Research is a deeply human endeavor that must be nurtured to achieve its full potential. As with tending a garden, care must be taken to organize, plant, feed, and weed. And the manner in which this nurturing is done must be consistent with the nature of what is being nurtured. In *The Genesis of Technoscientific Revolutions*, Venkatesh Narayanamurti and Jeffrey Tsao propose a new and holistic system, a rethinking of the nature and nurturing of research. They share lessons from their vast research experience in the physical sciences and engineering, as well as from perspectives drawn from the history and philosophy of science and technology, research policy and management, and the evolutionary biological, complexity, physical, and economic sciences. Narayanamurti and Tsao argue that research is a recursive, reciprocal process at many levels: between science and technology; between questions and answer finding; and between the consolidation and challenging of conventional wisdom. These fundamental aspects of the nature of research should be reflected in how it is nurtured. To that end, Narayanamurti and Tsao propose aligning organization, funding, and governance with research; embracing a culture of holistic technoscientific exploration; and instructing people with care and accountability.

*A Fall Ball for All* Jamie A. Swenson,2018 The autumn wind invites all the creatures of the forest to its Windfall Ball. At the ball, they'll celebrate the end of autumn and the coming of winter with a grand feast. Readers can join all the animals in this beautifully illustrated rhyming picture book. Full color.

Fall Ball Peter McCarty, 2013-09-03 Bobby and his friends wait all day for school to end and for their chance to play outdoors in the fall weather. Flying leaves, swirling colors, and crisp air make the perfect setting for a game of football with Sparky the dog. The kids are surprised by how quickly it gets dark, and even more surprised when it begins to snow. But there's no need to worry—the chilly nights ahead will mean watching football on the couch with family, tucked under a cozy blanket.
