Salt and Light, Volume 1 Carol Lee Hamrin, Stacey Bieler, 2009-01-01 Salt and Light presents the life stories of outstanding Chinese Christians who, as early modernizers, promoted China's nation building and moral progress in the early twentieth century. Lively anecdotes and photographs highlight the strong character of ten pioneers in the modern professions of education, medicine, journalism, and diplomacy. These professionals were motivated by faith to introduce practical social reforms and build up China's civil society. They modeled and promoted virtues essential to social progress during the golden age of Chinese Protestantism. Their stories touch on themes important in today's global era: patterns of cooperation between foreign and Chinese partners, the contributions to China of Western-educated professionals, Christianity's role in furthering East-West understanding and exchanges, and the transnational nature of modern Chinese Christianity. The editors and authors articulate the importance of recovering China's Christian heritage as part of world Christianity.

*Fan Cultures* Matthew Hills, 2003-09-02 Emphasising the contradictions of fandom, Matt Hills outlines how media fans have been conceptualised in cultural theory. Drawing on case studies of specific fan groups, from Elvis impersonators to X-Files and Trekkers, Hills discusses a range of approaches to fandom, from the Frankfurt School to psychoanalytic readings, and asks whether the development of new media creates the possibility of new forms of fandom. *Fan Cultures* also explores the notion of fan cults or followings, considering how media fans perform the distinctions of 'cult' status.

**San Francisco Noir** Fred Lyon, 2017-06-06 This collection by the acclaimed photographer reveals the shadowy side of the City by the Bay. Following in the footsteps of classic films like *The Maltese Falcon* and *The Lady from Shanghai*, veteran photographer Fred Lyon creates images of San Francisco in high contrast with a sense of mystery. In this latest offering from the photographer of *San Francisco: Portrait of a City 1940-1960*, Lyon presents a darker tone, exploring the hidden corners of his native city. Images taken in the foggy night are illuminated only by streetlights, neon signs, apartment windows, and the headlights of classic cars. Sharply dressed couples stroll out for evening shows, drivers travel down steep hills, and sailors work through the night at the old Fisherman's Wharf. In many of the photographs, the noir tone is enhanced by double exposures, elements of collage, and blurred motion. These strikingly evocative duotone images expose a view of San Francisco as only Fred Lyon could capture.

*The Architect and the Academy* Dean Hawkes, 2021-12-30 This book presents an expansive overview of the development of architectural and environmental research, with authoritative essays spanning Dean Hawkes' impressive 50-year academic career. The book considers the relationship between the technologies of the environment and wider historical and theoretical factors, with chapters on topics ranging from the origins of modern 'building science' in Renaissance England to technology and imagination in architecture. It includes numerous architectural examples from renowned architects such as Christopher Wren, Peter Zumthor, Alvar Aalto, Robert Venturi and Carlo Scarpa. Aimed at students, scholars, and researchers in architecture and beyond, this illustrated

volume collates important and wide-ranging essays tracing the definition, scope and methodologies of architectural and environmental studies, with a foreword by Susannah Hagan.

*Wilson's Creek* William Garrett Piston,Richard W. Hatcher, III,2004-08-01 In the summer of 1861, Americans were preoccupied by the question of which states would join the secession movement and which would remain loyal to the Union. **Music Sketches** Friedemann Sallis,2015-01-29 The term 'music sketch' relates to the vast variety of documents that are used by composers to work out a musical technique or idea and to prepare their work for performance or publication. These documents can often provide crucial insights into authorship, biography, editorial practice and musical analysis. This introduction provides students and scholars with the knowledge and skills they need to embark on research projects involving the study of composers' working documents. Presenting examples of the compositional process over a 400-year period, it includes a selection of detailed case studies on how sketches were created and the techniques that were used, such as transcription and the sorting of loose leaves. Numerous illustrations of manuscripts and autographs, many of which have never been published before, show how these vital documents can be used to better understand compositional processes.
