Far Away Places Roberta Baty,2013-11-20 Far Away Places by Roberta Baty There isn't much on this earth that Roberta Baty wants to do that she hasn't done. Her philosophy is seek new horizons and you will discover the world. She is an adventurer, always have been and perhaps always will be. There is so much on this earth to do and yet, after a while it becomes limited. It's not a fancy car, nor clothes, nor shoes; it's the heart that matters. She has traveled the world in an airplane. She's ridden a submarine and dived beneath the sea. She's seen the tallest mountains in the world. She spent a week in the Amazon, in the jungle and on the river. She hasn't been to outer space yet, but she's flown high in a hot air balloon. She cuddled with a koala in Australia and necked with a giraffe in Africa. She rode a camel and walked the Wall in China. She also rode an elephant in India. She went up Mt. Nebo to see the Promised Land. She always wanted to do these things, so she did them. Prior years of her life seem like a wisp of smoke. Mere days. The days whisk by now faster than ever. As you get older, you know what she means. She's had a beautiful life, past and present, but she knows this is just a shadow of what is to come in Heaven. Now she focuses on storing up treasures in the place that is really important. A place where her eighty years here is about sixty minutes there. A place where, even with all her reading, she still knows very little about, except that she is sure she wants to go there. A place where, when people ask her about it, she can only say, Ain't been there, ain't done that yet, but I will. About the Author Roberta M. Baty has a vagabond heart and has discovered a writing talent to share her adventures in over 65 foreign countries. She grew up in Des Moines, Iowa until, at 29 she vacationed in Hawaii. She decided to move there so she could travel easily to Asian countries and the South Pacific. After ten years she returned to the Mainland to finish her career with the Telephone Company. Having worked in Engineering providing circuits for radio and television broadcasts in Iowa, special circuits for NASA space shots and celebrities like Jackie Kennedy and Elvis Presley in Hawaii, then in Missouri, drafting new subdivisions to provide buried telephone service, she retired in 1992. Each year at vacation time she would head out with a friend or co-worker to a new location in a different country to explore their culture, see the scenery, meet new people and enjoy the food. Since retirement she has volunteered for 19 years with Multiple Sclerosis patients in the swimming pool to help them improve their life capabilities. She says it has helped her too, plus she likes to bring them back small souvenirs, since they are unable to travel. Another volunteer project she enjoys is Friends of the Library book sale twice yearly. Her motto is: Seek new horizons and you will discover the World. If you have read her first book, you'll enjoy reading Far Away Places too.

I Will See You in Far Off Places Aine Ni Cheallaigh,2016-06-12 Áine and her wife Nora, self-described introverted bookworms, were happily ensconced in their small-town-with-cat life when everything changed. Faced with the death of Nora's beloved mother and new twists and turns in Áine's unfolding spiritual path, they both wanted more from life. More what? More of their beloved Morrissey. Two (quietly) raving fans with some U.S. shows under their belts hit upon a life-changing idea: follow Morrissey for his South American tour. These non-Spanish-speaking, comfort-seeking, fortysomething non-adventurers joined throngs of screaming twentysomethings in opening up to the mysterious, enthralling embrace of The Real and Proper Poet Laureate.Braving floods and medical emergencies (including one late-night trip to a jungle ER), searching for monkeys, living for days on the sidewalks of far flung cities, Áine and Nora find their place among the motley family that is Morrissey and his fans, woven together through music. In this passionate memoir packed with gorgeous photos, Áine brings to life a journey of two unlikely travelers who find their way to the most beautiful destination of them all: the one big heart.

The World and All the Things upon It David A. Chang,2016-06-01 Winner of the Modern Language Association's Prize for Studies in Native American Literatures, Cultures, and Languages Winner of the American Historical Association's Albert J. Beveridge Award Winner of NAISA's Best Subsequent Book Award Winner of the Western History Association's John C. Ewers Award Finalist for the John Hope Franklin Prize What if we saw indigenous people as the active agents of global exploration rather than as the passive objects of that exploration? What if, instead of conceiving of global exploration as an enterprise just of European men such as Columbus or Cook or Magellan, we thought of it as an enterprise of the people they "discovered"? What could such a new perspective reveal about geographical understanding and its place in struggles over power in the context of colonialism? The World and All the Things upon It addresses these questions by tracing how Kanaka Maoli (Native Hawaiian people) explored the outside world and generated their own understandings of it in the century after James Cook's arrival in 1778. Writing with verve, David A. Chang draws on the compelling words of long-ignored Hawaiian-language sources—stories, songs, chants, and political prose—to demonstrate how Native Hawaiian people worked to influence their metaphorical "place in the world." We meet, for example, Kaʻiana, a Hawaiian chief who took an English captain as his lover and, while sailing throughout the Pacific, considered how Chinese, Filipinos, Pacific Islanders, and Native Americans might shape relations with Westerners to their own advantage. Chang's book is unique in examining travel, sexuality, spirituality, print culture, gender, labor, education, and race to shed light on how constructions of global geography became a site through which Hawaiians, as well as their would-be colonizers, perceived and contested imperialism, colonialism, and nationalism. Rarely have historians asked how non-Western people imagined and even forged their own geographies of their colonizers and the broader world. This book takes up that task. It emphasizes, moreover, that there is no better way to understand the process and meaning of global exploration than by looking out from the shores of a place, such as Hawaiʻi, that was allegedly the object, and not the agent, of exploration.

The Message Āyatullah Jaʿfar Subḥānī,1984 This book presents an inspiring material based on authentic historical documents. One of its salient features is that the author has taken extreme care in narrating historical events and at the same time he has endeavoured as a research scholar, to approach them with an analytical mind also. Another interesting feature of this book is that it is absolutely free from heresies and concocted stories invented by vested interests. In other words, it is quite in keeping with the required standard of the historical veracity. In short, it is addressed to the Muslims in general without any bias and prejudice.

Development Challenges of India After Twenty Five Years of Economic Reforms Nripendra Kishore Mishra,2020-10-14 This book revisits some of the persisting challenges of development of India, which remain unresolved even after twenty-five years of economic reforms and almost fifteen years of high growth rate. These include defining purpose of development, inequality, labour, work, unemployment, agrarian distress and migration. The book questions the overemphasis on growth to the extent of neglecting basic issues of development. With a number of contributions re-imagining development and its political economy, the book discusses above mentioned issues in light of new data and more recent conceptions of the issues. The contributors of this volume are eminent researchers in their respective field. Presenting primary as well as secondary data, the book considers the latest advances and research and also addresses new challenges like the global reorganization of production and the consequences for labour and the world of work, along with skills question. World of work has received detailed investigation in this book. This is a timely addition in existing literature especially in context of pandemic and lockdown. Informality and un/employment question is addressed in this context. Relationship among poverty, inequality and growth is examined in light of newer understanding. Agrarian distress is looked in a broader context. A number of papers are examining migration question by expanding coverage of migration and including labour mobility as apart of migration debate. The present crisis of migrant labour and absence of social security for these workers is also discussed. This book is primarily intended for those interested in recent advances on some of the basic aspects of development, like poverty, inequality, informality, word of work, migration and labour mobility. It is also useful for researchers, policy makers, journalists and civil society organizations working on these issues.

Early Feminist Pioneers, Their Lives, and Their Reform Efforts Satish Sharma, 2020-12-24 Early feminist pioneers contributed much to the functioning and reform of society, including making women's status and privileges equal to those of men. However, we still do not know enough about their efforts, strategies, sacrifices, and attainments. As such, through a focus on the lives and contributions of eight early female pioneers of England and America from the seventeenth century to the early twentieth century, this book helps to fill this gap. Among these women were religious and educational reformers, political activists, social advocates, abolitionists, feminists, community organizers, pacifists, internationalists, and historians. These women noticed many injustices done to their kind by men and society over the centuries and took brave actions at great personal costs to provide remedies. Their respective backgrounds and interests were different, but all of them desired more protection and the welfare of vulnerable populations nationally and internationally. This book will be of interest to scholars and students in many fields, and can also be adopted as a textbook in colleges and universities.

African Nurse Pioneers in KwaZulu/Natal - 1920-2000 Mazo Sybil T. Buthelezi, 2004 This book is about seven African nurse pioneers in KwaZulu/Natal from 1920 to 2000. The author captures the early nursing activities of the 1920s to 1970 and then moves to nurses that entered the health services in the 1950s. The author also presents two nurses that worked outside South Africa i.e. did their pioneering nursing in Saudi Arabia and the United States of America. The author does not scoop nursing out of its context but creates a narrative that resonates in lived experiences in a world dominated by the Africanization of poverty, the feminization of poverty, globalization, racism and xenophobia.

But dodging two-footed predators deep in the Cajun backwaters turns out to be the easy part. As Logan, accompanied by a newfound love interest, heads to Florida to lie low, a killer hurricane springs from the Gulf—and lives are suddenly on the line. Lessons from America Doina Pasca Harsanyi, 2015-09-10 Every war has refugees; every revolution has exiles. Most of the refugees of the French Revolution mourned the demise of the monarchy. Lessons from America examines an unusual group who did not. Doina Pasca Harsanyi looks at the American experience of a group of French liberal aristocrats, early participants in the French Revolution, who took shelter in Philadelphia during the Reign of Terror. The book traces their path from enlightened salons to revolutionary activism to subsequent exile in America and, finally, back to government posts in France—illuminating the ways in which the French experiment in democracy was informed by the American experience.

Prairie People Robert Collins, 2011-10-12 An intimate look at the people of the prairies in Manitoba, Saskatchewan, and Alberta - who they are, how they live, what makes them a breed apart The prairies are Robert Collins's spiritual home. He was born and raised on a Saskatchewan farm, but spent most of his adult life living elsewhere. Now he returns to his homeland to pay homage to the special character of the people who live in this unique region of Canada. *Prairie People* is an absorbing combination of stories, anecdotes, and touches of history told in the voices of ordinary people and linked by the author's own narrative and memories. It explores the characteristics that define these people to themselves and to the rest of Canada. Prairie people are clearly not all alike: city and town dwellers differ from farmers, farmers from ranchers, ranchers and cowboys from oilmen. But many of the stereotypes are true. They are defiantly pessimistic. They believe they are tougher than everybody else. They are uncommonly independent and self-reliant. In this sympathetic yet realistic

portrait, Collins looks at where the original settlers of the prairies came from. He describes how nature shaped them, and how hard work through good times and bad toughened them. He finds evidence of their legendary friendliness and neighbourliness. And he seeks to understand their deep attachment either to the left and right in politics and their unifying distrust of “Central Canada.”
