MagicLand Charles Bastille,2021-09-07 “A bracing dystopian tale that deftly mixes magic, evolution, and romance” featuring a wiccan priestess and a humanoid who fall in love against all odds (Kirkus Reviews). A feel-good dystopian novel? Welcome to MagicLand. On a future Earth where magic and technology have been at war for two thousand years, can one kiss change the fate of the world? When a young actor from Gath, Belex, crash lands outside the magic land known as Moria, he’s rescued by a young Morian priestess in waiting, Aurilena. The two find themselves drawn impossibly towards each other in the midst of a war between two distinct species of humanoids: her people, the magicians of Moria, and his people, the Gath, whose tremendous intellectual and physical capabilities are programmed into their DNA. Together, the two discover a terrible secret that lies at the heart of the centuries-old conflict between MagicLand and Gath. It’s a secret that leads to a kiss that could end the war once and for all. The only question is will it end in brutal violence or give way to an improbable peace between implacable enemies? The answer to that question may depend on whether Aurilena can discover the true source of power behind her unique gifts before it’s too late. “Bastille’s debut artfully combines magic, technology, and romance. . . . [He] handles the multilayered plot well, creating a fascinating world populated with empathetic characters.” —Publishers Weekly

Secwépemc People, Land, and Laws Marianne Ignace, Ronald E. Ignace, 2017-10-31 Secwépemc People, Land, and Laws is a journey through the 10,000-year history of the Interior Plateau nation in British Columbia. Told through the lens of past and present Indigenous storytellers, this volume detail how a homeland has shaped Secwépemc existence while the Secwépemc have in turn shaped their homeland. Marianne Ignace and Ronald Ignace, with contributions from ethnobotanist Nancy Turner, archaeologist Mike Rousseau, and geographer Ken Favrholt, compellingly weave together Secwépemc narratives about ancestors' deeds. They demonstrate how these stories are the manifestation of Indigenous laws (stsq'ey') for social and moral conduct among humans and all sentient beings on the land, and for social and political relations within the nation and with outsiders. Breathing new life into stories about past transformations, the authors place these narratives in dialogue with written historical sources and knowledge from archaeology, ethnography, linguistics, earth science, and ethnobiology. In addition to a wealth of detail about Secwépemc land stewardship, the social and political order, and spiritual concepts and relations embedded in the Indigenous language, the book shows how between the mid-1800s and 1920s the Secwépemc people resisted devastating oppression and the theft of their land, and fought to retain political autonomy while tenaciously maintaining a connection with their homeland, ancestors, and laws. An exemplary work in collaboration, Secwépemc People, Land, and Laws points to the ways in which Indigenous laws and traditions can guide present and future social and political process among the Secwépemc and with settler society.
