

Farm Farm Childrens Memory

Maria Hoskins

The Farmer's Kid Stephen A. Hill, 2002-11 *The Farmer's Kid* is a recollection of the childhood memories of the author, Stephen A. Hill. Stephen was one of four sons of a family making their livelihood from farming and a retail farm store in rural northern Vermont. The village, family businesses, and nearby surroundings provided numerous opportunities for mischief and Stephen recounts many comical and sometimes compromising situations. His common ailments and injuries, village happenings, school activities, and other antics are likely to trigger a childhood memory of your own. You may nod your head as you recognize the historical events that occurred during the era that became part of this young boy's memories. And you may well laugh out loud as you picture a young bicyclist attempting to jump over six of his friends lying side by side. Such are the tales that Stephen would like to share with you as he remembers being *The Farmer's Kid*.

Christmas Night on the Farm Maria Hoskins, 2015-09-17 Describes Christmas Eve night on a farm where the narrator sees angels who tell her the story of Jesus' birth.

Remembering Rosie Nadine A. Block, 2021-03-15 *Remembering Rosie* is about Block's childhood on a Wisconsin dairy farm in the mid-twentieth century. Growing up on the homestead with her parents and siblings was often idyllic. Still, it never stopped Block from dreaming of making a different life for herself despite many obstacles she'd face in trying to leave the land her German great-grandparents settled in the 1880s. Block and her siblings experienced long hours of tedious and dangerous work. Educational opportunities were limited, and the Ludwig children's one-room school had poorly trained teachers and few books. There was no expectation of girls going on to higher education. Block's observations of her depressive mother, the drudgery of farm life, and the short, cruel lives of farm animals were driving forces that made her take a path less followed. During a time when going against the grain was difficult, Block's restlessness and desire to see a world outside her sheltered community catapulted her into a life that the blue-eyed, blond-haired farm girl never could have imagined.

My Farm, My Heart Deena Finn Meyer, Donna Buettner Finn, 2021 Growing up in a time when we used kerosene lamps for light, an outhouse for a bathroom, and carried out water from the windmill

into the house sounds like a hard life compared to today with all the modern conveniences. But it was all we knew. We did a lot of chores on the farm that were physically hard, tiring, and exhausting, but our life was also simple and meaningful. We raised the animals and grew the food we ate. The crops on our farm helped feed others. We lived close to relatives and knew our neighbors. This book allows me the opportunity to share my childhood memories with my children, grandchildren, and future generations- to give them a glimpse into my childhood growing up on a farm in the 1940's. My Farm, My Heart; Childhood Memories is meant not only for me to tell my story to my own family, but to also share my memories with everyone who wants to gain a glimpse into life on a farm in the good old days.

Memory of Trees Gayla Marty, 2010-04-01 Memory of Trees is a multigenerational story of Gayla Marty's family farm near Rush City, Minnesota. Cleared from woodlands by her great-grandfather Jacob in the 1880s, the farm passed to her father, Gordon, and his brother, Gaylon. Hewing to a conservative Swedish Baptist faith, the two brothers worked the farm, raising their families in side-by-

side houses. As the years go by, the families grow—and slowly grow apart. Uncle Gaylon, more doctrinaire in his faith, rails against the permissiveness of Gayla's parents. Financial tensions arise as well when the farm economy weakens and none of the children is willing or able to take over. Gayla is encouraged to leave for college, international travel, and city life, but the farm remains essential to her sense of self, even after the family decides to sell the land. When Gaylon has an accident on a tractor, Gayla becomes driven to reconnect with him and to find out why she and her uncle—once so close but now estranged—were the only two members of the family who had resisted selling the land. Guided by vivid images of the farm's many beautiful trees, she pores over sacred and classical works as well as layers of her own memory to understand the forces that have transformed the American landscape and culture in the last half of the twentieth century. Beneath the belief in land as a giver of life and blessing, she discovers a powerful anxiety born of human uprootedness and loss. Movingly written, *Memory of Trees* will resonate for many with attachments to small towns or farms, whether they continue to work the land or, like so many, have left for a different life.

Growing Up Country Carol Bodensteiner,2008 In *Growing Up Country: Memories of an Iowa Farm Girl*, Carol Bodensteiner tells the stories of a happy childhood growing up on a family-owned dairy farm in the middle of America in the 1950s, a time when a family could make a good living on 180 acres.

Christmas Night on the Farm Maria Hoskins,2014-11-15 Maria begins this children's book with a vision of Christmas Eve, at her grandmothers farm, recalling memories from a moment in time, on the meaning of Christmas. So, begins this touching story of the writer own childhood memories in her debut children's book. *Christmas Night on the Farm* is the brilliantly illustrated story of a girl's memories of her family's holiday season in the mid-1960s on a rural Arkansas farm.

The Farm Mike Ray,2011-12-11 A charming collection of innocent wonder. It is a book you will want to read to your children and one that you will read for your own pleasure.

Little White Farm House in Iowa Carol Brands,2011-12-15 Book 1 of the 'Precious Memories' series, entitled *Little White Farmhouse in Iowa*, is the first of three books about the childhood of Katherine Kroontje (Vastenhout), a farm girl of Iowa and, later, Minnesota. Book 1 describes farm life

in Iowa during the depression years of the 1930s, before such luxuries as indoor plumbing, electric lights, and telephones -- while beds were still made from corn husks, and clothes sewn from feed sacks. It begins with Katherine's birth exactly at midnight of June 3, 1930, during an horrific summer thunderstorm, and ends with the Blizzard of the Century, the Armistice Day's Blizzard of 1940. (We've had people tell us they didn't believe everything in there until they checked it out for themselves!!)

Book 2, Little Yellow Farmhouse in Iowa, continues these Iowan farm childhood stories with Katherine's years in a second little farmhouse, colored yellow, with a focus on the World War II years and fascinating details of Uncle Bill Tilstra's involvement in the Japanese front of that war. It begins with the traumatic move to the second house and ends with the exciting move to a third house in Minnesota, one with electricity! Book 3, Strangers in Minnesota, about the last four years of Katherine's years at home, not only chronicles the loneliness of a move to another state, but becomes her romance, as well, while leading us into a third American era, that of the Korean War.

Farm (and Other F Words) Sarah K Mock, 2021-04-26 We love The American Farmer. We trust

them to grow our food, to be part of children's nursery rhymes, to provide the economic backbone of rural communities, and to embody a version of the American dream. At the same time, we know that corporate farms are disrupting the agrarian way of life that we so admire, and that we've got to do something to stop it. So what's our plan for saving the farms we love? In *Farm (and Other F Words)*, Sarah K Mock dismantles misconceptions about American farms and discovers what makes small family farms work, or why they don't. While exploring the intersection of farming and wealth, Mock offers an alternative perspective on American agricultural history, and outlines a path to a more equitable food system moving forward. Calling for change, *Farm (and Other F Words)* tackles questions like: Do farmers really get paid not to farm? Are big corporate farms the future? How much good has the food movement done for small family farmers? Ultimately, Mock suggests a solution without putting the onus for change on struggling consumers and reminds us that, the future of American agriculture is not yet decided.

Things Change John W. Laubmeier, 2015-06-19 For this book, I drew upon my childhood and

coming-of-age influences. The deaths of John Kennedy, Robert Kennedy, Martin Luther King Jr., and so many others served as wake-up calls to me. Things change, sometimes for the better and sometimes not. However, we can learn from the important lessons of the past. We can work to improve the world around us while preserving the values of past generations. Throughout my forty years as a social studies teacher, students have told me they loved my history classes because I made the material meaningful by teaching through his-stories and her-stories. In this book, I share a wealth of stories and insights as to how the reader can make sense of—and make a difference in—a world where things constantly change.

The Children of Willow Farm Enid Blyton,2020-07-06 In *The Children of Willow Farm*, just like the previous book, we go through the seasons from spring to winter, learning along with the children. The book teaches the reader all about British farming as it was in the 1940s (or at least as it might have been without the war!) Blyton paints an idyllic picture of farm life, where the animals are part of the family.

A Day in the Life of Me Sherry Maines,2021-04-21 This story takes place in my childhood memories on my grandparents' farm. Growing up in the beautiful Blue Ridge Mountains of North Carolina, memories were created in the magic of children's imagination, far away from the world with internet and gaming systems. This is an adventure from my time on the farm when time was simple and adventure at one's fingertips.

Till the Cows Come Home Lorna Sixsmith, 2018 With their newborn baby, Lorna Sixsmith and her husband Brian James swapped their public service careers in the UK for the love of cows beneath Slievemargy's Brow. Lorna's grandfather George had inherited Garrendenny's shrubby wood, bog and decayed timber. One of nine children, Lorna's father Joe devoted his life to modernising and improving the farm. Now Lorna's children play in the same fields. Recounted with Lorna's trademark wit, through these touching, heart-warming and often amusing stories of Joe's childhood in the 1940s, Lorna's of the 1970s and now her own children's, we share this journey down memory lane to glimpse rural life down the generations. Whether it was being on the back of a tractor to deliver milk, foraging for blackberries or bumping along grassy tracks atop quivering loads of straw, the long days of summer were filled with adventure. Townie cousins came to stay, hay fields were obstacle courses, superstitions and country cures abounded, and weather was the main topic of conversation. Each generation is different, but some aspects of rural life don't change. There are the highs and lows of

farming, when you don't know whether to laugh or cry, but laughter, as Lorna finds, is always the best medicine.--

The Memory Tree Fred Neff, 2008-12 The Memory Tree recounts some actual events from Christmas 2007. The storyline, told in first person through the eyes of a toddler, features young Calvin, who delights in riding in Dad's pickup truck to Big Jim's Farm in search of two trees, a tall one for the house and a short one to be planted in the back yard, called a memory tree. As a toddler, he is quite the humorous helper, and together, Calvin and Dad transform this Christmas, because of a memory tree, into a tradition they will recapture for years to come. Reviews from Pfizer Kids, New London, Connecticut The Memory Tree was a great way to truly invite the reader to imagine what your holiday traditions with Calvin are. A nice traditional family story-Sue LaBella, Program Coordinator I loved the concept of this story. I found that, as a toddler teacher, I particularly enjoyed the flow of rhyming lines. I also found myself wanting more details about the 'memory' surrounding the act of tending to the small tree-Hope Wread, Toddler Lead Teacher FRED NEFF is writing a children's book series from

real life fatherhood experiences with his toddler son, Calvin. The Memory Tree is the first in the series. Stories told in rhyme seem to captivate children with an expectation of the next line. They love the repetition of being read to-especially in rhyme. The Calvin and Dad series, lets me explore a child's view of these important times with Dad. I hope Calvin and Dad stories inspire dads everywhere to invest more time doing simple things in life with their kids (or any kids for that matter) to draw out the extraordinary love that children are just waiting to give in return for Dad's time. This is what creates precious moments and wonderful memories. I try to bring to you, the reader, and the listener, the joys of fatherhood-with a twist-as seen through the eyes of a toddler.
