Rockford's Forgotten Driving Park: Racing, Politics & Circuses Amanda Becker, 2019 Local thrill-seekers at the turn of the century knew that all the action was at the Driving Park. But few today know the drama buried beneath a West End subdivision. At the height of the horse racing craze after the Civil War, prominent Rockford businessmen raised \$25,000 to build a harness racetrack there in 1890 (the name refers to the person in the cart pulled by a horse--the driver). The versatile venue evolved to stay relevant, weathering the 1893 financial panic and welcoming bicycle mania. Events ranged from high school track meets to early auto racing. Folks saw a soccer game one week and a circus the next. Controversy erupted at times, from gambling and drinking to a murder and a KKK rally. Amanda Becker reveals this colorful story nearly forgotten since 1938.

Institutional Innovations in the Delivery of

Farm Services in India Sukhpal Singh, 2017-09-17

This book uses primary evidence to assess the value of agro-input and service delivery business models in terms of their inclusiveness, effectiveness and impact from a small farmer perspective, in the form of case studies in three Indian states: Punjab, Bihar and Uttar Pradesh. The services discussed include custom rental of farm machinery and equipment, franchising for backward and forward linkage for farmers and the supermarkets for delivery of farm inputs, and extension services. The book examines agro-input and service delivery business models as institutional innovations for inclusive and effective delivery of such services in the small farmer context, based on primary data from the agencies designing and implementing such models and the farmers who make use of these inputs and services. Further, it identifies major issues and challenges in the delivery of farm inputs and services across regions and types of farmers and examines possible policy and enabling provisions to promote cost-effective and high-quality agro-input delivery channels.
