On Location Peter Naldrett, 2023-06-22 For popular-culture vultures, there really is no better guide to Britain's best TV and film locations than *On Location*. With their historical charm, scenic beauty and diverse cities, the United Kingdom and Ireland have proved to be popular backdrops for film and TV directors over the decades. Whether it be the period piece *Bridgerton*, the gritty drama *Game of Thrones*, the adrenaline-fuelled *Mission: Impossible* series or the sci-fi trailblazer *Doctor Who*, the UK and Ireland have been on hand to lend buildings, countryside and natural features to some of the most gripping on-screen moments. *On Location* presents some of the finest destinations around the British Isles to appear in cinema and on TV, and details exactly how you can go about visiting them. Attractions range from London's bustling city centre, home to many James Bond movies, to secluded stately homes that have hosted elaborate productions of *Pride and Prejudice*, and offbeat urban buildings featured in well-loved shows such as *Only Fools and Horses* and *The Young Ones*. Featuring over 100 TV shows and blockbuster films, this guidebook is sure to keep even the most obsessive film buff occupied for years.

The Empire of Effects Julie A. Turnock, 2022-06-14 How one company created the dominant aesthetic of digital realism. Just about every major film now comes to us with an assist from digital effects. The results are obvious in superhero fantasies, yet dramas like *Roma* also rely on computer-generated imagery to enhance the verisimilitude of scenes. But the realism of digital effects is not actually true to life. It is a realism invented by Hollywood—by one company specifically: Industrial Light & Magic. *The Empire of Effects* shows how the effects company known for the puppets and space battles of the original *Star Wars* went on to develop the dominant aesthetic of digital realism. Julie A. Turnock finds that ILM borrowed its technique from the New Hollywood of the 1970s, incorporating lens flares, wobbly camerawork, haphazard framing, and other cinematography that called attention to the person behind the camera. In the context of digital imagery, however, these aesthetic strategies had the opposite effect, heightening the sense of realism by calling on tropes suggesting the authenticity to which viewers were accustomed. ILM's style, on display in the most successful films of the 1980s and beyond, was so convincing that other studios were forced to follow suit, and today, ILM is a victim of its own success, having fostered a cinematic monoculture in which it is but one player among many.

You Don't Know Me, But . . . Clarke Carlisle, 2013-09-12 In the summer of 2012, Clarke Carlisle, after 15 years as a professional footballer, was without a contract and wondering if he still had a future in the game. With a growing media profile, thanks to his appearances on *Question Time* and an acclaimed documentary on racism in football, there were plenty of other opportunities, but he was determined to give it another go. Initially signing for York City before moving to Northampton Town, Carlisle was soon back in

the thick of the action. As the events of the year unfolded, Carlisle looked back at his career, from his early days playing for England Under-21s, through career-threatening injuries and a battle with alcohol problems, to a late arrival at the top level with Burnley. As chairman of the PFA, Carlisle is a much-respected figure in the game; his raw honesty and penetrating insights will make readers view the game, and those who play it, in a whole new light.

Movies (And Other Things) Shea Serrano, 2019-10-08 INSTANT #1 NEW YORK TIMES BESTSELLER WALL STREET JOURNAL BESTSELLER BARNES & NOBLE BESTSELLER AMAZON BESTSELLER Paging through Serrano's *Movies (and Other Things)* is like taking a long drive at night with a friend; there's that warmth and familiarity where the chat is more important than the fastest route from Point A to Point B...It's like a textbook gone right; your attention couldn't wander if it tried. -- Elisabeth Egan, New York Times Book Review Shea Serrano is back, and his new book, *Movies (And Other Things)*, combines the fury of a John Wick shootout, the sly brilliance of Regina George holding court at a cafeteria table, and the sheer power of a Denzel monologue, all into one. *Movies (And Other Things)* is a book about, quite frankly, movies (and other things). One of the chapters, for example, answers which race Kevin Costner was able to white savior the best, because did you know that he white saviors Mexicans in *McFarland, USA*, and white saviors Native Americans in *Dances with Wolves*, and white saviors Black people in *Black or White*, and white saviors the Cleveland Browns in *Draft Day*? Another of the chapters, for a second example, answers what other high school movie characters would be in Regina George's circle of friends if we opened up the *Mean Girls* universe to include other movies (Johnny Lawrence is temporarily in, Claire from *The Breakfast Club* is in, Ferris Bueller is out, Isis from *Bring It On* is out...). Another of the chapters, for a third example, creates a special version of the Academy Awards specifically for rom-coms, the most underrated movie genre of all. And another of the chapters, for a final example, is actually a triple chapter that serves as an NBA-style draft of the very best and most memorable moments in gangster movies. Many, many things happen in *Movies (And Other Things)*, some of which funny, others of which are sad, a few of which are insightful, and all of which are handled with the type of care and dedication to the smallest details and pockets of pop culture that only a book by Shea Serrano can provide.

Celebrity Biographies - The Amazing Life Of Tyrese Gibson - Famous Actors Matt Green, Ever wondered how Tyrese Gibson rose to stardom? Journeys are never easy. Some journeys have many hurdles, several adventures, a few mishaps and if you're lucky – a little success. The journey of Tyrese Darnell Gibson has all of that and more. Many American superstars had humble beginnings. Many grew up in dangerous neighborhoods and had parents who were just short of Ward and June Cleaver. Most of those celebrities somehow received a big break along the line and became superstars. Many share the typical American-celebrity rags-to-riches story. Gibson is no different in that he, too, grew up in a crime-riddled neighborhood, was raised by a single mother battling alcoholism and lived in a tiny house with many other siblings in a small area of Los Angeles, California. However, not all stars can say they produced multiple award-winning albums, were the host of several TV shows, starred in dozens of feature films, wrote two books and released the first-ever digital comic book series.
