Noise, Water, Meat Douglas Kahn,2001-08-24 An examination of the role of sound in twentieth-century arts. This interdisciplinary history and theory of sound in the arts reads the twentieth century by listening to it—to the emphatic and exceptional sounds of modernism and those on the cusp of postmodernism, recorded sound, noise, silence, the fluid sounds of immersion and dripping, and the meat voices of viruses, screams, and bestial cries. Focusing on Europe in the first half of the century and the United States in the postwar years, Douglas Kahn explores aural activities in literature, music, visual arts, theater, and film. Placing aurality at the center of the history of the arts, he revisits key artistic questions, listening to the sounds that drown out the politics and poetics that generated them. Artists discussed include Antonin Artaud, George Brecht, William Burroughs, John Cage, Sergei Eisenstein, Fluxus, Allan Kaprow, Michael McClure, Yoko Ono, Jackson Pollock, Luigi Russolo, and Dziga Vertov.

Jericho Ann McMan,2017-11-21 Librarian Syd Murphy flees the carnage of a failed marriage by accepting an eighteen-month position in Jericho, a

small town in the Appalachian Mountains of Virginia. Her plans to hide out and heal her wounds fall by the wayside as she gets drawn into the daily lives of the quirky locals. When Syd gets a flat tire and is rescued by the town physician, Maddie Stevenson, the two women form a fast friendship—but almost immediately begin struggling with a mutual attraction. And, if that's not enough, Syd is straight and going through a divorce—and Maddie somehow forgets to mention her sexual orientation to her new best friend. Almost everyone who crosses their paths believes it's only a matter of time until they figure it out, but sometimes, it takes a while to see the obvious. Together, Syd and Maddie learn that life and love can have as many twists and turns as a winding mountain road.

Bootleg! The Rise And Fall Of The Secret Recording Industry Clinton Heylin,2010-03-04 An absorbing account of the record industry's worst nightmare. In the summer of 1969, *Great White Wonder*, a collection of unreleased Bob Dylan recordings appeared in Los Angeles. It was the first rock bootleg and it spawned an entire industry dedicated to making unofficial recordings available to true fans. *Bootleg!* tells the whole fascinating saga, from its underground infancy through the CD 'protection gap' era, when its legal status threatened the major labels' monopoly, to the explosion of trading via Napster and Gnutella on MP-3 files. Clinton Heylin provides a highly readable account of the busts, the defeats and victories in court; the personalities – many interviewed for the first time for this book. This classic history has now been updated and revised to include today's digital era and the emergence of a whole new bootleg culture.

Steely Dan's Aja Don Breithaupt, 2007-05-15 *Aja* was the album that made Steely Dan a commercial force on the order of contemporaries like Fleetwood Mac, the Eagles and Chicago. A double-platinum, Grammy-winning bestseller, it lingered on the Billboard charts for more than a year and spawned three hit singles. Odd, then, that its creators saw it as an ambitious, extended work, the apotheosis of their anti-rock, anti-band, anti-glamour aesthetic. Populated by thirty-five mostly jazz session players, *Aja* served up prewar song forms, mixed meters and extended solos to a generation whose idea of pop daring was Paul letting Linda sing lead once in a while. And, impossibly, it sold. Including an in-depth interview with Donald Fagen, this book paints a detailed picture of the making of a masterpiece.

Freedom of Expression® Kembrew McLeod, 2007 In 1998 the author, a professional prankster, trademarked the phrase freedom of expression to show how the expression of ideas was being restricted. Now he uses intellectual property law as the focal point to show how economic concerns are seriously eroding creativity and free speech.

Experimental Sound and Radio Allen S. Weiss,2001-06-27 This book, which originally appeared as a special issue of TDR/The Drama Review, explores the myriad aesthetic, cultural, and experimental possibilities of radiophony and sound art. Art making and criticism have focused mainly on the visual media. This book, which originally appeared as a special issue of TDR/The Drama Review, explores the myriad aesthetic, cultural, and experimental possibilities of radiophony and sound art. Taking the approach that there is no single entity that constitutes radio, but rather a multitude of radios, the essays explore various aspects of its apparatus, practice, forms, and utopias. The approaches include historical, political, popular cultural, archeological, semiotic, and feminist. Topics include the formal properties of radiophony, the disembodiment of the radiophonic voice, aesthetic implications of psychopathology, gender differences in broadcast musical voices and in narrative radio, erotic fantasy, and radio as an electronic memento mori. The book includes a new piece by Allen Weiss on the origins of sound recording. Contributors John Corbett, Tony Dove, René Farabet, Richard Foreman, Rev. Dwight Frizzell, Mary Louise Hill, G. X. Queen Unseen - My Life with the Greatest Rock Band of the 20th Century: Revised and with Added Material Peter Hince,2015-10-11 Imagine being alongside one of the greatest bands in the history of rock, touring the world and being there as they perform at some of the best and biggest music venues in the world. Peter Hince didn't have to imagine: for more than a decade, he lived a life that other people can only dream of as he worked with Queen as head of their road crew. In 1973, Queen was the support act for Mott the Hoople, for whom Peter was a roadie. Back then, Queen had to content themselves with being second on the bill and the world had not yet woken up to the flamboyant talent of Freddie Mercury. Peter started working full time for Queen just as they were making A Night at the Opera, the album which catapulted them to international stardom. In this intimate and affectionate book, Peter recalls the highlights of his years with the band. He was with Freddie when he composed 'Crazy Little Thing Called Love'; he was responsible for making sure that Freddie's stage performances went without a hitch - and was often there to witness his famed tantrums! He was

also party to the sex, drugs and rock 'n' roll which are invariably part of life on the road with a rock band.

For the Win Cory Doctorow, 2011 A provocative and exhilarating tale of teen rebellion against global corporations from the New York Times bestselling author of *Little Brother*. Not far in the future... In the twenty-first century, it's not just capital that's globalized: labour is too. Workers in special economic zones are trapped in lives of poverty with no trade unions to represent their rights. But a group of teenagers from across the world are set to fight this injustice using the most surprising of tools - their online video games. In Industrial South China Matthew and his friends labour day and night as gold-farmers, amassing virtual wealth that's sold on to rich Western players, while in the slums of Mumbai 'General Robotwallah' Mala marshalls her team of online thugs on behalf of the local gang-boss, who in turn works for the game-owners. They're all being exploited, as their friend Wei-Dong, all the way over in LA, knows, but can do little about. Until they begin to realize that their similarities outweigh their differences, and agree to work together to claim their rights to fair working conditions. Under the noses of the ruling elites in China and the rest of Asia, they fight their bosses, the owners of the games and rich speculators, outsmarting them all with their gaming skills. But soon the battle will spill over from the virtual world to the real one, leaving Mala, Matthew and even Wei-Dong fighting not just for their rights, but for their lives...

No Easy Answers Brown, Brooks,2022-06-10 On April 20, 1999, Dylan Klebold and Eric Harris, two seniors at Columbine High School in Littleton, Colorado, walked into their school and shot to death twelve students and one teacher, and wounded many others. It was the worst single act of murder at a school in U.S. history. Few people knew Dylan Klebold or Eric Harris better than Brooks Brown. Brown and Klebold were best friends in grade school, and years later, at Columbine, Brown was privy to some of Harris and Klebold’s darkest fantasies and most troubling revelations After the shootings, Brown was even accused by the police of having been in on the massacre—simply because he had been friends with the killers. Brown with journalist Rob Merritt tells his full version of the story. He describes the warning signs that were missed or ignored, and the evidence that was kept hidden from the public after the murders. He takes on those who say that rock music or video games caused Klebold and Harris to kill their classmates and explores what it might have been that pushed these two young men, from supposedly stable families, to harbor such violent and apocalyptic dreams. Shocking as well as inspirational and insightful, No Easy Answers is an authentic wake-up call for all the psychologists, authorities, parents, and law enforcement personnel who have attempted to understand the murders at Columbine High School. As the title suggests, the book offers no easy answers, but instead presents the unvarnished facts about growing up as an alienated teenager in America today. This edition contains a new afterword that describes what has happened in the United States since Columbine, and provides updates on the aftermath of the massacre.
