*Commemorating Peterloo* Michael Demson,2019-04-01 Reflections on the Bicentenary of the 1819 Massacre of Reformers in Manchester Two hundred years after the massacre of protestors in Manchester, known as Peterloo, distinguished scholars of Romantic-era literature join together in this commemorative volume to assess the implications of the violence. Contributors explore how attitudes toward violence and the claims of people to participate in government were reflected and revised in the verbal and visual culture of the time. Their analyses provide fresh insights into cultural engagement as a means of resisting oppression and a sign of the resilience of humanity in facing threats and force.Key FeaturesProvides a multi-perspectival, historical revaluation of the violence of Peterloo Draws on contemporary theorizations of violence by Judith Butler, Slavoj Žižek and Rob Nixon to account for the cultural factors leading to PeterlooSupplements treatments of Peterloo centering on English history with attention to the significance of that event from Scottish, Irish and North American perspectives

*Saussure's Philosophy of Language as Phenomenology* Beata Stawarska,2015-01-15 This book draws on recent developments in research on Ferdinand de Saussure's general linguistics to challenge the structuralist doctrine associated with the posthumous Course in General Linguistics (1916) and to develop a new philosophical interpretation of Saussure's conception of language based solely on authentic source materials. This project follows two new editorial paradigms: 1. a critical re-examination of the 1916 Course in light of the relevant sources and 2. a reclamation of the historically authentic materials from Saussure's Nachlass, some of them recently discovered. In Stawarska's book, this editorial paradigm shift serves to expose the difficulties surrounding the official Saussurean doctrine with its sets of oppositional pairings: the signifier and the signified; la langue and la parole; synchrony and diachrony. The book therefore puts pressure not only on the validity of the posthumous editorial redaction of Saussure's course in general linguistics in the Course, but also on its structuralist and post-structuralist legacy within the works of Levi-Strauss, Lacan, and Derrida. Its constructive contribution consists in reclaiming the writings from Saussure's Nachlass in the service of a linguistic phenomenology, which intersects individual expression in the present with historically sedimented social conventions. Stawarska develops such a conception of language by engaging Saussure's own reflections with relevant writings by Hegel, Husserl, Roman Jakobson, and Merleau-Ponty. Finally, she enriches her philosophical critique with a detailed historical account of the material and institutional processes that led to the ghostwriting and legitimizing the Course as official Saussurean doctrine.
