On May 1, Osama bin Laden was killed by U.S. forces, not only closing a chapter in the 9/11 terror attacks but yielding valuable new intelligence in the global effort to end violent extremism. The FBI and Crimes Against Children Sabrina Crewe, 2015-02-03 The federal Bureau of Investigation (FBI) is a national agency dedicated to investigation federal crimes. Founded as a small team of special agents on July 26, 1908, the Bureau was first charged with enforcing the growing body of federal laws covering the United States as a whole. Almost from the beginning of its 100-year history, the Bureau has been the subject of legend and controversy. It has also evolved into a vast and sophisticated national law-enforcement agency. Whether as a federal crime-fighting force or a source of investigative support of local and state police forces, the modern FBI strives to embody its ideals of fidelity, bravery, and integrity. In its role as a national crime-fighting force, the FBI sometimes pursues the worst of all criminals--those who target and harm children. This volume examines the crimes that exploit children, looking at everything from online predators to kidnappers and killers and highlighting several famous cases. It shows how and when the FBI becomes involved and the techniques used by the FBI's Crimes Against Children team. The book also explains the important relationships between the FBI and its partners in law enforcement and in the community.

2013 The FBI Story United States. Federal Bureau of Investigation. Public Affairs Office, 2014 Message From FBI Director James B Comey: This past year, the FBI and its partners again addressed a wide range of national security and criminal threats. Together, we responded to numerous crisis incidents, such as the terrorist bombings of the Boston Marathon and the shootings at the Navy Yard in Washington, DC. We confronted a continued surge of cyber attacks against targets ranging from everyday citizens to our largest and most successful businesses. And we stopped those who would strike at the heart of our communities-from violent gangs and white-collar criminals to child predators and corrupt public officials. A glimpse of the challenges we faced-and what we achieved together-can be found in this latest edition of The FBI Story, our annual collection of news and feature articles from the Bureau's public website. Here you can read about some of our most successful recent major investigations and operations. These include a three-day nationwide sweep targeting child prostitution in which we identified and rescued more than 100 young victims and arrested more than 150 pimps; the rescue of a 5-year-old boy held captive in a heavily armed bunker in Alabama; and uncovering of the largest domestic bribery and bid-rigging scheme in the history of federal contracting cases-one that siphoned more the \$30 million dollars of taxpayer money. This edition of the FBI Story also highlights some of the Bureau's remarkable capabilities. You will find a multi-part series on our elite Hostage Rescue Team-which marked its 30th anniversary this past year-and a feature on the Terrorist Explosive Device Analytical Center (TEDAC)-an FBI-established, multi-agency operation that celebrated its 10th anniversary in 2013.

In the Name of the Children Jeffrey L. Rinek, Marilee Strong, 2018-07-17 The voice that narrates *In the Name of the Children: An F.B.I. Agent's Relentless Pursuit of the Nation's Worst Predators*, which Rinek wrote with the journalist Marilee Strong, sounds warm and humane, qualities missing from much crime writing. Their book is a professional job, filled with illuminating details about the day-to-day operations of the bureau. —New York Times Book Review FBI Special Agent Jeff Rinek had a gift for getting child predators to confess. All he had to do was share a piece of his soul . . . In *In the Name of the Children* gives an unflinching look at what it's like to fight a never-ending battle against an enemy far more insidious than terrorists: the predators, lurking amongst us, who seek to harm our children. During his 30-year career with the FBI, Jeff Rinek worked hundreds of investigations involving crimes against children: from stranger abduction to serial homicide to ritualized sexual abuse. Those who do this kind of work are required to plumb the depths of human depravity, to see things no one should ever have to see—and once seen can never forget. There is no more important—or more brutal—job in law enforcement, and few have been more successful than Rinek at solving these sort of cases. Most famously, Rinek got Cary Stayner to confess to all four of the killings known as the Yosemite Park Murders, an accomplishment made more extraordinary by the fact that the FBI nearly pinned the crimes on the wrong suspects. Rinek's recounting of the confession and what he learned about Stayner provides perhaps the most revelatory look ever inside the psyche of a serial killer and a privileged glimpse into the art of interrogation. *In the Name of the Children* takes readers into the trenches of real-time investigations where every second counts and any wrong decision or overlooked fact can have tragic repercussions. Rinek offers an insider's perspective of the actual case agents and street detectives who are the boots on the ground in this war at home. By placing us inside the heart and mind of a rigorously honest and remarkably self-reflective investigator, we will see with our own eyes what it takes—and what it costs—to try to keep our children safe and to bring to justice those who prey on society's most vulnerable victims. With each chapter dedicated to a real case he worked, *In the Name of*

the Children also explores the evolution of Rinek as a Special Agent—whose unorthodox, empathy-based approach to interviewing suspects made him extraordinarily successful in obtaining confessions—and the toll it took to have such intimate contact with child molesters and murderers. Beyond exploring the devastating impact of these unthinkable crimes on the victims and their families, this book offers an unprecedented look at how investigators and their loved ones cope while living in the specter of so much suffering.
