On the Come Up Angie Thomas,2019-02-05 #1 New York Times bestseller · Seven starred reviews · Boston Globe-Horn Book Award Honor Book “For all the struggle in this book, Thomas rarely misses a step as a writer. Thomas continues to hold up that mirror with grace and confidence. We are lucky to have her, and lucky to know a girl like Bri.”—The New York Times Book Review This digital edition contains a letter from the author, deleted scenes, a picture of the author as a teen rapper, an annotated playlist, Angie’s top 5 MCs, an annotated rap, illustrated quotes from the book, and an excerpt from Concrete Rose, Angie's return to Garden Heights. Sixteen-year-old Bri wants to be one of the greatest rappers of all time. Or at least win her first battle. As the daughter of an underground hip hop legend who died right before he hit big, Bri’s got massive shoes to fill. But it’s hard to get your come up when you’re labeled a hoodlum at school, and your fridge at home is empty after your mom loses her job. So Bri pours her anger and frustration into her first song, which goes viral . . . for all the wrong reasons. Bri soon finds herself at the center of a controversy, portrayed by the media as more menace than MC. But with an eviction notice staring her family down, Bri doesn’t just want to make it—she has to. Even if it means becoming the very thing the public has made her out to be. Insightful, unflinching, and full of heart, *On the Come Up* is an ode to hip hop from one of the most influential literary voices of a generation. It is the story of fighting for your dreams, even as the odds are stacked against you; and about how, especially for young black people, freedom of speech isn’t always free. Don't miss Concrete Rose, Angie Thomas's powerful prequel to her phenomenal bestseller, *The Hate U Give*!

Forensic Anthropology and Medicine Aurore Schmitt,2007-11-09 Recent political, religious, ethnic, and racial conflicts, as well as mass disasters, have significantly helped to bring to light the almost unknown discipline of forensic anthropology. This science has become particularly useful to forensic pathologists because it aids in solving various puzzles, such as identifying victims and documenting crimes. On topics such as mass disasters and crimes against humanity, teamwork between forensic pathologists and forensic anthropologists has significantly increased over the few last years. This relationship has also improved the study of routine cases in local medicolegal institutes. When human remains are badly decomposed, partially skeletonized, and/or burned, it is particularly useful for the forensic pathologist to be assisted by a forensic anthropologist. It is not a one-way situation: when the forensic anthropologist deals with skeletonized bodies that have some kind of soft tissue, the advice of a forensic pathologist would be welcome. Forensic anthropology is a subspecialty/field of physical anthropology. Most of the background on skeletal biology was gathered on the basis of skeletal remains from past populations. Physical anthropologists then developed an indisputable “know-how”; nevertheless, one must keep in mind that looking for a missing person or checking an assumed identity is quite a different matter. Pieces of information needed by forensic anthropologists require a higher level of reliability and accuracy than those granted in a general archaeological context. To achieve a positive identification, findings have to match with evidence, particularly when genetic identification is not possible.

The Making and Circulation of Nordic Models, Ideas and Images Haldor Byrkjeflot,Lars Mjøset,Mads Mordhorst,Klaus Petersen,2021-10-19 This critical and empirically based volume examines the multiple existing Nordic models, providing analytically innovative attention to the multitude of circulating ideas, images and experiences referred to as Nordic. It addresses related paradoxes as well as patterns of circulation, claims about the exceptionality of Nordic models, and the diffusion and impact of Nordic experiences and ideas. Providing original case studies, the book further examines how the Nordic models have been constructed, transformed and circulated in time and in space. It investigates the actors and channels that have been involved in circulating models: journalists and media, bureaucrats and policy-makers, international organizations, national politicians and institutions, scholars, public diplomats and analyses where and why models have travelled. Finally, the book shows that Nordic models, perspectives, or ideas do not always originate in the

Nordic region, nor do they always develop as deliberate efforts to promote Nordic interests. This book will be of key interest to Nordic and Scandinavian studies, European studies, and more broadly to history, sociology, political science, marketing, social policy, organizational theory and public management. The Open Access version of this book, available at <http://www.taylorfrancis.com>, has been made available under a Creative Commons Attribution-Non Commercial-No Derivatives 4.0 license.

Population Situation Analysis (PSA) ,2010 The Population Situation Analysis (PSA) provides the basis for an integrated appraisal of the population and reproductive health dynamics and their impacts on poverty, inequality and development. By integrating a micro and macro analytical approach, the population situation analysis clarifies the interactions between individual behaviour and demographic dynamics. The Population Situation Analysis (PSA) responds to demand by countries that international cooperation should promote national capacity-building and recognize national ownership and leadership as prerequisites for development, in accordance with the principles agreed at the International Conference on Population and Development (ICPD) and the Millennium Declaration. This manual contributes to more efficient evidence-based programming, which relies on increased capacity for data generation, new databases, the consolidation of available evidence and the promotion of the use of hard data. Confronting Fiji Futures A. Haroon Akram-Lodhi,2016-01-15 Fiji, post-independence, has seen several governments, two military coups and, amidst sweeping social, economic and political changes, the presence of divisive identity politics in its journey towards a united, collective Fiji community. This republished edition of Confronting Fiji Futures takes in these landmark events and eventualities, and aims at a forward-looking assessment of the realities facing Fiji in the present and the future. It focuses on the period of the coups up to and including the 1999 general elections, when an explicitly multiethnic party won government in a surprise landslide result. This book is the result of a collaborative research project based at the Institute of Social Studies, The Hague, in the Netherlands — an institution with a long tradition of collaborative teaching, research and advisory services in the South Pacific region. It aims to present a range of relevant issues from a number of vantage points. It has brought together a strong diversity of authors led by A. Haroon Akram-Lodhi, including John Cameron, Ganesh Chand, Martin Doornbos, Yash Ghai, Holger Korth, Sunil Kumar, Biman Prasad, Jacqueline Leckie, Satendra Prasad, Steve Ratuva, Robbie Robertson, Ardeshir Sepehri and William Sutherland.

COVID in the Islands: A comparative perspective on the Caribbean and the Pacific Yonique Campbell,John Connell,2021-10-29 This book provides the first wide-ranging account of the impact of the COVID-19 pandemic in two contrasting island regions - the Caribbean and the Pacific - and in several islands and island states. It traces the complexity of effects and responses, at different scales, through the first critical year. Written by a range of scholars and practitioners working in the region the book focuses on six key themes: public health; the economies (notably the collapse of tourism, the revival of local agriculture and fishing, and the rebirth of self-reliance, and even barter); the rescue by remittances; social tensions and responses; public policy; and future ‘bubbles’ and regional connections. Even with marine borders that excluded the virus all island states were affected by COVID-19 because of a considerable dependence on tourism – prompting urgent challenges for governance, economic management and development, as small states sought to balance lives against livelihoods in search of revitalisation or even a ‘new normal’.
