Feeding Frenzy ,2008

Feeding Frenzy Richard Sapir,Warren Murphy,2015-05-07 The dish was cost free, fat free, and fabulously yummy. Of course, some said you had to be bugs to try it, but one taste made you a believer. The trouble was, believers began turning into corpses. That's when Remo and Chiun came in to hunt down the evil ingredients in the murderous munchies . . . only to run up against a U.S. Senator.

Feeding Frenzy Will Self,2001 This collection of Will Self's journalism and selected writings takes the reader through the turbulent years 1995-2000, covering everything from his restaurant reviews to Tate Modern and the contemporary British art scene, and cultural phenomena as diverse as voyeuristic television and the Queen Mother.

Inventing Herself Elaine Showalter,2001-03-20 Sure to take its place alongside the literary landmarks of modern feminism, Elaine Showalter's brilliant, provocative work chronicles the roles of feminist intellectuals from the eighteenth century to the present. With sources as diverse as A Vindication of the Rights of Woman and *Scream 2*, *Inventing Herself* is an expansive and timely exploration of women who possess a boundless determination to alter the world by boldly experiencing love, achievement, and fame on a grand scale. These women tried to work, travel, think, love, and even die in ways that were ahead of their time. In doing so, they forged an epic history that each generation of adventurous women has rediscovered. Focusing on paradigmatic figures ranging from Mary Wollstonecraft and Margaret Fuller to Germaine Greer and Susan Sontag, preeminent scholar Elaine Showalter uncovers common themes and patterns of these women's lives across the centuries and discovers the feminist intellectual tradition they embodied. The author brilliantly illuminates the contributions of Eleanor Marx, Zora Neale Hurston, Simone de Beauvoir, Margaret Mead, and many more. Showalter, a highly regarded critic known for her provocative and strongly held opinions, has here established a compelling new Who's Who of women's thought. Certain to spark controversy, the omission of such feminist perennials as Susan B. Anthony, Eleanor Roosevelt, and Virginia Woolf will surprise and shock the conventional wisdom. This is not a history of perfect women, but rather of real women, whose mistakes and even tragedies are instructive and inspiring for women today who are still trying to invent themselves.

Coyotes in Broad Daylight Robert Yehling,2006 Yehling explores a world without the many masks of fear and self-trickery that people wear for acceptance and survival, a world in which they reveal their deepest selves. This collection also features a few selections written in previously forgotten Ancient Greek poetry forms, as well as a series of new challenging and entertaining essays.

The Fifth Vote David Pepper,2023-10-03 It’s a perfect Wednesday evening on the banks of the Ohio River, and Dylan Webb is riding high both politically and personally. Recently elected, both powerful and popular, he’s gearing up for a rare dinner date amid his busy schedule. In a matter of minutes, it all turns upside down. Two muggers corner Webb outside his home and force him into his own car at gunpoint. For the next hour, he drives the streets of Cincinnati trying to convince his abductors not to kill him. He’s ultimately freed, but the moment of relief quickly explodes into a new firestorm, as the police and media doubt his story. As Dylan and a local reporter dig into evidence that something deeper is lurking, bodies start to pile up. And the closer they get to the truth, the more they fear they may be next. Book Review 1: The People’s House “...sleeper for political thriller of the year....” -- The Wall Street Journal Book Review 2: The Voter File “Pepper comes through again with this clever tale...” -- President Bill Clinton Book Review 3: “...one hellishly twisty thriller that is as timely as it is entertaining...” -- Dayton Daily News

Don't Get Me Started Kate Clinton,2012-04-02 Kate Clinton’s first book of irreverent humor Let’s get one thing straight. I’m not. I’m out and proud. My closet was huge, complete with a foyer, turnstile, a few dead bolts, and a burglar alarm. It wasn’t until I had lived and slept with a woman for a year that it occurred to me to ask, “Do you think we’re lesbians?”

Heavy Metal Deena Weinstein,2009-08-05 Few forms of music elicit such strong reactions as does heavy metal. Embraced by millions of fans, it has also attracted a chorus of critics, who have denounced it as a corrupter of youth—even blamed it for tragedies like the murders at Columbine. Deena Weinstein argues that these fears stem from a deep misunderstanding of the energetic, rebellious culture of metal, which she analyzes, explains, and defends. She interprets all aspects of the metal world—the music and its makers, its fans, its dress code, its lyrics—and in the process unravels the myths, misconceptions, and truths about an irreverent subculture that has endured and evolved for twenty years.

New York Folks Dwight Foster,2010-08-24 NEW YORK FOLKS narrates the saga of Sure-Lite Brands Corporation, a producer of matches founded in 1893 by Hiram Ryder, a blacksmith's apprentice. Sure-Lite evolves, after a public offering in 1965, into a Fortune 200 NYSE listed corporation with CARSON'S a high growth retailer in the Home Center industry developing into Sure-Lite's principal business. A major power struggle erupts between the Ryder brothers for control of the company. Their struggle attracts predators, ambitious operating executives, slippery investment bankers, and corporate knaves, along with easy and hard ladies sporting high heels and sharp elbows. The narrative is brim with board of directors meeting conflicts, and self minded men and women who occasionally find themselves in foreign bedrooms. They are New York folks. Dwight Foster is also the author of *Shattered Covenants*, a seven book cycle narrating the formation, rise, decline, and fall of a major management consulting firm.

Private Equity as an Asset Class Guy Fraser-Sampson,2011-12-01 Unfairly reviled, and much misunderstood, private equity differs from all other asset classes in various important respects, not least the way in which its fund mechanisms operate, and the way in which its returns are recorded and analysed. Sadly, high level asset allocation decisions are frequently made on the basis of prejudice and misinformation, rather than a proper appreciation of the facts. Guy Fraser-Sampson draws upon more than twenty years of experience of the private equity industry to provide a practical guide to mastering the intricacies of this highly specialist asset class. Aimed equally at investors, professionals and business school students, it starts with such fundamental questions as ‘what is private equity?’ and progresses to detailed consideration of different types of private equity activity such as venture capital and buyout. Rapid and significant changes in the environment during the recent financial crisis have prompted the need for a new edition. Separate chapters have been added on growth and development capital, as well as secondary investing. Newly emergent issues are considered, such as lengthening holding periods and the possible threat of declining returns. Particular problems, such as the need to distinguish between private equity and hedge funds, are addressed. The glossary has also been expanded. In short, readers will find that this new edition takes their understanding of the asset class to new heights. Key points include: A glossary of private equity terms Venture capital Buyout Growth capital Development capital Secondary investing Understanding private equity returns Analysing funds and returns How to plan a fund investment programme Detailed discussion of industry performance figures

A Continent for the Taking Howard W. French,2007-12-18 In *A Continent for the Taking* Howard W. French, a veteran correspondent for The New York Times, gives a compelling firsthand account of some of Africa’s most devastating recent history—from the fall of Mobutu Sese Seko, to Charles Taylor’s arrival in Monrovia, to the genocide in Rwanda and the Congo that left millions dead. Blending eyewitness reportage with rich historical insight, French searches deeply into the causes of today’s events, illuminating the debilitating legacy of colonization and the abiding hypocrisy and inhumanity of both Western and African political leaders. While he captures the tragedies that have repeatedly befallen Africa’s peoples, French also opens our eyes to the immense possibility that lies in Africa’s complexity, diversity, and myriad cultural strengths. The culmination of twenty-five years of passionate exploration and understanding, this is a powerful and ultimately hopeful book about a fascinating and misunderstood continent.
