The author of the four-million-copy bestselling Feeling Good offers 40+ simple, effective CBT-based techniques to overcome every conceivable kind of anxiety—without medication. “Few truly great books on psychotherapy have been published, and this is one of them.”—Albert Ellis, Ph.D., founder of the Albert Ellis Institute and bestselling author of A Guide to Rational Living We all know what it's like to feel anxious, worried, or panicky. What you may not realize is that these fears are almost never based on reality. When you're anxious, you're actually fooling yourself, telling yourself things that simply aren't true. See if you can recognize yourself in any of these distortions: All-or-Nothing Thinking: “My mind will go blank when I give my presentation at work, and everyone will think I'm an idiot.” Fortune Telling: “I just know I'll freeze up and blow it when I take my test.” Mind Reading: “Everyone at this party can see how nervous I am.” Magnification: “Flying is so dangerous. I think this plane is going to crash!” Should Statements: “I shouldn't be so anxious and insecure. Other people don't feel this way.” Self-Blame: “What's wrong with me? I'm such a loser!” Mental Filter: “Why can't I get anything done? My life seems like one long procrastination.” Using techniques from cognitive behavioral therapy (CBT), which focuses on practical, solution-based methods for understanding and overcoming negative thoughts and emotions, When Panic Attacks gives you the ammunition to quickly

defeat every conceivable kind of anxiety, such as chronic worrying, shyness, public speaking anxiety, test anxiety, and phobias, without lengthy therapy or prescription drugs. With forty fast-acting techniques that have been shown to be more effective than medications, *When Panic Attacks* is an indispensable handbook for anyone who's worried sick and sick of worrying.

Unwinding Anxiety Judson Brewer, 2021-03-09 New York Times and Wall Street Journal bestseller A step-by-step plan clinically proven to break the cycle of worry and fear that drives anxiety and addictive habits We are living through one of the most anxious periods any of us can remember. Whether facing issues as public as a pandemic or as personal as having kids at home and fighting the urge to reach for the wine bottle every night, we are feeling overwhelmed and out of control. But in this timely book, Judson Brewer explains how to uproot anxiety at its source using brain-based techniques and small hacks accessible to anyone. We think of anxiety as everything from mild unease to full-blown panic. But it's also what drives the

addictive behaviors and bad habits we use to cope (e.g. stress eating, procrastination, doom scrolling and social media). Plus, anxiety lives in a part of the brain that resists rational thought. So we get stuck in anxiety habit loops that we can't think our way out of or use willpower to overcome. Dr. Brewer teaches us to map our brains to discover our triggers, defuse them with the simple but powerful practice of curiosity, and to train our brains using mindfulness and other practices that his lab has proven can work. Distilling more than 20 years of research and hands-on work with thousands of patients, including Olympic athletes and coaches, and leaders in government and business, Dr. Brewer has created a clear, solution-oriented program that anyone can use to feel better - no matter how anxious they feel.
